**EMERGENCY POLICY CONCERNING  
SUPERVISING PROFESSIONALS OF LICENSED FIRMS  
(EFFECTIVE APRIL 1, 2020 TO DECEMBER 31, 2020)**

1. The Louisiana Professional Engineering and Land Surveying Board recognizes the significance of the COVID-19 outbreak in the State of Louisiana and the nation, and the effect it is having on engineering and land surveying businesses, especially the ability of those businesses to retain employees.

2. La. R.S. 37:689 and Board Rule 2301(B) require firms to be licensed with the Board before they may practice or offer to practice engineering or land surveying in the State of Louisiana.

3. Board Rule 2305(A)(1) requires that all licensed firms designate one or more supervising professionals who are active licensees of the Board and:

- a. whose primary employment is with the firm on a full-time basis; or
- b. whose secondary employment is with the firm, provided the supervising professional is an owner of the firm

4. Board Rule 2305(E) states that compliance with these requirements cannot be met by a contractual relationship between the firm and an individual licensee in which such individual licensee is available on a consultative basis or solely in a nominal or inactive capacity.

5. Board Rule 2305(A)(3) describes the responsibilities of a supervising professional as including (a) renewal of the firm's license and notification to the Board of any change in the firm's supervising professionals; (b) institution of and adherence to policies of the firm that are in accordance with the licensure law and rules of the Board; and (c) ensuring that all professional services provided by the firm are performed by or under the responsible charge of licensed individuals.

6. During this time of the COVID-19 pandemic, licensed firms may find it financially necessary to temporarily layoff, furlough or reduce the work hours of employees, including the firm's supervising professional(s).

7. For the above reasons, between April 1, 2020 and December 31, 2020 the Board will allow licensed firms to designate supervising professional(s) whose employment is with the firm on a part-time basis, even if the supervising professional is not an owner of the firm. If a licensed firm desires to designate such an individual as a supervising professional, it must immediately notify Board staff in writing of such designation.

8. As always, licensed firms should immediately notify Board staff in writing in the event they terminate/layoff/discharge or otherwise change the firm's supervising professional(s).

9. If a licensed firm properly designates a supervising professional(s) pursuant to either Board Rule 2305 or this emergency policy, the firm can continue practicing and offering to practice engineering/land surveying in Louisiana as usual, without interruption. However, if a licensed firm cannot do so and no longer has a qualified supervising professional, then the firm's license(s) will no longer be active and it will not be allowed to practice or offer to practice engineering/land surveying in Louisiana until such time as it makes a proper designation.

10. The failure to properly notify Board staff of any change in a licensed firm's supervising professional(s) may subject the firm and its supervising professional(s) to disciplinary action by the Board.

11. This emergency policy shall terminate on December 31, 2020.

Due to the ongoing COVID-19 public health emergency, Chairman Carroll appointed Mr. Pike, Ms. Betts and Mr. Fontenot to an Ad Hoc Committee and charged it with reviewing the continuing professional development (CPD) requirements for individual licensees who will be renewing their licenses in 2021 and 2022 and making

1 a recommendation at the next Board meeting regarding the need for an emergency  
2 policy on licensees satisfying the 2020 CPD requirements.
