...serving his country and his military family, and helped to better the lives of thousands of veterans along the way. We began using VetraSpec to document our activities, replacing the old manual paper process. We are now able to generate an interactive report for each region that allows Regional Managers to better analyze office activities. Beginning August 1, 2019, our Veterans Assistance Counselors (VACs) began processing applications for Louisiana Economic Development's Veterans First Business Initiative. Owners of businesses owned by veterans; current active duty, guard, and reserve members; and Gold Star spouses are eligible to have their businesses certified as veteran-, military-, or Gold Star-owned. As such, they are included on a public, searchable database and are allowed to use the Veterans First logo in their marketing materials. Our VACs play a key role in the application process by verifying that the owner is a member of one of the three categories entitled to this benefit.
