MINUTES

REGULAR BOARD MEETING

January 31, 2014

1. Call to Order and Roll Call

Mr. Robert "Bobby" Yarborough, Chairman, called to order the Regular Meeting of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College in the System Building, Baton Rouge, Louisiana, on January 31, 2014 at 1:00 P.M.

The secretary called the roll.

PRESENT

Mr. Robert "Bobby" Yarborough Chairman	Mrs. Ann D. Duplessis Chairman-Elect
Mr. Ronnie R. Anderson	Mr. Raymond J. Lasseigne
Mr. James W. Moore, Jr.	Mr. Jack E. Lawton, Jr.
Mr. Scott Ballard	Mr. Stanley J. Jacobs
Mr. R. Blake Chatelain	Mr. Rolfe McCollister, Jr.
Mr. John S. Woodard	Mr. J. Stephen Perry
Mr. Scott A. Angelle	Dr. John F. George
Mr. Garret "Hank" Danos	

ABSENT

Mr. Lee Mallett

Also present for the meeting were the following: Dr. F. King Alexander, President and Chancellor; LSU System, Mr. Shelby McKenzie, Lead Counsel, LSU System officers and administrators from their respective campuses; faculty representatives; interested citizens and representatives of the news media.

Public Comments

Dr. Barbara Heifferon, LSU Professor of English and Director of the University Writing Program, Dr. Anna K. Nardo, Alumni Professor of English and Mr. Michael Russo, Associate Librarian, requested to address the FY 2014-15 Governor's Executive Budget.

2. Invocation and Pledge of Allegiance

Edward "Eddie" Duhe', Jr. gave the invocation. Brooksie Bonvillian led the Pledge of Allegiance. Both students attend LSU Paul M. Hebert Law Center.

Chairman Yarborough recognized LSU Law Chancellor Jack Weiss. He introduced:

Professor Keith B. Hall, Director of the Mineral Law Institute and Assistant Professor of Law. Professor Hall addressed the board.

3. Approval of the Minutes of the Board Meeting held on December 13, 2013

Upon motion of Mr. Ballard, seconded by Dr. George, the Board voted unanimously to approve the Minutes of the Regular Board Meeting held on December 13, 2013.

Minutes – Regular Board Meeting
January 31, 2014

4. Personnel Actions Requiring Board Approval

Mr. Shelby McKenzie, Lead Counsel, LSU System, advised that Board action is requested for approval of the Personal Actions. The executive staff has reviewed these actions and recommends Board approval.

Upon motion of Mr. Anderson, seconded by Mr. Danos, the Board voted unanimously to approve the Personnel Actions as presented. **(Copy of Personnel Actions on file in the Office of the LSU Board of Supervisors of Louisiana State University)**

5. President's Report

Dr. F. King Alexander, President, LSU System recognized:

Mr. Daniel T. Layzell, Vice President for Budget and Finance;

Mr. John S. Woodard, Student Board Member, who reported on the activities of the Council of Student Body Presidents;

Dr. William T. Cefalu, Executive Director, Pennington Biomedical Research Center;

Interim Chancellor Paul Coreil, LSU Alexandria;

Chancellor Bob Barish, LSU Health Science Center Shreveport;

Interim Chancellor Paul Sisson, LSU Shreveport;

Chancellor Jack Weiss, LSU Paul M. Hebert Law Center;

Dr. Stuart Bell, Executive Vice Chancellor and Provost.

Each provided recent activities, awards and contributions regarding respective campuses.

6. Reports from the Council of Staff Advisors and the Council of Faculty Advisors

Dr. Kevin Cope, President of the LSU Faculty Senate, furnished an informational report.

7. Reports to the Board

7A. Health Plan Status Report (Written Report Only)

7B. FY 2013-2014 2nd Quarter Consolidated Investment Report (Written Report Only)-

Available on LSU System Website

7C. FY 2013-2014 2nd Quarter Consolidated Financial Report (Written Report Only)-

Available on LSU System Website

7D. FY 2013-2014 1st Quarter Internal Audit Summary Report (Written Report Only)

Minutes – Regular Board Meeting
January 31, 2014

Mr. Moore moved, Mr. Ballard seconded, and the Board voted unanimously to accept these reports.

8. Approval of Consent Agenda Items

Chairman Yarborough offered the following recommendation:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the Consent Agenda items as submitted.

Upon motion of Mr. McCollister, seconded by Mr. Ballard, the Board voted unanimously to approve the following Consent resolutions:

8A. Request approval of an Endowed Professorships at LSU A&M

The following Endowed Professorship is proposed based on donations of \$60,000:

- Dr. Joseph D. Martinez Professorship in the School of the Coast and the Environment

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the establishment of the Dr. Joseph D. Martinez Professorship in the School of the Coast and the Environment at LSU, and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named Professorship.

8B. Request approval of an Endowed Professorships at Louisiana State University at Alexandria

The following Endowed Professorship is proposed based on donations of \$60,000:

- Joanne Lyles White Endowed Professorship in Education

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the establishment of the Joanne Lyles White Endowed Professorship in Education at LSU Alexandria, and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named Professorship.

8C. Request approval to establish Endowed First Generation Scholarships for College Students at Louisiana State University at Alexandria

The following Endowed First Generation Scholarships for College Students are proposed based on donations of \$60,000:

- Elder Care Administration Endowed Scholarship for First Generation College Students
- 2012 Endowed Scholarship for First Generation College Students

Minutes – Regular Board Meeting
January 31, 2014

The following Endowed First Generation Scholarships for College Students are proposed based on donations of \$309,839:

- Arnold Aubert Vernon Endowed Scholarship #1 for First Generation College Students
- Arnold Aubert Vernon Endowed Scholarship #2 for First Generation College Students
- Arnold Aubert Vernon Endowed Scholarship #3 for First Generation College Students
- Arnold Aubert Vernon Endowed Scholarship #4 for First Generation College Students
- Arnold Aubert Vernon Endowed Scholarship #5 for First Generation College Students

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the above mentioned Scholarships for First Generation College Students at LSU Alexandria; and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named endowed scholarships.

8D. Request approval of Endowed Professorships at LSU Shreveport

The following Endowed Professorships are proposed based on donations of \$60,000:

- Louisiana State University Shreveport Museum of Life Sciences Endowed Professorship in the College of Sciences
- Max and Jasmine Morelock Endowed Professorship in Chemistry in the College of Sciences

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the establishment of the above mentioned professorships at LSU Shreveport, and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named Professorships.

8E. Recommendation to name the Louisiana State University A&M Department of Construction Management the "Bert S. Turner Department of Construction Management"

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the naming of the Department of Construction Management within the LSU College of Engineering the "Bert S. Turner Department of Construction Management".

9. Committee Reports

Minutes – Regular Board Meeting
January 31, 2014

9A. Research and Economic Development Committee

Mr. Stephen Perry, Chairman of Research and Economic Development Committee, reported that the Committee received one (1) recommendation for consideration for Board approval and one (1) report. It is the recommendation of the Committee that the recommendation receive Board approval.

9A1. Receive the report of the President's Committee on Technology Transfer (Report Only, No Action)

9A2. Recommendation to amend the Regulations of the Board, Chapter VII, Intellectual Property and recommendation to create the LSU Lift Fund restricted account

Upon motion of Mr. McCollister, seconded by Mr. Ballard, the Board voted unanimously to approve the following resolution:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural & Mechanical College hereby amends the Regulations of the Board, Chapter VII, Intellectual Property, in its entirety, replacing it with the attached revised Chapter VII, effective as of this date, and hereby authorizes the Office of the General Counsel to make any necessary technical amendments to this revised Chapter VII; and

BE IT FURTHER RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the creation of a restricted account, entitled the LSU LIFT (Leveraging Innovation for Technology Transfer) Fund, as a permanent account within the Office of the President to support proof-of-concept grants to faculty at any LSU Institution in furtherance of commercial development of inventions, and does also hereby approve the continued deposit of the Fund of Distributable Royalties allocated to the Fund in accordance with the revised Chapter VII, Section 7-4(b) of the LSU Board of Supervisors Bylaws and Regulations.

BE IT FURTHER RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the immediate transfer of funds from the restricted account within the Office of the President entitled "Tech Transfer – President's Office" into the new "LSU LIFT Fund" in the amount of \$2 million dollars."

9B. Finance, Infrastructure, and Core Development Committee

Mr. Anderson, Chairman, Finance, Infrastructure, and Core Development Committee, reported that the Committee received no recommendations for consideration for Board Approval and one item for discussion.

9B1. Discussion of the FY 2014-15 Governor's Executive Budget

9C. Property and Facilities Committee

Mr. McCollister, Chairman of the Property and Facilities Committee, reported that the Committee received four (4) recommendations for consideration for Board approval. It is the recommendation of the Committee that the recommendations receive Board approval.

Minutes – Regular Board Meeting
January 31, 2014

- 9C1. Recommendation to reallocate the Excess Series 2010A Bond Proceeds from completed projects to fund the design and construction of the Evangeline Hall Renovation and New Greek House on the Louisiana State University A&M Campus

Upon motion of Mr. Lasseigne, seconded by Mr. Lawton, the Board voted unanimously to approve the following resolution:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College (the "LSU Board") that: The LSU Board hereby grants approval and authorization to Louisiana State University and Agricultural and Mechanical College (the "University") to (i) reallocate the excess proceeds of the Series 2010A Bonds originally to be used for the Residential College One, Phase II Project in the amount of \$1,960,797 to the planning and construction of the Evangeline Hall Renovation Project, (ii) reallocate the excess proceeds of the Series 2010A Bonds originally to be used for the East Laville Honors College Project in the amount of \$4,595,994 to the Evangeline Hall Project, (iii) and to reallocate the excess proceeds of the Series 2010A Bonds originally to be used for the Annie Boyd Hall Project in the amount of \$5,000,000 to be used for planning, design, and construction of the New Greek House Project.

BE IT FURTHER RESOLVED that the Chairman, Vice Chairman and Secretary of the LSU Board, the President, the Executive Vice President and the Assistant Vice President and University Architect of the LSU System and the Vice Chancellor of Finance and Administrative Services and CFO of the University or anyone of them and their designees are hereby authorized to execute all documents and do all things necessary, on the advice of counsel to the LSU Board of Supervisors, to effectuate and implement this resolution.

- 9C2. Recommendation to approve the Schematic Design for a new Residential Facility at the Hart Parking Lot on the Louisiana State University A&M Campus

Upon motion of Mr. McCollister, seconded by Mr. Chatelain, the Board voted unanimously to approve the following resolution:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby acknowledge that the Residential Facility to be constructed at the Hart Parking Lot is in general compliance with the Campus Design Guidelines and hereby delegates the approval of the detailed plans and specifications to the System Director of Facility Planning, or their designee.

- 9C3. Proposal to approve the Lease of Louisiana State University at Eunice Agricultural Land

Upon motion of Mr. McCollister, seconded by Mr. Chatelain, the Board voted unanimously to approve the following resolution:

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby authorize F. King Alexander, President and Chancellor of the Louisiana State University System, or his designee, to execute a lease agreement with Robert Keith Heinen for the farming of soybeans, rice, milo, and/or winter wheat or combination thereof on approximately eighty-three (83) acres of land located in Section 2, T-7-S, R-1-W, Acadia Parish, as more fully described on Attachment A to this resolution.

Minutes – Regular Board Meeting
January 31, 2014

BE IT FURTHER RESOLVED that said F. King Alexander, President and Chancellor, or his designee, be and he is hereby authorized and empowered for and on behalf of and in the name of the Board of Supervisors to include in the lease agreement any terms and conditions that he may deem in the best interest of the Board of Supervisors.

9C4. Recommendation to authorize an agreement with Tiger Athletic Foundation for creation and use of temporary parking spaces and related demolition of vacant LSU buildings

Upon motion of Mr. McCollister, seconded by Mr. Chatelain, the Board voted unanimously to approve the following resolution:

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College authorizes F. King Alexander, in his capacity as President of LSU, or his designee, to execute an agreement between the Board and Tiger Athletic Foundation for the creation and use of temporary parking facilities and any additional related agreements as may be reasonably necessary to facilitate the creation and use of temporary parking areas on the Land, with all such agreements to contain such terms and conditions as he deems to be in the best interests of LSU; and

BE IT FURTHER RESOLVED, that the Board, pursuant to the Uniform Affiliation Agreement between it and the Tiger Athletic Foundation, finds an acceptable University purpose for Tiger Athletic Foundation to enter into an agreement with LSU for this purpose, and any related or ancillary contracts and agreements reasonably necessary for the creation and use of temporary parking facilities as part of the project.

9D. Health Care and Medical Education Committee

Mr. Lasseigne, Chairman Health Care and Medical Education Committee, reported that the Committee received no recommendations for approval and three (3) updates.

9D1. Update from Executive Vice President for Health Care and Medical Education Redesign, LSU Health Sciences Center New Orleans, and LSU Health Sciences Center Shreveport

Dr. Frank Opelka, Executive Vice President for Health Care and Medical Education Redesign, Chancellor Larry Hollier of Health Sciences Center New Orleans and Chancellor Robert Barish of Health Sciences Center Shreveport provided update reports.

10. Chairman's Report

Chairman Yarborough, on behalf of the Board of Supervisors, recognized earlier in the day through a Board Resolution, Mr. Robert H. Rasmussen for his 40 years of service to LSU upon his retirement as Assistant Vice President of System Relations and asked that a copy of the Resolution be made a permanent record of the LSU Board of Supervisors.

Resolution honoring Dr. Robert H. Rasmussen for his 40 years of service to Louisiana State University

WHEREAS, Dr. Robert Rasmussen began his career at LSU in June, 1974, at the LSU School of Dentistry; and

WHEREAS, Dr. Rasmussen spent four years at the dental school before being invited by Chancellor Allen Copping to the LSU School of Medicine to serve as his Executive Assistant; and

Minutes – Regular Board Meeting
January 31, 2014

WHEREAS, Dr. Rasmussen joined the LSU System in March of 1985, serving as the Assistant to President Allen Copping; and

WHEREAS, for the next 28 years Dr. Rasmussen served in multiple administrative, academic and executive positions at LSU; and

WHEREAS, Dr. Rasmussen has provided steadfast assistance and sound guidance to dozens of LSU Board of Supervisors members and chairs for the past 11 years; and

WHEREAS, for the past 16 years, Dr. Rasmussen has provided his expertise to the Campus Federal Credit Union, serving on its Supervisory Committee and currently serving as its chairman; and

WHEREAS, Dr. Rasmussen has served on numerous LSU academic and administrative committees, is a published journal author and presenter, and is currently a Professor of Instructional Services at the LSU School of Dentistry; and

WHEREAS, Dr. Rasmussen will always be remembered for his kindness and loyalty to LSU, and will be forever known affectionately as “Razz” by his LSU family; and

WHEREAS, Dr. Rasmussen retires from LSU as the Assistant Vice President for System Relations, having provided 40 years of dedicated service, unwavering loyalty and commitment to excellence.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby express its appreciation to Dr. Robert H. “Razz” Rasmussen for his leadership and contributions to the advancement of the Louisiana State University System.

BE IT FURTHER RESOLVED that a copy of this resolution be presented to Dr. Rasmussen as an expression of gratitude from this Board, and that this resolution be entered into the permanent record of the Board of Supervisors.

Chairman Yarborough announced that the Audit Committee would meet in the President's Conference Room upon adjournment. He reminded members that the next regularly scheduled Board meeting will be held on Friday, March 21, 2014 at LSU Shreveport. He encouraged members to arrive Thursday evening for a reception hosted by LSU Shreveport and asked Chancellor Sisson to comment.

Chairman Yarborough also announced he was working with Chairman-Elect Ann Duplessis on a half day board retreat for early March in Baton Rouge. He asked members to reserve the date on their calendars with more information to follow.

11. Adjournment

There being no further business to come before the Board, the meeting was adjourned at 2:45 p.m.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Louisiana State University and A&M College

Wire Transfer Follow-up

Engagement Initiation:

This work was a follow-up review of the February 21, 2013 Electronic Fund Transfers audit. During our review, Accounting Services management notified us of a \$500,000 double payment.

Audit Scope and Objectives:

Determine whether action plans were implemented. Testing included a limited review of transactions subsequent to the prior report date.

Determine why the double payment occurred and propose corrections to the control environment.

Audit Findings:

- The action plans from the prior audit were implemented.
- The duplicate payment was caused by lack of communication between the AG Center and Accounting Services (AS). In addition, AS personnel did not follow the established process for making wire payments. We recommended management implement a wire payment log and a monitoring control to verify the payment request had not already been processed.

Management's Response and Corrective Action Plan:

Management concurred with the control changes. We verified the additional controls were implemented and operating as intended.

Management Letter (Louisiana Legislative Auditor)

Initiation:

This external audit was conducted by the Louisiana Legislative Auditor's Office.

Scope and Objectives:

The Louisiana Legislative Auditor's Office conducted procedures at Louisiana State University and related campuses

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

as part of the Louisiana State University System's financial statement audit for the year ended June 30, 2013, and to evaluate accountability over funds.

Findings:

- Financial information related to accounts tested was fairly stated.
- Internal controls related to those accounts and federal programs provide reasonable accountability over public funds for the period examined.
- LSU did not ensure that all costs had been accurately reflected in the valuation of movable property in its Equipment Records Inventory System. Three of the 15 (20%) movable property acquisitions tested were valued incorrectly.
- LSU issued two bond series during fiscal year 2013: Series 2013 in the amount of \$101,180,000 to be used to fund current campus construction projects and Series 2012 in the amount of \$41,615,000 used to restructure the debt owed on past campus construction projects.

Management's Response and Corrective Action Plan:

Management presented a corrective action plan to address the valuation of movable property in its Equipment Records Inventory System.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Louisiana State University Health Sciences Center New Orleans

LaCarte Card Purchase Review

Audit Initiation:

This audit was included on the annual audit plan approved by the LSU Board of Supervisors Audit Committee.

Audit Scope and Objectives:

Based on our planning process, the most significant risks identified and therefore, the focus of the audit, were inappropriate purchases, misuse of the purchasing card and fraudulent transactions. The scope of the review included the evaluation of internal controls established for the monitoring and administration of the LaCarte purchasing program at HSC-NO.

Audit Findings:

Our review of purchasing transactions and related files identified the following discrepancies:

- Moveable property was not identified and tagged in a timely manner.
- Purchasing card purchases of food did not always comply with HSC-NO policy.
- Purchasing card spending limits were above the maximum necessary given the actual spending patterns of the cardholder.
- Ten of 118 sampled transactions had non-compliant policy discrepancies.

Management's Response and Corrective Action Plan:

HSC-NO management concurred with each of the findings and submitted an appropriate corrective action plan to include enforcing its own procedures, revise policies and provide additional training to personnel.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

System's financial statement audit for the year ended June 30, 2013, and to evaluate accountability over public funds.

Findings:

- Internal control related to those accounts and federal programs provides reasonable accountability over public funds for the period examined.
- Based on a five-year analysis, LSUHSC-NO is becoming more dependent on non-federal grants and contracts revenue and tuition and fees as state appropriations and federal revenues have decreased and enrollment and operating expenses have remained fairly constant.

Management's Response and Corrective Action Plan:
None required.

Applying Agreed-Upon Procedures (Carr, Riggs, & Ingram CPAs and Advisors)

Initiation:

This external agreed upon procedures engagement was conducted by an external Certified Public Accountant.

Scope and Objectives:

Procedures agreed to by The Foundation for LSU Health Sciences Center were performed solely to assist the users in evaluating management's assertions of compliance with LSU System Policies, applicable Louisiana Revised Statutes, the Board of Regents for Higher Education policies, and the Eminent Scholars Endowed Chairs Program for the year ended June 30, 2013.

Findings:

- The Board of Regent's Statement of Investment Policy and Objectives allows a management fee not to exceed 1.25% for all program assets. The Foundation charges a fee on their endowments that are not matched by the Endowed Professorships and Endowed Chairs for

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Eminent Scholars Program. All other management fees were in compliance with the 1.25%.

Management's Response and Corrective Action Plan:

None required.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Louisiana State University Health Sciences Center Shreveport

Independent Accountants Review Report – Louisiana Legislative Auditor

Initiation:

This external audit was conducted by the Louisiana Legislative Auditor's Office.

Scope and Objectives:

The Louisiana Legislative Auditor's Office performed a review at Louisiana State University Health Sciences Center - Shreveport for the period July 1, 2012, through June 30, 2013, and conducted certain procedures to evaluate accountability over public funds as a part of the audit of the Louisiana State University System and Single Audit of the State of Louisiana.

Audit Findings:

- 1) Based on the limited review of the financial statements for SACS re-accreditation, the statements are reasonable.
- 2) As part of the State of Louisiana's privatization initiatives, the Center's primary Shreveport hospital and E.A. Conway Medical Center in Monroe were privatized on October 1, 2013. The Center continues to operate its medical school and will have multiple relationships with clinical partners where appropriate in extending the mission of the school. The Center's remaining hospital, Huey P. Long Medical Center in Pineville, is expected to be privatized by June 30, 2014.
- 3) Based on a four-year analysis, the medical school's enrollment and completion rates have remained relatively stable. Fluctuations in hospital income were caused by changes in Medicare and Medicaid reimbursement rates and methodologies in fiscal year 2012.

Management's Response and Corrective Action Plan: None required.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Applying Agreed-Upon Procedures (Heard, McElroy, & Vestal, LLC Certified Public Accountants)

Initiation:

This external agreed upon procedures engagement was conducted by an external Certified Public Accountant.

Scope and Objectives:

Procedures agreed to by management of The LSU Health Sciences Foundation in Shreveport (the "Foundation"), the Board of Supervisors of the Louisiana State University System, The Louisiana Board of Regents and the Legislative Auditor of the State of Louisiana, were performed solely to assist the users in evaluating management's assertions about the effectiveness of the Foundation's internal control structure over compliance with the requirements concerning the Endowed Chair, Endowed Professorship, and Endowed Scholarship Program funds during the year ended June 30, 2013.

Findings: There were no findings noted.

Management's Response and Corrective Action Plan:

None required.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Louisiana State University Shreveport

Applying Agreed-Upon Procedures (Heard, McElroy, & Vestal, LLC Certified Public Accountants)

Initiation:

This external agreed upon procedures engagement was conducted by an external Certified Public Accountant.

Scope and Objectives:

Procedures agreed to by management of The LSU in Shreveport Foundation, Inc. (the "Foundation"), the Board of Supervisors of the Louisiana State University System, The Louisiana Board of Regents and the Legislative Auditor of the State of Louisiana, were performed solely to assist the users in evaluating management's assertions about the effectiveness of the Foundation's internal control structure over compliance with the requirements concerning the Endowed Chair, Endowed Professorship, and Endowed Scholarship Program funds during the year ended June 30, 2013.

Findings:

- The Alta & John Franks First Generation Scholarship and the Harman & Renae Chandler First Generation Scholarship had spending greater than the amount allocated for spending during the year; however, the Market Value of these endowments did not drop below the corpus amount. This is an exception to the Foundation's internal spending policy but not the Louisiana Board of Regents Statement of Investment Policy and Objectives.
- The John and Cheryl Good Charitable Foundation First Generation Scholarship had spending during the year while the Market Value was below corpus and spending was allocated at \$0.00. This is an exception to both the Foundation's internal spending policy and the Louisiana Board of Regents Statement of Investment Policy and Objectives.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Management's Response and Corrective Action Plan:

Management concurred with the findings and has agreed to corrective action to address the noted issues, and to look at remedies to keep this from happening again.

Quarterly Audit Summary

Fiscal Year 2014, 2nd Quarter

Louisiana State University System

Financial Statement Audit – Louisiana Legislative Auditor

Initiation:

This external audit was conducted by the Louisiana Legislative Auditor's Office.

Scope and Objectives:

The Louisiana Legislative Auditor's Office conducted a financial statement audit of the Louisiana State University System (System) for the year ended June 30, 2013, as a part of the Single Audit of the State of Louisiana and to provide accountability over public funds.

Audit Findings:

- 1) The System's financial statements are fairly stated, and no significant deficiencies or material weaknesses that require reporting in the System report were noted. Findings related to the campuses and hospitals and management's responses are included in their respective reports.
- 2) During the fiscal year, the System entered into public-private partnerships for indigent health care services. As a result, three out of the state's 10 public hospitals are now managed by private entities; one hospital closed; and one hospital's inpatient facility closed while its clinics are being operated by a private entity. In addition, during fiscal year 2014, three additional hospitals will transfer management to private entities and one additional hospital will close. It is anticipated that by the end of fiscal year 2014, only one hospital will remain under the management of the System.
- 3) Operating expenses and hospital income continue to decline because of the hospital privatization agreements noted above. Payments received in consideration for these agreements caused an increase in state appropriations for hospital activities; however, state appropriations received for other purposes continued to decrease. This only represents the cost to the LSU System, and not the state as a whole.

Management's Response and Corrective Action Plan:
None required.

CONSENT AGENDA

Approval of Consent Agenda Items

- A. Request approval of Endowed Professorships at the LSU Health Sciences Center in New Orleans
 - Dean Fontham Scholars Professorship
 - Howard and Joy Osofsky Professorship of Addiction Psychiatry
- B. Request approval of a Letter of Intent for a Master of Science in Dentistry (MSD) program at the LSU Health Sciences Center School of Dentistry in New Orleans
- C. Request approval to establish the Michael H. Woods Family First Generation Scholarship at LSU Shreveport
- D. Request reauthorization of the Institute for Human Services and Public Policy and to change the name to the Institute for Nonprofit Administration and Research at LSU Shreveport
- E. Request approval to establish a Certificate in Energy Law at the LSU Paul M. Hebert Law Center
- F. Request by LSU Agriculture Center for Approval of Assignment by Pennington Oil & gas Interests, LLC of Overriding Royalty Interest to John W. Walker, Jr.
- G. Recommendation to Name LSU Alexandria's Multi-Purpose Academic Center the "Howard M. and Eloise F. Mulder Hall"
- H. Request approval of degrees to be conferred at the spring and summer 2014 commencement exercises

Academic and Student Affairs Consent Agenda

REQUEST APPROVAL OF ENDOWED PROFESSORSHIPS AT THE LSU HEALTH SCIENCES CENTER IN NEW ORLEANS

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, section 8 of the Bylaws:

D.1 Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions.

2. Summary of the Matter

Significant donations have been made to the Foundation for the LSU Health Sciences Center in New Orleans for the establishment of Endowed Professorships. The Board of Regents Support Fund was created by the Legislature of Louisiana in 1989 as Act 647 providing therein for multiple \$40,000 challenge grants to be awarded on a one to one and one-half matching basis, and these donations qualify for inclusion in the Board of Regents Support Fund matching grants program.

The following Endowed Professorship is proposed based on donations of \$60,000:

- Dean Fontham Scholars Professorship at the LSU Health Sciences Center School of Public Health in New Orleans

The following Endowed Professorship is proposed based on donations of \$120,000:

- Howard and Joy Osofsky Professorship of Addiction Psychiatry at the LSU Health Sciences Center School of Medicine in New Orleans

3. Review of Documents Related to Referenced Matter

Supporting materials for the proposed Professorships are in order.

4. Certification of campus (or equivalent) re. paragraph C, Article VII, Section 8.

Certification was provided in the resolution to create the Professorships.

RECOMMENDATION

It is recommended that the Board of Supervisors approve the following resolution:

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the establishment of the above mentioned professorships at the LSU Health Sciences Center in New Orleans,

and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named Professorships.

Academic and Student Affairs Consent Agenda

REQUEST APPROVAL OF A LETTER OF INTENT FOR A MASTER OF SCIENCE IN DENTISTRY (MSD) PROGRAM AT THE LSU HEALTH SCIENCES CENTER SCHOOL OF DENTISTRY IN NEW ORLEANS

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, Section 8 of the Bylaws of the Board of Supervisors:

D. 1. Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions.

2. Summary of the Matter

The proposed Master of Science in Dentistry is a professional, 36-credit-hour, 24 to 36 month program. The proposed program will be an important enhancement to the advanced education programs currently offered at the LSU Health Sciences Center Dental School. The degree program was developed for postgraduate students enrolled in the advanced education specialty programs of endodontics, orthodontics, pediatric dentistry, periodontics and prosthodontics. The goal of the program is to develop well-trained clinicians capable of providing biologic, scientific and knowledge based patient care. The program will also develop potential faculty members with a comprehensive background of clinical experience, basic science knowledge and an understanding of research methodology. The School of Dentistry considers a research experience to be an important component in preparation for a specialist career, and development of this program is a high priority in their Strategic Plan.

Currently the postgraduate students in the Commission on Dental Accreditation accredited specialty programs mentioned above receive a certificate on completion of the program, although the courses for the certificate programs are master degree level courses. Offering the Masters of Science in Dentistry degree would increase the opportunity to enroll the highest quality students in the specialty programs. Some dental schools offer a masters degree in conjunction with the specialty training, many students desiring a Master's degree select other dental schools. Therefore, the LSU School of Dentistry is not as competitive in attracting the strongest students in several of their specialty programs.

There is a national shortage of dental educators and the recruitment of qualified dental educators is difficult. Offering the Masters of Science in Dentistry degree would enhance the recruitment of those interested in an academic career to the specialty programs of LSUHSC School of Dentistry. Since students must also complete an approved publishable manuscript based on original research as well as complete the requirements of the specialty certificate program, the faculty anticipate that the quality and scope of student and departmental research will be enhanced and hence

contribute to the research mission of the school. The Masters of Science in Dentistry degree would provide the graduate a robust research experience that would better prepare them for an academic career, including providing a significant opportunity to attract graduates to faculty positions at the LSUHSC School of Dentistry.

There are currently 24 dental schools in the U.S. that offer the Masters of Science in Dentistry degree and 14 offering a Masters Degree in Oral Biology or Oral Sciences in conjunction with the specialty certificate programs. There is significant student interest and demand for the program by applicants to the advanced education dental specialty programs. Maximizing the quality and strength of enrolled students benefits Louisiana as many of the specialty graduates stay and practice in Louisiana and creation of this program will fill an unmet need.

3. Review of Business Plan

The cost of the program will be absorbed out of current resources and there will not be a need for additional resources. The required courses for the new degree are presently being offered in the Advanced Education certificate programs. Current faculty are committed to providing the research mentoring and support. Mentoring teams have been developed and identified. The faculty of the School of Dentistry enthusiastically supports the offering of the Masters of Science in Dentistry degree. Administrative support will be provided by the existing School of Dentistry Office of Advanced Education. The School of Dentistry Committee on Advanced Education will provide academic oversight of the program.

4. Review of Documents Related to Referenced Matter

The Letter of Intent has been reviewed and approved by appropriate campus faculty and administrative officers, the System Executive Graduate Council, and the LSU System Office of Academic Affairs. The proposed program clearly satisfies the criteria of the Board of Regents for establishing a new academic program. A detailed proposal is available for review within the Office of Academic Affairs.

5. Certification of campus (or equivalent) re. paragraph C, Article VII, Section 8.

Appropriate certification has been provided by the campus.

RECOMMENDATION

It is recommended that the LSU Board of Supervisors approve the following resolution:

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the Letter of Intent for a Master of Science in Dentistry (MSD) at Louisiana State University Health Sciences Center School of Dentistry in New Orleans, subject to approval by the Louisiana Board of Regents.

Academic and Student Affairs Consent Agenda

REQUEST APPROVAL TO ESTABLISH AN ENDOWED FIRST GENERATION SCHOLARSHIP FOR COLLEGE STUDENTS AT LSU SHREVEPORT

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, section 8 of the Bylaws:

D.1 Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions.

2. Summary of the Matter

A substantial donation has been made to the LSU Shreveport Foundation to establish an Endowed Scholarship for First Generation college students at LSU Shreveport. The BoRSF Endowed Undergraduate Scholarship Program, founded in 2007, is a non-competitive program providing BoRSF matching funds to establish endowed scholarship funds in support of first-generation college students. Each four-year institution is guaranteed one \$40,000 endowed scholarship fund challenge grant annually to match a private/institutional contribution of \$60,000; each two-year institution is guaranteed one \$20,000 endowed scholarship fund challenge grant annually to match a private/institutional contribution of \$30,000. Proceeds will be used to establish/enhance permanent endowed scholarship funds. The interest earning from the fund(s) will be awarded at the discretion of the institution to eligible students.

The following Endowed First Generation Scholarship for College Students is proposed based on a donation of \$60,000:

- Michael H. Woods Family First Generation Scholarship

3. Review of Documents Related to Referenced Matter

Supporting materials for the proposed scholarship program is in order.

4. Certification of campus (or equivalent) re. paragraph C, Article VII, Section 8.

Certification was provided in the resolution to create the scholarship program.

RECOMMENDATION(s)

It is recommended that the Board of Supervisors approve the following resolution:

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College hereby approves the Michael H. Woods Family First Generation Scholarship at LSU Shreveport;

and

BE IT FURTHER RESOLVED that the Chairman of the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College and/or the President of the Louisiana State University System, as may be appropriate, are hereby authorized and directed to execute any documents required to obtain the matching gift and otherwise complete the establishment of the above named endowed scholarship.

ACADEMIC AND STUDENT AFFAIRS CONSENT AGENDA

REQUEST REAUTHORIZATION OF THE INSTITUTE FOR HUMAN SERVICES AND PUBLIC POLICY AND TO CHANGE THE NAME TO THE INSTITUTE FOR NONPROFIT ADMINISTRATION AND RESEARCH AT LSU SHREVEPORT

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, Section 8 of the Bylaws of the Board of Supervisors:

D. 1. Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions

2. Summary of the Matter

Background. Louisiana State University Shreveport is requesting reauthorization of the Institute for Human Services and Public Policy (IHSP) and to change the name to *Institute for Nonprofit Administration and Research*.

The IHSP at Louisiana State University Shreveport was initially established in 2002 to provide nonprofit administration courses and advanced learning opportunities to the students of LSUS and the residents of Shreveport Bossier. The Institute was reauthorized by the LSU Board of Supervisors and the Board of Regents in 2009.

The purposes of the Institute include:

- 1) Provide nonprofit administration courses and advanced learning opportunities to students of LSU Shreveport. Through partnership with the Nonprofit Leadership Alliance (NLA) students completing their Minor in Nonprofit Administration and Masters in Human Service Administration are also eligible to receive a nationally recognized Certificate in Nonprofit Management and Leadership, including use of the exclusive credential Certified Nonprofit Professional (CNP).
- 2) Offer a range of professional services to nonprofit organizations, government entities, and businesses. The IHSP specializes in program evaluations, focus groups, program planning, satisfaction surveys, and employment entrance and promotional exams. These activities have provided a pipeline of annual contracts that have generated resources for the work of the Institute.
- 3) Provide opportunities for LSU Shreveport students to connect with local non-profits in supervised internships. In this way the Institute serves a vital role in the community as a

source of passionate students dedicated to the nonprofit mission. Students gain valuable experience as well as professional contacts that will serve them well in their future nonprofit work.

The reason for the request to change the name of the IHSP to the *Institute for Nonprofit Administration and Research* is to be more reflective of the Institute's mission and to enhance the programs offered by providing a better understanding of the function of the unit and to better align it with similar degree programs, especially Business Administration and Health Care Administration. The discipline of nonprofit management has changed and the common practice is to use "nonprofit", since it more clearly describes the purpose of these programs than the term "human services".

Research Activities. On an annual basis, the Institute provides fifteen courses for the Northwest Louisiana community. The Institute also provides numerous public presentations to the business and nonprofit communities. The Institute also participates in several applied research projects on behalf of local nonprofits (healthcare) and government agencies (law enforcement).

3. Fiscal Note

The budget for the next five years includes a small amount of general funds as well as funding from several local and regional contracts. Revenue is projected to range from approximately \$279,000 to \$406,000, of which 90% is from Research and Analysis Projects and 10% from the general fund. Research projects include the Consumer Assessment of Healthcare Providers (Patient Satisfaction Survey) for 7 healthcare organizations and testing and grading services for entry level and promotion eligible employees for the Louisiana State Policy Commission. Even though these partners have been a reliable source of funds, the Institute will continue to aggressively develop new revenue streams by monetizing the research provided to the local community and to pursue additional grant opportunities.

4. Review of Documents

This proposal has been reviewed by the appropriate LSU Shreveport campus officials. The full proposal is available in the System Office of Academic Affairs.

5. Certification of campus (or equivalent) re paragraph C, Article VII, Section 8.

The proposed reauthorization and name change has been approved by appropriate faculty and campus academic administrators and by the System Office of Academic Affairs.

RECOMMENDATION:

It is recommended that the LSU Board of Supervisors adopt the following resolution:

RESOLUTION:

“NOW, THEREFORE BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College approves the request for reauthorization of the Institute for Human Services and Public Policy and to change the name to the Institute for Nonprofit Administration and Research at LSU Shreveport, subject to approval by the Board of Regents.”

ACADEMIC AND STUDENT AFFAIRS CONSENT AGENDA

REQUEST APPROVAL OF A GRADUATE CERTIFICATE IN ENERGY LAW AND POLICY AT THE LSU LAW CENTER

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, Section 8 of the Bylaws of the Board of Supervisors:

D. 1. Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions

2. Summary of the Matter

Purpose. The Graduate Certificate in Energy Law and Policy allows the LSU Paul M. Hebert Law Center to officially recognize students who have demonstrated substantial competence in the study of energy law and related subject matter. It helps prepare participating students for careers in energy law and related fields by ensuring that they take appropriate coursework and providing exposure to relevant applied learning experiences.

Curriculum. Students are required to earn 18 hours of credit by taking a series of required courses and selecting from a group of elective courses. Mandatory courses include: Mineral Rights; Energy Law and Regulation; Administrative Law; and Introduction to Environmental Law. In addition, students must earn a grade point average of 3.2 in all courses taken to satisfy the course requirements and must have an overall average of 3.0 at graduation. Students also must write a research paper on an energy law topic under the supervision of a faculty member.

The certificate program also requires that students participate in at least 14 hours of applied learning experiences related to energy law and policy. The program provides for various means of satisfying the applied learning requirement, including externships and internships that provide energy-related learning experiences outside of the traditional classroom setting.

Students also must perform 10 or more hours of service in support of the activities of the LSU John P. Laborde Energy Law Center.

By fulfilling these requirements, students awarded the Graduate Certificate in Energy Law and Policy will have acquired substantive legal knowledge and "practice ready" skills to prepare them for the practice of law and leadership in the energy sector.

Students. Any LSU law student in good standing who has completed at least one full year of full-time law study with a grade point average of 2.6 or higher will be eligible to enroll in the certificate program.

3. Review of Business Plan

Courses initially included in the Energy Law Certificate program will be taught by current members of the law faculty. Accordingly, there will be no additional resources required at this time to implement the certificate program. If, as the certificate program evolves and expands, additional resources are required, the Law Center anticipates being able to fund those expenses in whole or in part out of private funds donated to the Laborde Center (currently in excess of \$5 million) or from other, unrestricted private funds of the Law Center. In any event, any additional expenses of the certificate program are not anticipated to be significant in relation to the Law Center's annual budget, currently approximately \$23 million.

4. Review of Documents Related to Referenced Matter

The full proposal for the Graduate Certificate in Energy Law and Policy is available in the System Office of Academic Affairs.

5. Certification of campus (or equivalent) re. paragraph C, Article VII, Section 8.

The proposed program has been approved by appropriate faculty and campus academic administrators and by the System Office of Academic Affairs.

RECOMMENDATION

It is recommended that the LSU Board of Supervisors approve the following resolution:

RESOLUTION

NOW, THEREFORE BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the Graduate Certificate in Energy Law and Policy at the LSU Law Center, subject to approval by the Louisiana Board of Regents.

**REQUEST BY LSU AGRICULTURAL CENTER
FOR APPROVAL OF ASSIGNMENT BY
PENNINGTON OIL & GAS INTERESTS, LLC
OF OVERRIDING ROYALTY INTEREST TO
JOHN W. WALKER, JR.**

To: Members of the Board of Supervisors

Date: March 21, 2014

Pursuant to Article VII, Section 8, D.2(a) of the Bylaws of the Louisiana State University Board of Supervisors, this matter is a "significant board matter".

D.2(a) The assignment, lease, transfer, encumbrance or sale of land, mineral rights, rights-of-way, servitudes, or other immovable property owned or controlled by LSU...

1. Summary of the Matter

The LSU AgCenter has received a request for assignment of overriding royalty interest by Pennington Oil & Gas Interests, LLC (Assignor) to John W. Walker, Jr. (Assignee) for State Agency Leases 21229 and 21320 at the Ben Hur Research Station. Pennington is seeking Board approval on this matter. The LSU AgCenter is further requesting the Board of Supervisors to authorize and empower the President at this time approval the assignment of overriding royalty interest.

2. Review of Business Plan

None

3. Fiscal Impact

None

STATE OF LOUISIANA
PARISH OF EAST BATON ROUGE

ASSIGNMENT OF OVERRIDING ROYALTY INTEREST

KNOW ALL MEN BY THESE PRESENTS, that

WIHEREAS,

PENNINGTON OIL & GAS INTERESTS, L.L.C. (hereinafter referred to as "ASSIGNOR") is the present owner of 100% interest in the following described Oil, Gas and Mineral Leases (hereinafter referred to as the "Leases"), to-wit:

Lease for Oil, Gas and Other Liquid or Gaseous Materials, being State Agency Lease No. 21230, by and between the State Mineral and Energy Board, as Lessor, and Pennington Oil & Gas Interests, L.L.C., as Lessee, dated August 14, 2013 and recorded under ORG 038 and BNDL 12527 of the Public Records of East Baton Rouge Parish, Louisiana.

Lease for Oil, Gas and Other Liquid or Gaseous Materials, being State Agency Lease No. 21229, by and between the State Mineral and Energy Board, as Lessor, and Pennington Oil & Gas Interests, L.L.C., as Lessee, dated August 14, 2013 and recorded under ORG 043 and BNDL 12527 of the Public Records of East Baton Rouge Parish, Louisiana.

NOW THEREFORE, for and in consideration of the sum of ONE HUNDRED AND NO/100 DOLLARS and OTHER VALUABLE CONSIDERATION (\$100.00 & OVC) the receipt and sufficiency of which is hereby acknowledged,

ASSIGNOR does hereby BARGAIN, GRANT, SELL, ASSIGN and CONVEY, without warranty, express or implied, and does by these presents BARGAIN, GRANT, SELL, ASSIGN and CONVEY unto and in favor of

JOHN W. WALKER, JR.
P.O. Box 52368
Lafayette, La. 70505-2368

(hereinafter referred to as "ASSIGNEE"), an overriding royalty interest of **1.00% of 8/8ths** in and to all

oil, gas and other minerals produced and saved under and by virtue of the Leases described above (hereinafter referred to as "Overriding Royalty Interest").

The Overriding Royalty Interest is subject to the terms and provisions of the Leases and any amendments or modifications thereof or thereto. The Overriding Royalty Interest shall be calculated and paid or delivered to ASSIGNEE in the same manner as that provided in the Leases for the payment of royalty to the Lessor's therein. The Overriding Royalty Interest shall bear its proportionate share of severance and production taxes, however, said Overriding Royalty Interest shall bear no costs or expenses whatsoever, including, but not limited to, the cost of drilling, development, producing, pipelines, facilities, operating, delay rentals, and all other costs and expenses. The Overriding Royalty Interest in the Leases may be pooled and unitized in the same manner and under the same and identical terms, conditions and provisions as the Lessor's royalty may be pooled and unitized under the terms of said Leases. The Overriding Royalty Interest shall be proportionately reduced if any of the Leases cover less than 100% of the mineral interest in and to the land covered thereunder or the interest acquired therein by ASSIGNOR is less than 100% of the leasehold interest.

TO HAVE AND TO HOLD unto ASSIGNEE, subject to the terms, provisions, limitations, agreements and other matters described herein.

Except as against the acts of ASSIGNOR, this Assignment is made without warranty, express or implied, but with complete transfer and subrogation of all rights and actions of ASSIGNOR in warranty against Lessors and all former owners of the leases.

This Assignment is made in accordance with and subject to the terms and provisions of that certain unrecorded Settlement And Termination Agreement by and between ASSIGNOR and ASSIGNEE dated effective November 30, 2012 ("STA"). No subsequent assignment or sublease or other transfer of a working interest in the Leases by ASSIGNOR shall reduce or adversely affect ASSIGNEE'S Overriding Royalty Interest granted herein. Additionally, the STA provides that upon the acquisition of mineral leases within the S. University Prospect which is defined as acreage which falls inside the geographical boundaries of the outline labeled "AMI" on the plat attached as Exhibit "B" ("AMI"), ASSIGNEE shall be entitled to an overriding royalty interest in said leases. Therefore, ASSIGNOR and ASSIGNEE hereby specifically declare, pursuant to the terms and provisions of La. R.S. 31:216, et seq., the import or nature of said STA as set forth above, and that original copies of said STA are located in the offices of ASSIGNOR and ASSIGNEE.

This Assignment shall be binding and inure to the benefit of ASSIGNOR and ASSIGNEES, their respective heirs, successors and assigns, forever.

This Assignment may be signed in counterpart and when executed by ASSIGNOR and ASSIGNEE shall have the same force and effect as if both parties had executed the same instrument.

This instrument is executed effective August 31st, 2013.

**RECOMMENDATION TO NAME
LSU ALEXANDRIA'S MULTI-PURPOSE ACADEMIC CENTER THE
"HOWARD M. AND ELOISE F. MULDER HALL"**

To: Members of the Board of Supervisors

Date: March 21, 2014

Pursuant to Article VII, Section 8. D.5.c. of the Bylaws of the Louisiana State University Board of Supervisors, this matter is a "significant board matter".

D.5(c) Such other matters that are not expressly delegated herein or hereafter by the Board to the President or equivalent and which reasonably should be considered to require Board approval as generally defined above and as construed in light of the illustrative listings.

1. Summary of the Matter

The Naming Facilities Committee of LSU Alexandria, on February 17, 2014, voted to propose designating LSU Alexandria's Multi-Purpose Academic Center, as the "Howard M. and Eloise F. Mulder Hall".

Naming this LSUA structure for Howard M. and Eloise F. Mulder is appropriate because of their roles as primary university benefactors. Already the largest donors to Louisiana State University at Alexandria, on February 18, 2014 the Mulders' additional \$6.2 million bequest to LSUA was announced. Based on their long-term support and generosity to LSUA, it is appropriate to commemorate them by naming LSUA's Multi-Purpose Academic Center in their honor.

The LSUA Multi-Purpose Academic Center is the largest classroom building on the LSUA campus. The LSUA Multi-Purpose Academic Center contains 70,147 gross square feet of classroom and office space. This building had a completion date of August 2011. The Multi-Purpose Academic Center added classrooms and offices to the LSUA campus along with a black box theater and other areas:

- 58 faculty offices
- 12 classrooms seating 30
- 2 classrooms seating 85
- 2 classrooms seating 48
- 1 "Methods" classroom seating 30
- Computer Lab/Writing Lab for 20 students with separate study room for 6 students
- Painting/Drawing studio for 30 students
- Ceramics studio for 24 students, associated kiln room and outdoor ceramics yard
- Photography suite consisting of lecture/work area for 20 students, traditional darkroom, digital printer
- Archive storage for LSUA permanent art collection
- Chorale Room/Theatre rehearsal space
- 4 music practice rooms with associated music storage areas
- Black Box theatre seating 175 with associated control booth, equipment/lighting systems, lighting catwalks
- Theatre support spaces: dressing rooms, costume shop, scenery shop, and loading dock
- 3 office/studios for arts instructors
- 4 Department office suites

Mr. Howard M. Mulder passed away in 2011; Eloise F. Mulder preceded him in death. Both Howard and Eloise Mulder received the highest LSUA honor, the LSUA Distinguished Service Award. They were founding members of the LSUA Foundation Board of Directors. Mr. Mulder served a two-year term as President of the LSUA Foundation. Under his leadership the LSUA Foundation completed the LSUA

Children's Center – the first Children's Center in the LSU System. Prior to their \$6.2 million bequest to LSUA, they donated approximately \$1.1 million to the university, including funding for the Eloise Ferris Mulder Center for Teaching Excellence. The Mulders were responsible for The Howard M. and Eloise Ferris Mulder Endowed Professorship in Physics, the Jenkins-Mulder Endowed Professorship in Business and numerous scholarship related gifts and other donations.

Mr. and Mrs. Mulder were very active in the Central Louisiana community serving on numerous board committees. They supported many civic and charitable organizations throughout Central Louisiana and were active members of Calvary Baptist Church. Mrs. Mulder earned a bachelor's degree in English literature from the University of Colorado, while Mr. Mulder graduated with a Bachelor of Science degree in mechanical and aeronautical engineering from the University of Wisconsin. He continued his studies at The Institute of Aeronautical Sciences and served on the Board of Directors of Miller Electric Company, both in Appleton Wisconsin.

Mr. Mulder was a project design engineer at Wright Aircraft and a design engineer at Allison Aircraft. He was a pilot and a Delta Air lines Flying Colonel of the Delta Fleet. He was an honorary member of the Pi Tau Sigma Mechanical Engineering Fraternity. Mr. Mulder held key aviation patents which are in use in airplanes today.

The proposal is that renaming of the Multi-Purpose Academic Center, for the Mulders, be designated by a plaque placed within the lobby of this facility and that it be designated as "Mulder Hall" on its exterior walls.

LSU SYSTEM

Dr. F. King Alexander, President
Louisiana State University System
3810 West Lakeshore Drive
Baton Rouge, LA 70808

Dear President Alexander:

The Facilities Naming Committee of LSU Alexandria, on February 17, 2014, voted to propose designating LSU Alexandria's Multi-Purpose Academic Center, as the "Howard M. and Eloise F. Mulder Hall". We are now requesting that the LSU Board of Supervisors approve this recommendation.

Naming this LSUA structure for Howard M. and Eloise F. Mulder is appropriate because of their roles as primary university benefactors. Already the largest donors to Louisiana State University at Alexandria, on February 18, 2014, as you know the Mulders' additional \$6.2 million bequest to LSUA was announced. Based on their long-term support and generosity to LSUA, it is appropriate to commemorate them by naming LSUA's Multi-Purpose Academic Center in their honor.

Mr. Howard M. Mulder passed away in 2011; Eloise F. Mulder preceded him in death. Both Howard and Eloise Mulder received the highest LSUA honor, the LSUA Distinguished Service Award. They were founding members of the LSUA Foundation Board of Directors. Mr. Mulder served a two-year term as President of the LSUA Foundation. Under his leadership the LSUA Foundation completed the LSUA Children's Center - the first Children's Center in the LSU System.

Prior to their \$6.2 million bequest to LSUA, they donated approximately \$1.1 million to the university, including funding for the Eloise Ferris Mulder Center for Teaching Excellence. The Mulders were responsible for The Howard M. and Eloise Ferris Mulder Endowed Professorship in Physics, the Jenkins-Mulder Endowed Professorship in Business and numerous scholarship related gifts and other donations.

Mr. and Mrs. Mulder were very active in the Central Louisiana community serving on numerous board committees. They supported many civic and charitable organizations throughout Central Louisiana and were active members of Calvary Baptist Church. Mrs. Mulder earned a bachelor's degree in English literature from the

Dr. F. King Alexander

University of Colorado, while Mr. Mulder graduated with a Bachelor of Science degree in mechanical and aeronautical engineering from the University of Wisconsin. He continued his studies at The Institute of Aeronautical Sciences and served on the Board of Directors of Miller Electric Company, both in Appleton Wisconsin.

Mr. Mulder was a project design engineer at Wright Aircraft and a design engineer at Allison Aircraft. He was a pilot and a Delta Air lines Flying Colonel of the Delta Fleet. He was an honorary member of the Pi Tau Sigma Mechanical Engineering Fraternity. Mr. Mulder held key aviation patents which are in use in airplanes today.

The proposal is that renaming of the Multi-Purpose Academic Center, for the Mulders, be designated by a plaque placed within the lobby of this facility and that it be designated as "Mulder Hall" on its exterior walls.

Your consideration and approval of this recommendation is requested. We are asking that this be placed on the agenda for the next Board of Supervisors meeting. The related board submittal is enclosed. If you need additional information, please let me know.

Sincerely,

Paul Coreil
Interim Chancellor

Enclosure

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby approve the degrees to be conferred on candidates meeting degree requirements for graduation at commencement exercises on campuses of the LSU System (May 12, 15, 16, 17, 18, 24, 30, 2014).

COMMENCEMENT INFORMATION: (www.lsu.edu/commencement)

Candidates Not Attending Commencement Day

Pick-Up Diploma: 8:30 a.m.-4:30 p.m., beginning Monday, May 19, Office of the University Registrar, Room 112 Thomas Boyd Hall.

Mail Diploma: Fax (225/578-5991) or email (registrar@lsu.edu) your full name and mailing address to the Office of the University Registrar. Diplomas will be mailed out on or near May 27 only if a written request has been submitted and received. Diplomas will not be mailed to local addresses.

Cap & Gown

All degree candidates are expected to wear a cap and gown. The cap tassel should be suspended over the left front of the cap. Students receiving a bachelor's or a master's degree should contact the LSU Bookstore for information on the purchase of the cap and gown. Doctoral degree candidates should contact the LSU Bookstore for the deadline date for renting or purchasing a doctoral cap & gown. Doctoral degree candidates should not purchase or rent the doctoral hood. The hood will be presented at the ceremony.

Contact: LSU Bookstore Customer Service desk 225/578-7412

Disabled Graduates & Guests

Disabled graduates: Contact your dean's office to arrange for accommodations at the diploma ceremony.

Parking Passes: Graduates or guests who have disabled license plates/placards or who are unable to walk long distances due to a disability will need to secure a parking pass. This pass is required to park in an area or parking lot designated for persons with special needs.

Contact: Parking, Traffic, & Transportation 225/578-5006

Sign Language: Sign language interpreting services must be requested for the college diploma ceremony. Communication arrangements must be made at least one week in advance of commencement.

Contact: Disability Services 225/578-5919 or 225/578-2600 (TTY).

Special Seating: Special seating is available for guests who use a wheelchair and for guests unable to walk long distances or climb stairs. Due to limited space, guests with disabilities are permitted to have only one nondisabled person to sit with them in the designated area.

Other: If other special accommodations are needed, requests should be made at least one week in advance of commencement

Contact: Disability Services 225/578-5919 or 225/578-2600 (TTY)

Family Educational Rights & Privacy Act of 1974 (Buckley Hold)

Students with a hold on their records should be aware that their name will be withheld from any commencement publications (e.g., commencement programs, web) and news releases (e.g., newspapers). Also, your name and home mailing address will not be given to the commencement ceremony photographer. If you would like to reconsider the decision you have made, submit a written request to the Office of the University Registrar, Room 112 Thomas Boyd Hall by April 15.

Financial Obligations

All fees, fines and other financial obligations should be paid before May 13. Your diploma cannot be released until all obligations have been met.

Contact: Bursar Operations 225/578-3357

Room 125 Thomas Boyd Hall

Invitations/Announcements

Orders will be taken beginning February 14 and will be shipped out approximately three weeks after the order has been made.

Balfour orders:

- credit card orders: 1-866-225-3687
- fax orders: 1-800-278-2612

AGENDA

1. Request approval to realign the governance of Louisiana State University and A&M College and the LSU Paul M. Hebert Law Center

Academic and Student Affairs Agenda Item #1

REQUEST APPROVAL TO REALIGN THE GOVERNANCE OF LOUISIANA STATE UNIVERSITY AND A&M COLLEGE AND THE LSU PAUL M. HEBERT LAW CENTER

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a significant board matter pursuant to the following provisions of Article VII, Section 8 of the Bylaws of the Board of Supervisors:

- D. 1. Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions.

2. Summary of the Matter

Background. Since 1977, the LSU Paul M. Hebert Law Center (“the Law Center”) has constituted a separate campus of the LSU System. However, LSU and the Law Center already are intertwined in many ways—for example, through shared services, dual degree programs, and cross-registration opportunities. Realigning the Law Center as an academic unit of LSU would foster even greater unity of purpose and would provide additional, significant interdisciplinary academic and research synergies. Realignment also has the potential to achieve some additional efficiencies and cost savings. This proposal, if approved by the Board and accreditors, would terminate the separate campus status of the Law Center and realign the Law Center as an academic unit of LSU. After realignment, the Law Center would exercise the autonomies that are typical of law schools of similar stature affiliated with flagship public universities like LSU and that are required by law school accreditors.

Advantages of the Realignment. There are numerous respects in which the success of the Law Center and of LSU will be enhanced by more fully integrating the Law Center into LSU. The best modern law schools offer their students and faculty diverse opportunities for interdisciplinary study and research in such fields as science, engineering, business, and economics, to name a few. Conversely, these disciplines often intersect with legal and public policy concerns that are the domain of legal education and legal scholars. The proposed realignment of the Law Center will provide an administrative framework for materially advancing academic interaction between the Law Center and LSU at all levels.

The proposed realignment is also expected to produce:

- enhanced communication among faculties and administrators;
- further creative coordination of academic programming across LSU and the Law Center, enhancing both educational opportunities for current students and undergraduate and law student recruitment;
- greater unity of institutional communications and messaging;

- development of additional opportunities for coordination of funded research;
- improved coordination of international programs, broadening funding opportunities, international student recruitment, and student educational experiences; and
- potential for additional efficiencies and cost savings beyond those currently achieved through the many goods and services already shared by LSU and the Law Center.

The LSU President, in consultation with the Chancellor of the Law Center, will determine the effective date of the realignment, taking into account all necessary approvals from accreditors and others which may be required. The President, in consultation with the Law Center Chancellor, will address the range of issues necessary to transition to the new realignment, submitting recommendations to the Board of Supervisors, as needed, to implement the realignment.

In recognition of the highly specialized nature of professional legal education, outstanding law schools across the nation typically exercise a significant degree of autonomy over their affairs within the framework of a central university administration. Consistent with this widely accepted pattern of law school governance, the Law Center Chancellor and faculty shall retain such authority over the affairs of the Law Center as is consistent with the governance of similarly situated law schools at flagship land grant universities, or as may be mutually agreed by the LSU President and the Law Center Chancellor. The realignment must also conform to accreditation requirements for law school governance, including the Standards for Approval of Law Schools of the American Bar Association (“the ABA Standards”). The ABA Standards prescribe certain specific autonomies in governance as a condition of accreditation by the ABA. Thus, the proposed realignment will conform to all applicable law school accreditation requirements.

Timeline. Both the Southern Association of Colleges and Schools Committee on Colleges (SACSCOC) and the Committee on Legal Education and Admission to the Bar of the American Bar Association must approve the proposed realignment before it becomes effective. Approval from each organization requires detailed descriptions of how the institutions will be realigned, including the resulting organizational, administrative, and financial structure. Thus, specific issues must be resolved prior to seeking approval from these two organizations. The timeline for submitting the SACSCOC prospectus requesting approval of the proposed realignment is dependent upon the timeline required to obtain ABA approval. The President, in consultation with the Chancellor of the Law Center, will determine the timelines for obtaining approvals and for setting the effective date of realignment.

RECOMMENDATION

It is recommended that the LSU Board of Supervisors approve the following resolution:

RESOLUTION

“NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College that, subject to the approval of the Southern Association of Colleges and Schools Committee on Colleges and of the Committee on Legal Education and Admission to the Bar of the American Bar Association, and such other approvals

as may be required, the LSU Paul M. Hebert Law Center (“the Law Center”) be re-aligned as an academic unit within LSU A&M; and

BE IT FURTHER RESOLVED that the LSU President, in consultation with the Chancellor of the Law Center, shall determine the timeline, including the effective date, of this realignment (which shall be a date after all required approvals are obtained), and shall address transition issues, submitting recommendations for action, as needed, to the Board of Supervisors to implement this realignment; and

BE IT FURTHER RESOLVED that the Law Center shall retain such authority over its affairs as is a) consistent with the governance of similarly situated law schools at flagship universities, or as may be determined by the President in consultation with the chief academic and administrative officer of the Law Center, and b) as required by the Standards for Approval of Law Schools of the American Bar Association, as they may be amended from time to time.”

II. FINANCE, INFRASTRUCTURE, AND CORE DEVELOPMENT COMMITTEE

Mr. Ronald Anderson, Chair

Mr. Scott Ballard, Vice Chair

Mr. Scott A. Angelle

Mr. Hank Danos

Mrs. Ann D. Duplessis

Dr. John F. George

Mr. Jack E. Lawton, Jr.

Mr. Lee Mallett

Mr. James W. Moore, Jr.

AGENDA

1. Request to Approve the Autonomy Stipulated in Act 418 of the 2011 Regular Session of the Louisiana Legislature to Administer an Autonomous Risk Management Program

Academic and Student Affairs, Achievement and Distinction Committee Agenda Item #1

Request to Approve the Autonomy Stipulated in Act 418 of the 2011 Regular Session of the Louisiana Legislature to Administer an Autonomous Risk Management Program

To: Members of the Board of Supervisors

Date: March 21, 2014

1. Significant Board Matter

This matter is a "significant board matter" pursuant to the following provisions of Article VII, section 8 of the Bylaws:

D.1 Any matter having a significant fiscal (primary or secondary) or long term educational or policy impact on the System or any of its campuses or divisions.

2. Summary of Matter

Act 418 of the 2011 Regular Legislative Session, by enactment of R.S. 17:3139.5(5), allows an institution of postsecondary education, if it meets certain performance criteria, to be granted limited autonomy and flexibility in one or more operational areas. LSU has qualified for the High Level Risk Management Autonomy that if exercised, would exempt LSU from participation in the state Risk Management Program as established by R.S. 39:1527 *et seq.* and allow LSU to acquire insurance directly from the commercial market.

In order to exercise this autonomy, LSU must, in cooperation with the Attorney General and the Division of Administration, prepare an implementation plan, subject to the prior review and approval of the Joint Legislative Committee on the Budget (JLCB). LSU's Office of Administrative Services and Risk Management (OASRM) has submitted a draft implementation plan to the JLCB and is currently working with legislative staff to finalize placement on the agenda for the next available meeting. Assuming that the JLCB approves the University's request, LSU will then be able, but not required, to purchase insurance in the commercial market rather than through the state Office of Risk Management (ORM). This authority will include all types of insurance except medical malpractice (as established by R.S. 40:1299.39). LSU anticipates that it will first exercise autonomy for Workers Compensation beginning July 1, 2014, followed by other lines of coverage no later July 1, 2015.

3. Review of Business Plan

The ability to purchase commercial insurance will reduce LSU's cost of insurance by allowing the University to better manage its retained losses and limits of insurance coverage. The purchase of commercial insurance will also allow the University to directly negotiate with providers, and thus better meet the specific and unique exposures of the University in a highly cost-effective manner.

The University has taken a number of steps to evaluate the impact, estimate potential savings, and prepare for the administration of an autonomous risk management program, including the following actions:

- LSU's Office of Administrative Services and Risk Management (OASRM) worked with the State Office of Risk Management (ORM) to reduce its workers compensation and property insurance coverage costs by moving from the traditional ORM model, which covers the first dollar of every

workers compensation claim and all property claims less a \$1,000 deductible, to a high-deductible model. Under this new model that went into effect at the beginning of FY 2013, LSU's claims have been subject to a deductible of \$500,000 for workers compensation and \$250,000 for property. After accounting for establishing required reserves and paying claims, this program has saved LSU about \$1 million annually.

- OASRM also established restricted accounts for the University Insurance Program in accordance with the authorization granted by this Board at its December 2012 meeting. In order to recognize substantial savings through any insurance program, LSU must accept a greater share of liability for claims, through substantially higher deductibles or self-insured retentions. In order to be fiscally sound and responsible, LSU must maintain adequate reserves to pay out its share of any claims. LSU is funding the necessary reserves using the premium savings it is achieving through the current high-deductible plan with state Risk Management and savings it anticipates achieving through the risk management autonomy.
- The University contracted with an independent actuary to determine the amount of reserves required and the levels of insurance LSU should obtain for all lines of coverage.
- For the upcoming fiscal year, LSU will continue to obtain coverage for property through the state Risk Management program under the high-deductible program described previously. LSU anticipates obtaining insurance directly, using the autonomy authority, beginning in FY 2014-15 for Workers Compensation and for FY 2015-16 for Property and Boiler coverage.
- Under the proposed implementation plan, the Attorney General will continue to represent LSU in defending claims. LSU is finalizing an agreement with the Attorney General for selecting attorneys, either within the Attorney General's Office or through external counsel, to handle specific cases for LSU.
- LSU will obtain the services of a third-party administrator to handle the day-to-day administration of individual claims.

4. Fiscal Impact

LSU anticipates a reduced cost of insurance by gaining control over its level of retained losses, aided by the competitive placement of insurance coverage in the commercial market that will better meet the needs of the University and its specific and unique exposures in a cost-effective manner. LSU along with its commercial insurance carriers will assume the liability for future claims. The University has also reached an agreement with ORM and DOA to assume past liabilities associated with claims covered by the ORM's self-insured programs up to the point of autonomy. These liabilities include those costs incurred within the previously established self-insured retentions (deductibles) for each year and coverage, as well as actual costs attributable to claims in excess of purchased coverages, along with all associated administrative expenses. The University will be billed on a quarterly basis by ORM for the actual costs associated with these claims until all obligations have been fulfilled.

Upon receiving autonomy, LSU will acquire more comprehensive coverage at a lower cost through independent placement of coverage and also create savings from the implementation of high deductibles, and the ability to place coverage based on LSU's independent loss history and exposure, rather than that of state government overall. High deductible programs will allow the development of claims reserves that will further reduce premiums by eliminating the trading of dollars with insurance carriers. Initial savings resulting from autonomy will also allow an increase in investment for loss prevention programs, which create the potential for further savings for the University through reductions in future claims and claims costs.

5. Review of Documents Related to Referenced Matter

The attached implementation plan draft submitted to the JLCB has been prepared by LSU's Office of Administrative Services and Risk Management in cooperation with LSU's outside counsel, the Taylor

Porter law firm, as well as the Office of the Attorney General and the Division of Administration, both of which have given the necessary approvals for moving forward.

6. Parties of Interest

- II. Implementation Plan Draft

RECOMMENDATION(s)

The staff recommends that the Board consider the resolution set forth below:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the Louisiana State University and Agricultural and Mechanical College does hereby authorize its President/Chancellor, Dr. F. King Alexander, or his designee to: (i) exercise, after all necessary state legislative and administrative approvals have been obtained, the autonomy provided for in La. R.S. 17:3139.5(5)(c)(ii), (ii) to obtain insurance and establish and fund appropriate reserve accounts in accordance with the implementation plan and as needed for the proper operation of LSU's risk management program, and (iii) to establish appropriate policies and procedures for operation of LSU's risk management program.

BE IT FURTHER RESOLVED that the Board of Supervisors of the Louisiana State University and Agricultural and Mechanical College does hereby authorize its President/Chancellor the authority to include in the implementation plan, contracts, and policies described herein any and all provisions and stipulations that he deems in the best interest of LSU.

BOBBY JINDAL
GOVERNOR

KRISTY H. NICHOLS
COMMISSIONER OF ADMINISTRATION

State of Louisiana
Division of Administration
Office of the Commissioner

December 16, 2013

Dr. Jim Purcell
Commissioner of Higher Education
1201 N. Third St., Suite 6-200
Baton Rouge, LA 70802

Re: Capacity Determination for Risk Management Autonomies – LSU at Baton Rouge

Dear Dr. Purcell:

The Division of Administration has completed its review of the application for Risk Management autonomy submitted by LSU at Baton Rouge. Our review has concluded that the University has the operational capacity to perform the risk management function, as defined by Act 418 of the 2011 Regular Session of the Legislature.

Our understanding is that tentative implementation dates have been discussed, but that no final decision has been made in that regard. Once all parties have agreed to a schedule, the Office of Risk Management will provide assistance as needed to ensure the ultimate success of this transition.

If you have any questions or need further information regarding this matter, please contact Bud Thompson at 225-342-6331.

Sincerely,

A handwritten signature in black ink, appearing to read "Kristy H. Nichols".

Kristy H. Nichols
Commissioner of Administration

KHL/pg

cc: Dr. F. King Alexander, Louisiana State University System President

Purpose

As required by LA R.S. 17:3139.5(5)(c)(ii)(aa) LSU hereby requests approval of the following phased-in-plan of implementation developed in collaboration with the Attorney General and the Division of Administration (DOA) for transition to the high level risk management autonomy afforded through Act 418 of the 2011 Regular Legislative Session, popularly known as "LA Grad Act 2.0".

This document provides the key steps to be taken over the next 18 months, upon being granted autonomy for risk management processes. Implementation of this plan will allow LSU to develop a comprehensive risk management program that will serve to reduce risks to the University, and to assure appropriate and continuous insurance coverage for Louisiana State University (LSU) at the lowest possible cost, along with the outsourcing of services currently provided by or through the State Office of Risk Management.

Background

LA Grad Act 2.0 provided LSU an opportunity to pursue autonomies in several areas that could reduce cost and/or increase revenues to support the mission of the University along with protecting its academic core. Exemption from the State's risk management program is one such autonomy that the University chose to pursue as LSU's premiums more than doubled from FY2006 to FY2011¹.

To date, LSU has completed all necessary steps as outlined by both the Board of Regents and the Division of Administration. First, LSU met specific performance objectives established with the Board of Regents². Second, the University provided an application for risk management autonomy to the Division of Administration which demonstrated that the qualifications of LSU's staff, processes, and policies were satisfactory for an autonomous program. This application was used to evaluate LSU's operational capacity as outlined in LA Grad Act 2.0, which was subsequently determined to be sufficiently capable by DOA in December of 2013.

¹ Premiums increased from \$5,685,606 in FY2006 (Invoice No. 10341) to \$13,020,930 in FY2011 (Invoice No. 12843) as billed by the State Office of Risk Management.

² The Board of Regents (BOR) entered into a Granting Resources and Autonomy for Diplomas Agreement with LSU in FY2011. LSU has submitted FY2013 annual report, which was approved by the BOR at its meeting on June 26, 2013, assigning LSU an Annual Evaluation Designation of GREEN and determined LSU had met the high level autonomy threshold of 150% of normal-time Integrated Postsecondary Education Data System graduation rate within five percent of the Southern Regional Education Board average graduation rate for its classification

LA Grad Act 2.0

Specifically the LA Grad Act provides the following in relation to the risk management autonomy in accordance with R.S. 17:3139.5(5)(c)(ii):

(c) *High level. Notwithstanding any provision of law to the contrary and in addition to the base level and intermediate level autonomies granted pursuant to Subparagraphs (a) and (b) of this Paragraph, any institution that is determined by the Board of Regents to have met the short-term targets established in the performance agreement may be granted the autonomies as provided in this Subparagraph; however, no institution shall be granted such an autonomy until after the division of administration determines that for the following year the institution possesses the capacity relevant to the autonomy including, at a minimum, a review of the most recent fiscal audit by the legislative auditor and has a one hundred fifty percent of normal-time Integrated Postsecondary Education Data System graduation rate within five percent of the average graduation rate for its classification according to the Southern Regional Education Board.*

(ii)(aa) *Exemption from participation in the state's risk management program established by R.S. 39:1527 et seq. and administered by the office of risk management, pursuant to a phased-in plan of implementation as determined by the institution in collaboration with the attorney general and the division of administration, subject to the prior review and approval of the Joint Legislative Committee on the Budget. This exemption shall not include the coverage provided by the state's risk management program pursuant to R.S. 40:1299.39.¹⁸*

(bb) *Nothing in this exemption shall abrogate, amend, or alter the authority of the attorney general or the Department of Justice under Article IV, Sections 1 and 8 of the Constitution of Louisiana or any other provision of law to represent the state and all departments and agencies of state government in all litigation arising out of or involving tort or contract. Any institution that is granted an exemption under this Item shall enter into an interagency agreement with the attorney general and pay the attorney general reasonable attorney fees and expenses incurred in representing the institution.*

(cc) *Nothing in this Item shall be construed as creating any independent or separate cause of action against the state. The state shall continue to be sued only through the exempt institution's management board and cannot be sued in addition to or separately from the exempt institution's management board in any cause of action asserted against the exempt institution. Neither the state nor the office of risk management shall be responsible for payment of any judgment against the exempt institution's management board. The state's obligation to indemnify a covered individual as provided in R.S. 13:5108.1 shall not be performed by the office of risk management.*

¹⁸ R.S. 39:1527 et seq. provides for the creation of the office of risk management within the Division of Administration. R.S. 40:1299.39 provides for medical malpractice liability for state services.

(dd) Any contract between the exempt institution's management board and its insurer shall name the state as an additional insured. Any provision in any contract between the exempt institution's management board and its insurer that conflicts with the provisions of this Section shall be deemed null and void.

(ee) Nothing in this Item shall be construed to adversely affect any of the substantive and procedural provisions and limitations applicable to actions against the state, including but not limited to the provisions of R.S. 13:5106, 5107, 5108.1, and 5112, and R.S. 9:2800 which would continue to apply equally to any exempted institution. Those provisions that will not apply are those that are specifically excluded in this Section. Upon transfer of each line of coverage to the exempted institution under this Section, the provisions of R.S. 39:1527 et seq., as well as the provisions of R.S. 13:5106(B)(3)(c), shall not apply to the line of coverage so transferred, nor to any claims asserted against the exempted institution within the transferred line of coverage.

Board of Supervisors Support

Former LSU System President Dr. William Jenkins granted the flagship campus the authority to pursue High Level Risk Management Autonomy and to take all necessary steps to develop a phased-in plan of implementation as determined by the institution in collaboration with the Office of Attorney General, the Office of Risk Management, and the Division of Administration.⁴ Furthermore, the Board of Supervisors has expressed their support of the program and is expected to authorize implementation of this plan on March 21, 2014.

Operational Capacity

LA Grad Act 2.0⁵ along with the Division of Administration (DOA) guidelines published on February 3, 2012, provide for the approval process for granting, renewing, and removing operational autonomies by verifying each institution has the appropriate operational capacity. Thus, in compliance with the statutes and guidelines, LSU conducted a thorough review of its current risk management programs to complete the operational capacity application provided by the DOA through the State Office of Risk Management (ORM). The application document included a detailed assessment of University policies and procedures, a review of future staff responsibilities, a fiscal impact analysis, an outline of the plans for the solicitation procurement and placement of commercial insurance, and how the ancillary services including loss prevention, adjusting services, and appraisals would be provided after autonomy is granted.

Upon submission⁶ of the application document in September of 2013, DOA and ORM completed a thorough review and granted LSU the initial operational capacity in December of 2013⁷ along with approval to develop this implementation plan for JLCB review and approval.

LSU's Risk Management Program Overview

The Louisiana State University and Agriculture and Mechanical College's (LSU) Risk Management program is administered by Administrative Services and Risk Management (ASRM) within the Division of Finance and Administrative Services and reports to the Vice President and Chief Financial Officer. ASRM's mission is to protect people, property, the environment, financial resources, and other assets in support of the University's teaching, outreach, research, and student services missions.

ASRM includes both Risk Management and Environmental Health and Safety (EHS). Risk Management is responsible for the administration of the University's risk transfer and risk financing programs, including insurance services. Environmental Health and Safety is responsible for loss prevention and risk control programs including campus safety, health, and environmental programs. Administrative Services and Risk Management works closely with campus leaders and departments to continually identify, analyze, and monitor risk through an active enterprise risk management (ERM) program, traditional risk and safety assessments, and formal audits.

The University has begun to develop its insurance program with a focus on optimizing the total cost of risk, which may include various loss retentions, commercial coverages and outsourcing of professional services to assure efficient and cost effective risk transfer, and financing with minimum exposure for LSU. The University will continue to utilize a Third Party Administrator(s) (TPA) to provide claims and loss prevention services. Furthermore, the University has engaged an actuary who will continue to conduct reserve analysis, develop loss projections, and assist with the development of a comprehensive cost allocation model for departments and cost centers to encourage and reward departmental implementation of effective safety and loss prevention programs.

The University's risk management, safety, and loss prevention teams are made up of approximately 20 full-time qualified staff members, many of whom hold masters and doctoral degrees. LSU EHS and Risk Management personnel also hold active certifications and professional designations including Certified Risk Manager, Certified Internal Auditor, and Certified Safety Professional. Augmentation and realignment of personnel will occur as needs arise and the transition of coverage takes place. In addition to a contracted broker, actuary, and TPA, the transition will be supported by the former Assistant Vice Chancellor for System-wide Risk Management and Public Safety for the California State University System who played a leading role in the separation of CSU's risk management program from the State of California. Other risk professionals from the University of Texas System Risk Management Office have also provided consulting services on the organizational structure and administration of future programs and will continue to support LSU as needed.

LSU's current program has been steadily evolving over the past two years as the State Office of Risk Management has allowed LSU more responsibility for its property and workers compensation coverages by the introduction of high deductibles and the independent placement of LSU's excess property insurance - both of these opportunities have contributed to the University's preparedness for full autonomy.

Scope of Current Program

LSU's current insurance program consists of the following coverages administered by the State Office of Risk Management:

- Auto Liability & Physical Damage
- Boiler & Machinery
- Bonds & Crime
- Medical Malpractice
- Property
- Wet Marine
- Workers Compensation

LSU's claims account on average for approximately 5% of ORM's total claims as reported in ORM's most recent annual report (note - the spike in 2009 can be explained due to the large number of property claims associated with Hurricane Gustav).

**LSU's Claims as a Percent of Total ORM Claims
FY2008-FY2012**

Source: State Office of Risk Management's FY2012 Annual Report: doa.louisiana.gov/orm/pdf/FY2012AnnualReport.pdf

LSU's losses account on average for 3.5% of ORM's total losses as calculated from loss data provided to LSU. As can be seen from the graph below, losses vary significantly from year to year driven largely by catastrophic wind events such as Hurricane Katrina in FY2006 and Hurricane Gustav in FY2009.

**LSU's Losses as a Percent of ORM's Total Losses
FY2006-FY2010**

Source: Losses provided by the State Office of Risk Management as part of cost allocation reports provided to LSU. Losses valued at 6/30/2012 for Property, Workers Compensation and Boiler & Machinery all other lines as of 10/6/2011.

LSU's Premiums account on average for 5% of ORM's total collected premiums as reported in ORM's most recent Annual Report when compared to the University's invoices. As can be seen from the graph below, premiums have increased over time. Furthermore, ORM is projecting LSU's FY2015 base premiums to reach an all-time high of approximately \$13.8 million.

**LSU Premiums Paid as a Percent of Total ORM Premiums Collected
FY2008-FY2012**

Source: State Office of Risk Management's FY2012 Annual Report and LSU's State Office of Risk Management Premium Invoices (No. 11660, 12171, 12557, 12843, and 13135) doa.louisiana.gov/orm/pdf/FY2012AnnualReport.pdf

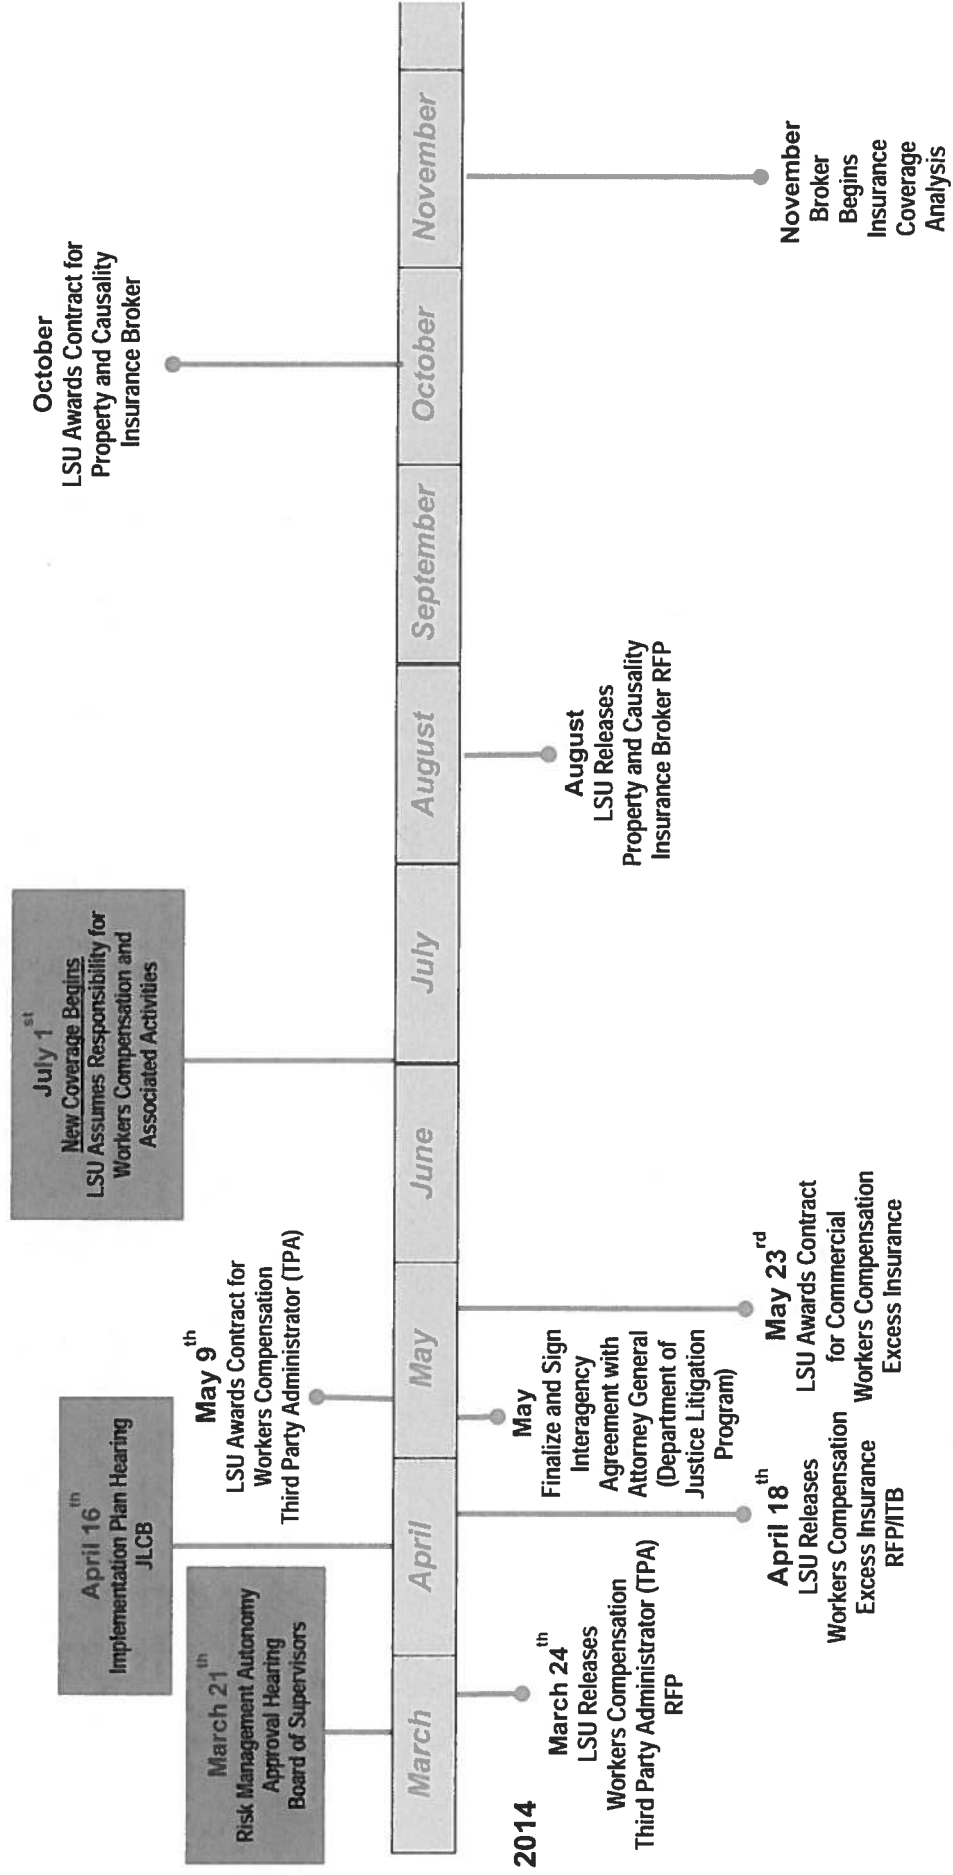

High Deductible Transition

In the fall of 2011, LSU began to meet with ORM to discuss the path to risk management autonomy. During the initial discussion ORM proposed several options to reduce the total cost of risk to the University before full autonomy was granted. Thus, LSU worked with ORM to develop high deductible coverages for Workers Compensation (\$500,000 per occurrence) and Property (\$250,000 per occurrence). With the implementation of these programs, ORM-billed premiums to the University have been reduced by approximately \$8 million over FY2013 and FY2014. The majority of these gross premium reductions have been used to establish reserves to fund payment of claims within the high deductibles (i.e., retained losses) that would have previously been funded by premiums paid to ORM. In addition to the University assuming financial responsibility for a large portion of claims, ORM has granted LSU more control over the claims management process. However, LSU continues to be insured by ORM under this program as it is not an exercise of autonomy granted pursuant to LA GRAD Act 2.0. This transitional program has allowed LSU to reduce its total cost of insurance, protecting the University against the risk of loss, while also allowing LSU to establish a base upon which to grow an autonomous program.

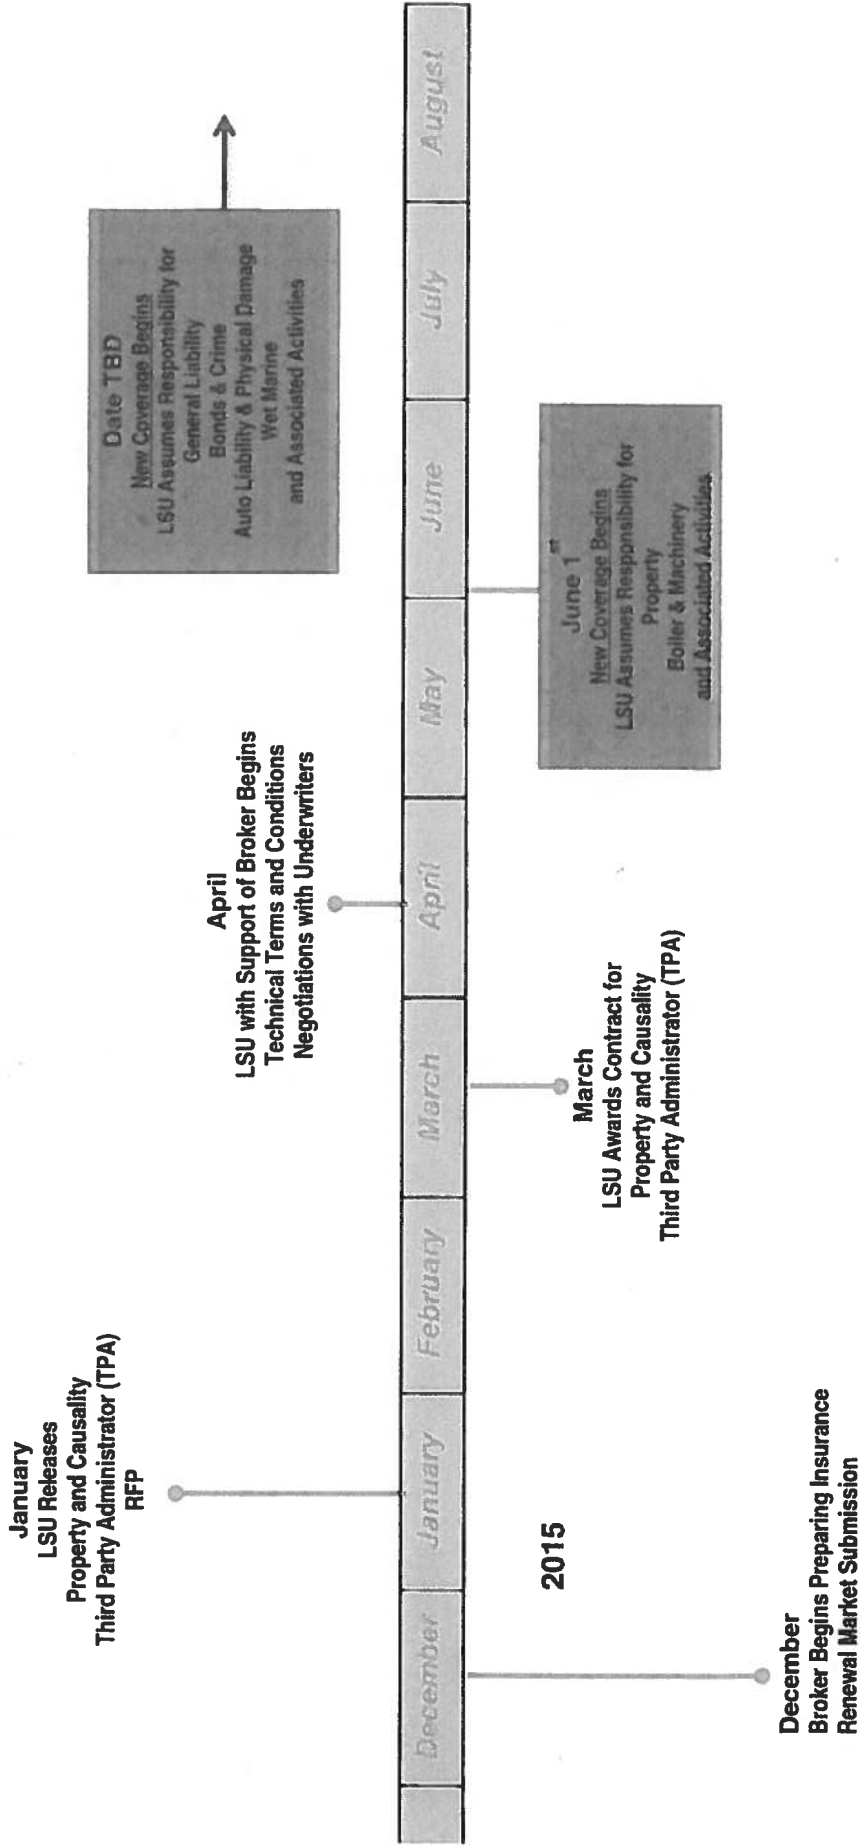

This Page has been Intentionally Left Blank

Anticipated Implementation Timeline

In an effort to provide the key steps of implementation the timeline below has been established to reflect program development as defined in the autonomy application approved by the Division of Administration. All projected future steps assume approval of this Implementation Plan by JLCB on April 16.

Anticipated Implementation Timeline

Program Development

Claims Management

Prior to Autonomy

LSU will continue to engage ORM in the management of past claims so they can be resolved in a timely manner. The University may also explore the option with ORM of transferring to LSU the management of workers compensation claims incurred as part of the high deductible program established in FY2012 for all claims expected to remain within LSU's self-insured retention (\$500,000 per occurrence).

After Autonomy

The University anticipates releasing a competitive RFP for the selection of a Third Party Administrator (TPA) to maintain a highly responsive program through aggressive claims management, cost reduction, and follow-up for all lines of coverages. When applicable, TPA services may be provided as value added services through selected brokers.

Coverages

Property and Boiler & Machinery

Commercial coverage will be procured for property and builder risk exposure, and will follow current policies provided by ORM. Deductibles will be determined based on actuarial projections and the premiums available in the market. Adequate limits and sub-limits will be determined in coordination with a broker upon completion of catastrophic modeling.

Commercial coverage will be procured for boiler & machinery equipment breakdown including, but not limited to, coverage for losses or damages resulting from accidents to boilers, pressure vessels, turbines (including the Co-generation facility), machinery, air conditioning motors, and compressors located in University buildings. Commercial coverage will follow the wording of all current policies in-force with ORM; including repair or replacement of the object and also the losses or damages caused to property and persons as a result of the accident, business interruption, extra expense, and consequential damage. The current deductible of \$1,000 may be increased based on actuarial projections and the premiums available in the market. LSU expects to obtain Property and Boiler & Machinery coverage on its own for FY 2016.

Workers Compensation

Commercial Workers' compensation and employer's liability coverage will be procured in compliance with State of Louisiana law, rules, and regulations. LSU expects to obtain Workers Compensation coverage on its own for FY 2015.

General Liability

Commercial coverage will be procured for the legal liability of LSU arising out of occurrences resulting in injuries or property damage to others that do not involve licensed vehicles, as well as certain obligations of others assumed under contract. General Liability coverage will also include Personal and Advertising Injury liability (coverage B as defined by the Insurance Services Office), and will follow current policy wording provided by ORM with the addition of specific Cyber and Educators Legal Liability coverage. Deductibles will be assumed based on actuarial projections and the premiums available in the market.

Current policies provided by ORM shall be reviewed by LSU's selected broker along with current University activities to determine adequate commercial coverage and to ensure no gaps exists between liability lines. The following coverage shall be the minimum required or included within a comprehensive policy. LSU will obtain its own General Liability coverage at a future date not yet determined.

- Premises and Operations shall cover the ownership, maintenance, or use of buildings or property (operations on or off premises), including conduct of University employees.
- Completed Operations and Products Liability provides coverage that protects against losses that occur after operations have been completed or abandoned including bodily injury and property damage arising out of products the University administers, sells, or handles after possession of the product has been relinquished to others.
- Elevator and Escalator Liability shall provide coverage for losses arising out of the ownership, maintenance, or use of elevators and escalators.
- Watercraft Liability shall provide coverage for all watercraft of 26 feet or less in length and rowboats of any length owned, used by, or rented to the University. Hull and Machinery On Boats/Ships/Tugs over 26 feet in length insures loss or damage to a vessel covered, including its machinery, fittings, and equipment and LSU's liability for loss of life or bodily injury; property on another ship; property other than on a ship, such as goods on a wharf, dock, bridge, etc.
- Wrongful Acts including errors and omissions shall provide errors and omissions coverage for University employees rendering professional services, including failure by public officials to perform duties, file reports, solicit bid quotations, issue or nullify licenses, frequent absence from meetings, or making unauthorized expenditures.
- Garage Keepers Legal Liability shall provide coverage to protect against loss of or damage to an automobile left in the University's care for parking.

-
-
- Fire Damage Legal Liability shall provide coverage for damage by fire, caused by the Universities negligence to premises rented by the University.
 - False Arrest, Detention, or Imprisonment shall provide coverage for an act that involves unlawful, unjustified, forcible retention or detaining a person against their will based on groundless accusations.
 - Malicious Prosecution shall provide coverage for intentional acts that involves the instituting of legal proceedings, either criminal or civil, against another without probable cause or proper cause.
 - Wrongful Entry or Eviction shall provide coverage for wrongly expelling a person from a premise, wrongly entering (trespassing) a premise or otherwise invading or preventing the private right to occupy a premise.
 - Libel, Slander, or Defamation of Character shall provide coverage for harm to a person's reputation resulting from a false statement, defamation by speech, defamation in written or visual form, or disparagement that involves a comparison that detracts/discredits the goods, products or services of another because of false statements.
 - Violation or Deprivation of Rights, Privileges or Immunities Secured by Law shall provide coverage for the release of secure information (i.e. medical records, financial information, social security numbers) or the misappropriation of a person's likeness of name, intrusion of a person's right of seclusion, solitude, or private affairs or public disclosures of private facts, even if the information is true and not defamatory, if the revelation is embarrassing or otherwise reasonably objectionable.
 - Cyber Liability will provide coverage for liability that arises out of unauthorized use of, or unauthorized access to, electronic data or software within the University's network or business services platforms.
 - Educator's Legal Liability will provide coverage for a broad range of non-bodily injury/non-property damage third party liability claims, made against the administrators, employees, and staff members of the University.
 - Professional Liability will provide coverage to protect professionals and quasi-professionals against liability incurred as a result of errors and omissions in performing their professional services.
 - Law Enforcement Officer Liability will provide errors and omissions (E&O) coverage for the LSU police department. Activities to be covered shall include false arrest, excessive force, and invasion of privacy.

Auto Liability and Physical Damage

Commercial coverage will be procured for comprehensive, collision, liability, and non-ownership liability. Commercial coverage will follow the wording of current insurance policies provided by the ORM. Deductibles will be determined based on actuarial projections and the premiums available in the market. The University will further ensure that policies provide an appropriate aggregate deductible for fleet exposures. LSU will obtain its own Auto Liability and Physical Damage coverage at a future date not yet determined.

Bonds & Crime

The University shall purchase commercial coverage which will be procured for both Employee Faithful Performance and Crime coverage as described below.

An Employee Faithful Performance Blanket Bond covers a loss sustained by the insured because of dishonest or fraudulent acts of employees. "Faithful Performance" provides coverage for losses caused by failure of employee to faithfully perform duties. This may include Property Manager Bond for dishonest or fraudulent acts, or failure to faithfully perform duties, in connection with handling and control of State Property, resulting in a loss to LSU; Notary Bond to guarantee that a notary public will comply with applicable laws and regulations; Postal Bond to insure that a post office contract, branch or station located at a university or college shall faithfully discharge all duties required under the rules and regulations of the U.S. Post Office Department. It must account for, deliver, and pay over monies, mail matters, and other properties that come in its possession to the proper post office official; Public Official Bond for persons elected or appointed to fill positions of trust. It protects against dishonest and fraudulent acts as well as a person's failure to perform duties required.

A crime policy shall also be placed to cover all perils as provided by the ORM policy for money and securities within premises and outside premises while being conveyed by messenger. Property other than money and securities shall be insured against robbery or safe burglary. Coverage shall be provided against loss through forgery or alteration of checks drawn by the University. LSU will obtain its own Bonds & Crime coverage at a future date not yet determined.

State Reporting Procedures

LSU will require the selected property broker or sub-contractor to complete building appraisals that hold the proper certification. Commercial property appraisals will be completed on all buildings that capture the details of the building including up-to-date ISO construction data, federal flood zones, and roof age. Appraisals (excluding land) will be performed upon completion of construction, after significant additions/enhancements, or periodically on a 4-year schedule. Information and the current schedule provided by the ORM, State Facility Planning & Control, and FARA (State TPA) shall be used as the baseline to begin appraisals. LSU Risk Management in coordination with OFS and the Office of Property Management will maintain an updated Schedule of Values (SOV) including replacement and content values and exposure reporting to carriers. The University will provide all necessary reporting as determined by the ORM and State Facility Planning & Control. In addition to standard commercial appraisals, LSU will also complete a wind assessment study on all high value buildings to provide secondary wind modifiers to commercial underwriters.

LSU will require the selected property broker or sub-contractor to complete boiler inspections in compliance with the State Boiler Inspection Law (Louisiana Revised Statute Title 23 Chapter 5) and all other requirements as established by University policy and the insurance provider of Equipment Breakdown coverage. Inspections shall be conducted by a third-party as well as by LSU personnel. A qualified provider, as part of insurance coverage or independently, will conduct annual inspections including thermal imaging on the Co-generation power facility and other large boilers.

LSU will contract with elevator inspection firms through competitive bidding among qualified vendors for inspections for elevators, escalators, dumbwaiters, and lifts for the disabled at all University buildings. The contractor will be required to provide reports to LSU Risk Management and Office of Facility Services within 10 business days of inspection.

LSU Property Management maintains all University inventory records, and each individual campus entity is responsible for the oversight of department equipment inventory. Property valuation is maintained by Office of Facility Services and provided as needed.

LSU's Office of Financial Accounting and Reporting includes liabilities and payments associated with claims in the LSU System's consolidated financial statements provided each fall for the previous fiscal year. Financial Accounting and Reporting will also provide any additional reports upon request to Office of Statewide Reporting and Accounting Procedures or other State agencies as required.

LSU's Third Party Administrator will be responsible for reporting claims information to the Louisiana Workforce Commission, Office of Workers' Compensation.

Claims Litigation

Interagency Agreement with Department of Justice

LSU has engaged with the Louisiana Department of Justice (DOJ) Litigation Program to develop an interagency agreement which will provide for the legal representation of LSU and its various departments and their officials, officers, and employees in all tort claims. The interagency agreement will allow LSU and/or its insurance carriers, on a case-by-case basis, to request that outside contract attorneys be appointed to represent the University. In such cases where outside contract attorneys are appointed, approval must be granted by the DOJ prior to the engagement of any outside counsel which shall be paid by LSU as part of the autonomous risk management program. However, LSU will work with the DOJ to prequalify a panel of outside contract counsel through an interview and selection process. LSU will also pay DOJ for all legal services provided by the Attorney General's Office in addition to a separate annual administration support fee.

As stated in the LA Grad Act, LSU's exemption shall not abrogate, amend, or alter the authority of the Attorney General or the Department of Justice under Article IV, Sections 1 and 8 of the Constitution of Louisiana or any other provision of law to represent the state and all departments

and agencies of state government in all litigation arising out of or involving tort or contract. LSU's exemption shall not be construed as creating any independent or separate cause of action against the state. The state shall continue to be sued only through the exempt institution's management board and cannot be sued in addition to or separately from the exempt institution's management board in any cause of action asserted against the exempt institution. Neither the State nor ORM shall be responsible for payment of any judgment against the exempt institution's management board. The state's obligation to indemnify a covered individual as provided in R.S. 13:5108.1 shall not be performed by ORM. All contracts between LSU and commercial brokers and insurer carriers shall name the state as an additional insured.

Fiscal Impact Analysis

With the implementation of the risk management autonomy, including placement of independent commercial coverage through an insurance broker, LSU will be adopting a practice that is common throughout the country for large public universities. The University of Texas System is an excellent example of this practice and has provided LSU with a recommendation to pursue independent coverage resulting in the possibility of substantial savings. Upon receiving autonomy, LSU will not only acquire more comprehensive coverage, but also savings from the implementation of high deductibles and the ability to place coverage based on LSU's independent loss history and exposure. It is projected that the largest savings will be realized by making changes to excess property coverage placement.

In addition to a more efficient procurement process, the risk management autonomy will allow LSU to manage independent claim reserves. The development of claims reserves will allow the University to save additional premiums by eliminating the trading of dollars with insurance carriers. Initial savings resulting from autonomy will also allow an increase in investment for loss prevention programs, which create further savings through reductions in claims and claims costs. In addition to retaining the cost of claims, LSU will also be able to leverage surplus claim reserves to increase deductibles when determined to be in the best interest of the University during hard market cycles.

LSU recognizes that it will assume the liability for future claims, which will be managed by making decisions on actuarially sound projections and conservative modeling for the development of reserves (including IBNR, Incurred But Not Reported) and future loss projections. The University has also reached an agreement with ORM and DOA to assume past liabilities associated with claims covered by the ORM's self-insured programs up to the point of autonomy. These liabilities include those costs incurred within the previously established self-insured retentions (deductibles) for each year and coverage, as well as actual costs attributable to claims in excess of purchased coverages. These costs, along with administrative costs for such claims, will be billed by ORM to LSU on a quarterly basis. LSU has further agreed to pay ORM an administrative fee (\$75 per hour) for ORM staff time dedicated to assisting LSU with the autonomy and the transition of coverages.

III. PROPERTY AND FACILITIES COMMITTEE

Mr. Rolfe McCollister, Jr., Chair

Mr. Lee Mallett, Vice Chair

Mr. Scott A. Angelle

Dr. John F. George

Mr. Stanley J. Jacobs

Mr. Raymond J. Lasseigne

Mr. Jack E. Lawton, Jr.

Mr. J. Stephen Perry

Mr. John S. Woodard

AGENDA

1. Recommendation to Approve the Schematic Design Elevations for the new LSU Gymnastics Practice Facility
2. Recommendation to Approve the Schematic Design for Patrick F. Taylor Hall Addition and Renovation
3. Recommendation to authorize settlement of litigation with Camterra Resources Partnership, LTD, et al relating to mineral lease on Caddo Parish property

RECOMMENDATION TO APPROVE THE SCHEMATIC DESIGN FOR CONSTRUCTION OF THE LSU GYMNASTICS PRACTICE FACILITY

TO: Members of the Board of Supervisors

Date: March 21, 2014

Pursuant to Article VII, Section 8. D.5.c. of the Bylaws of the Louisiana State University Board of Supervisors, this matter is a "significant board matter".

D.5(c) Such other matters that are not expressly delegated herein or hereafter by the Board to the President or equivalent and which reasonably should be considered to require Board approval as generally defined above and as construed in light of the illustrative listings.

1. Summary of Matter

The LSU Gymnastics Practice Facility project will contain approximately 40,000 gross square feet of new space for the Athletic Department.

This project is the schematic design phase of design. The exterior elevations require approval of the Board of Supervisors to ensure the development is in keeping with the character of the campus and in accordance with the University's Master Plan and adopted design standards.

The new facility will be located in a current parking lot and adjacent to the North elevation of the basketball practice facility. This area was chosen in accordance with the Athletic Department's proposed Master Plan and allows a physical linkage between the new structure, PMAC and Field House. The location and Schematic Design elevations were approved by the University's Facility Development & Design Committee at their regular meeting on Thursday, February 13, 2014.

2. Review of Business Plan

The project is being funded by the Tiger Athletic Foundation as part of the building program.

3. Fiscal Impact

The estimated cost of the construction for this phase is approximately \$8,250,000. The total cost of construction will be funded by the Tiger Athletic Foundation from their fundraising efforts. Operational expenses for the completed facility will be borne by the Athletic Department.

4. Description of Competitive Process

The selection of the designer was made by the Tiger Athletic Foundation and the construction company selected will be through a negotiated contract between The Tiger Athletic Foundation and the contractor.

5. Review of Legal Documents

The Board of Supervisors has a lease agreement with the Tiger Athletic Foundation for the development of this project.

President and Chancellor

FROM: Robert Kuhn *Robert Kuhn*
Interim Vice Chancellor for
Finance & Administrative Services and CFO

RE: Recommendation to Approve the Schematic Design Elevations for the LSU
Gymnastics Practice Facility

The LSU Gymnastics Practice Facility project is in the Schematic Design phase of development. The exterior elevations require approval by the Board of Supervisors to assure campus development is in accordance with the adopted design standards. The Facilities Design and Development Committee (FDDC) approved the design at its February 13, 2014 meeting.

I respectfully request, should you concur, that the resolution be submitted for placement on the agenda of the March 2014 meeting of the Board of Supervisors.

Please let me know if you have additional questions. Thank you.

**RECOMMENDATION TO APPROVE THE
SCHEMATIC DESIGN FOR
PATRICK F. TAYLOR HALL
ADDITION AND RENOVATION**

To: Members of the Board of Supervisors

Date: March 21, 2014

Pursuant to Article VII, Section 8. D.5.c. of the Bylaws of the Louisiana State University Board of Supervisors, this matter is a "significant board matter".

D.5(c) Such other matters that are not expressly delegated herein or hereafter by the Board to the President or equivalent and which reasonably should be considered to require Board approval as generally defined above and as construed in light of the illustrative listings.

1. Summary of Matter

The Patrick Taylor Hall: Renovation and Addition Project will contain approximately 102,000 gross square feet additional space in the new addition and 306,000 gross square feet renovation for the College of Engineering. Due to the workforce demand for engineers. The University has partnered with the State in a joint-venture project to renovate and expand the existing Patrick Taylor Hall.

This project is in the schematic design phase of design. The exterior elevations require approval of the Board of Supervisors to ensure the development is in keeping with the character of the campus and in accordance with the University's adopted design standards.

The new facility will be located in the current parking lot and adjacent to the southwest corner of the existing building. This area was chosen in accordance with the Master Plan and allows a physical linkage between the new structure and the existing building. The location and Schematic Design elevations were approved by the University's Facility Development & Design Committee at their regular meeting on Tuesday, March 11, 2014.

2. Review of Business Plan

The project approval was granted by the Board as part of the University's Fiscal Year 2013-14 Capital Outlay request and approved under ACT 24 by the 2013 Legislature.

3. Fiscal Impact

The estimated cost of the construction is approximately \$77,000,000. The total cost of construction shall be equally shared by the University and the State. Operational expenses for the completed facility will borne by the University.

4. Description of Competitive Process

Selection of the designer was through the State's Architect Selection Board process and the construction company and project manager were selected through the Construction Manager at Risk process.

5. Review of Legal Documents

None.

6. Parties of Interest

None.

7. Related Transactions

None.

8. Conflicts of Interest

None.

Property and Facilities Committee Agenda Item #3

RECOMMENDATION TO AUTHORIZE SETTLEMENT OF LITIGATION WITH CAMTERRA RESOURCES PARTNERSHIP, LTD., ET AL RELATING TO MINERAL LEASE ON CADDO PARISH PROPERTY

To: Members of the Board of Supervisors

Date: March 13, 2014

Pursuant to Article VII, Section 8, D.2(a) of the Bylaws of the Louisiana State University Board of Supervisors, this is a "significant board matter" as it involves settlement of litigation arising out of a mineral lease.

1. Summary of the Matter

In 1999, Camterra Resources Partners, Ltd was awarded a mineral lease on approximately 100 acres of the Pecan Research Station in Caddo Parish. During the primary term of the lease, Camterra drilled two successful wells in the Cotton Valley Formation ("CV"). The lease provided that, after the expiration of the primary term, "production shall maintain this lease in force only to a depth of 100 feet below the deepest formation tested by a well." (Emphasis added.) After expiration of the primary term in 2001, and upon LSU's demand, Camterra executed a release of depths "lying more than 100 feet below the base of the Cotton Valley Formation." Thereafter, in 2004, Camterra perforated the existing successful wells at lower depths to produce from the Lower Cotton Valley Formation or Zone ("LCV").

The University instituted suit against Camterra claiming that Camterra had no right to production from the LCV under the terms of the lease and the subsequent release. The University sought an accounting for the LCV production and for certain charges on the CV production not authorized by the lease. Camterra rejected the University's demand for LCV production, contending that it was entitled under the lease to the LCV production because the CV and LCV were different zones of the same "formation" within the meaning of the lease.

In addition, the University contested certain deductions from Camterra's production payments on the grounds that they were not authorized by the lease.

After extensive investigation, research and negotiations, and subject to approval of the Board, the University and Camterra have agreed to resolve the litigation on the following basis:

1. Cash payment in the amount of \$150,000.
2. Assignment of additional 0.25% overriding royalty interest in two existing leases
3. Reimbursement of \$45,766.26 for previously deducted charges.
4. LSU approval of certain assignments of Camterra's interests to others.

5. Other terms to facilitate the relationship between the parties.

2. Recommendation of University Attorney

After thorough review of this litigation, consultation with knowledgeable persons, and careful weighing the amounts in dispute, the chances of recovery and the costs of additional litigation, University Attorney, W. Shelby McKenzie, recommends approval of the proposed settlement.

3. Executive Session

Notice is hereby given that the Board has the option of discussing settlement of litigation in executive session. The suit is *Board of Supervisors of Louisiana State University and A&M College v. Camterra Resources Partners, Ltd et al*, No. 608,455, 19th Judicial Court, East Baton Rouge, Louisiana.

Recommendation

It is recommended that the LSU Board of Supervisors adopt the following resolution:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College does hereby authorize F. King Alexander, President and Chancellor of Louisiana State University, to enter into a settlement of the suit entitled *Board of Supervisors of Louisiana State University and A&M College v. Camterra Resources Partners, Ltd et al*, No. 608,455, 19th Judicial Court, East Baton Rouge, Louisiana on the terms set forth above or on such other or additional terms that, after consultation with counsel, he deems in the best interest of the University.

IV. HEALTH CARE AND MEDICAL EDUCATION COMMITTEE

LSU System Performance Metrics Executive Summary

The LSU System performance indicators are designed to provide campus leadership and the Board of Supervisors with a mechanism for evaluating annual institutional performance. This document includes a summary of the LSU System campuses performance metrics data. The metrics data provided allow institutions to discuss descriptive metrics and performance measures within the context of each campus' mission.

In complex university systems, the distinct and quite different institutions do not measure their performance against each other but against the larger marketplaces where they compete. Two elements are critical for the effectiveness of performance measurement. First is the constant tracking of improvement from year to year. Second is the periodic benchmarking of campus performance against appropriate national counterparts. Data provided in this document speak primarily to the first element of annual improvement. Subsequent work by the campuses in identifying appropriate measures of performance against national counterparts provide a context for the second, national benchmarking element, of effective performance measurement.

The utility of these data points for evaluating institutional performance varies by campus and mission. Below is a general outline of metrics data captured in this document. Please note that for example, in some institutions, enrollment growth is critical to survival; for others, enrollment is stable and other indicators will be more important. Other institutions may pay particular attention to undergraduate education, others to research or technology transfer. Consequently, although this data describe the scale of operations, their utility as metrics for performance improvement measurement varies.

Below is a general outline of metrics data captured in this document. These metrics represent a start to what is expected to become a significant analysis and measuring tool for the Louisiana State University System and its institutions.

General Metrics Description

- Metric I: Degrees and Credentials (*Including distribution by race, ethnicity, and other characteristics*)
- Metric II: Enrollment data (*Including distribution by race, ethnicity, and other characteristics such as full and part time*)
- Metric III: Retention, Graduation, Licensure, and Pass Rate (*Standardized State and National Exams*)
- Metric IV: Research Expenditures
- Metric V: Technology Transfer
- Metric VI: Revenue Sources (*Tuition and Fees, Other Revenue Resources*)
- Metric VII: Teaching and Research Productivity
- Metric VII: Hospital Statistics (HSCs only)
- Benchmark: Campus Specific Benchmark Metrics

Blank Page

Louisiana State University and A&M College

Louisiana State University and A&M College is known for its outstanding undergraduate and graduate academic programs, state-of-the-art research, internationally acclaimed faculty, and strong academic student support programs. LSU, the state's Flagship University, is ranked as a top-tier, research university-very high research activity (Carnegie Classification) and is one of a few select universities to be designated as a land-, sea-, and space-grant institution. The university attracts highly qualified undergraduate and graduate students. As stated in the institution's mission, LSU challenges its students to the highest levels of intellectual and personal development. Despite the continuing reduction in state funding for its educational programs, LSU strives to advance its programs of teaching, research and service. LSU's performances across the seven metrics from the past year are highlighted below.

- The total degrees awarded (6,093) in 2012-2013 was the second highest number awarded ever at LSU, exceeded only by the previous year's total (6,251). (Metric I)
- The number of degrees awarded in science, technology, engineering, and math (STEM) disciplines (1,631) was the highest ever, and a 2.5% increase above the previous year. (Metric I)
- Total undergraduate headcount as of the 14th class day (24,931) was the highest enrollment over the past 7 years and represented a 1.2% increase over last year's 14th day enrollment (24,631). (Metric II)
- The total headcount for first time degree seeking students as of the 14th class day (5,501) was the second largest in LSU's history, second only to the previous year's total headcount for first time degree seeking students (5,725). (Metric II)
- Total number of enrolled students who received Tops (13,321) increased from the previous year by 1.1%. (Metric II)
- Total number of students (9,182) enrolled in STEM programs increased 0.2% to its highest level in the past 7 years. (Metric II)
- Although both retention from first to second year (82.5%) and second to third year (73.0%) decreased, the six-year bachelor's graduation rate (66.9%) was the highest ever, increasing 2.9% over the previous year. (Metric III)
- Louisiana Community College transfer student second year retention rate (85.1%) increased 7.9% over the previous year's rate (78.9%), but the six year graduation rate (59.5%) decreased 5.6% over the previous year's rate (63%). (Metric III)
- Research expenditures in Engineering (\$30,387,000) and Environmental Sciences (\$30,493,000) both decreased over the previous year (2.6% and 5.8% respectively), but total research expenditures (\$138,599,000) decreased 3.6% from the previous year. (Metric IV)
- Total number of U.S. Patent Applications filed (34) and total number of licenses/options (16) increased from the previous year by 13.3% and decreased from the previous year by 15.8%, respectively. (Metric V)
- Annual gifts (\$84,964,000) increased 18.1% from the previous year. (Metric VI)
- Total net revenue from first-time-full-time freshmen (\$40,464,549) increased 17.9% from the previous year to the highest level ever. (Metric VI)
- Total semester credit hours taught per tenured/tenure track faculty (197) decreased 6.3% from the previous year's all-time high (210). (Metric VII)

The positive accomplishments indicated above are significant, especially considering the continued reduction in state support for higher education. However, the negative outcomes raise concerns about LSU's ability to sustain its mission as the state's flagship, comprehensive, research institution. As a state-supported institution, the university is unable to sustain growth and quality in its teaching, research, and service programs without stable and reliable state funding.

LSU and A&M VISION and MISSION:

As the flagship institution of the state, the vision of Louisiana State University is to be a leading research-extensive university, challenging undergraduate and graduate students to achieve the highest levels of intellectual and personal development. Designated as a land, sea, and space-grant institution, the mission of Louisiana State University is the generation, preservation, dissemination, and application of knowledge and cultivation of the arts.

In implementing its mission, LSU is committed to:

- *offer a broad array of undergraduate degree programs and extensive graduate research opportunities designed to attract and educate highly qualified undergraduate and graduate students;

- *employ faculty who are excellent teacher-scholars, nationally competitive in research and creative activities, and who contribute to a world-class knowledge base that is transferable to educational, professional, cultural, and economic enterprises; and

- * use its extensive resources to solve economic, environmental, and social challenges.

(Mission Statement approved December 2006 and reaffirmed October 2012)

List of STEM/SMART CIP code/s: The following list of CIP codes is to serve as a guide but it is not intended to be inclusive of all possibilities. We recognize that some campuses have degree programs centered in schools or colleges that might dictate a different CIP code. The campus should make the appropriate adjustment. In addition, the CIP codes used by the campus should correlate to the Board of Regents. If there is a discrepancy and the campus applies the IPEDS CIP code, then the campus should identify this with a footnote.

Total number of students enrolled in Allied Health	0	0	0	0	0	0	0

Note: In December 2012, Teacher Education Programs MATE & MATS enrollments moved from Regular to Alternative for 2009-10, 2010-11, and 2011-12

Louisiana State University and A & M

Metric II. The following metrics will provide the campus enrollment trends.

List of STEM/SMART CIP code/s: The following list of CIP codes is to serve as a guide but it is not intended to be inclusive of all possibilities. We recognize that some campuses have degree programs centered in schools or colleges that might dictate a different CIP code. The campus should make the appropriate adjustment. In addition, the CIP codes used by the campus should correlate to the Board of Regents. If there is a discrepancy and the campus applies the IPEDS CIP code, then the campus should identify this with a footnote.

Metric II. The following metrics will provide the campus enrollment trends.

Allied Health CIP Code/s

Allied Health and Medical Assisting Services	51.08
Allied Health Diagnostic, Intervention, and Treatment Professions	51.09

Variables Description

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for undergraduate credit.

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for graduate credit.

Full-Time Equivalent (FTE) – The calculation of FTE can vary by institution. However, FTE enrollment reported for this metric should reconcile to FTE data you report to the Louisiana BoR, SREB and IPEDS for your campus.

Full-Time Student Undergraduate - a student enrolled for 12 or more semester credits or 24 or more contact hours a week each term. (IPEDS)

Dual Enrollment- A student who is enrolled in high school but who is also enrolled, simultaneously, in a postsecondary institution are considered dual enrolled.

Science Technology Engineering and Mathematics (STEM): STEM enrollment is calculated based on STEM CIP codes.

Educations, Nursing, Allied Health - Use the CIP codes as defined by IPEDS for these disciplines to determine the number of students enrolled and graduates in these field of study.

Louisiana State University and A& M

Metric III. The following metric will identify the campus trends for retention, graduation, licensure and pass rate.

Analysis of First-time, Full-time, Baccalaureate Degree-seeking Freshmen (fall and prior summer)

V. The following metrics will provide Technology Transfer data.

	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013
How many Licensing FTEs were employed In your Technology Transfer Office?	2.5	3.5	2.5	2.5	2.5	2.5
How many Other FTEs were employed In your Technology Transfer Office?	1.5	1.5	2	2	2	2
List all Companies who entered Into Licenses or Options, Indicate if Start-Up, and identify Other LSU campuses Involved ¹						
How many Licenses did your Institution execute?	3	3	2	5	5	1
How many Options did your Institution execute?	0	1	2	0	0	1
How many different Disclosures are Included In the Licenses/Options Executed?	4	8	5	9	8	2
How many of these Licenses Executed reported above were Exclusive?	2	2	1	3	1	1
How many of these Licenses Executed reported above were Non-Exclusive?	1	1	1	2	4	0
How many Licenses/Options Executed Included Equity?	1	1	0	1	0	0
How many Licenses/Options were Active as of the last day, (cumulative)?	26	29	26	25	27	26
How many of the Licenses/Options Executed were Licensed to Start-Up Companies?	1	2	1	1	0	1
How many of the Licenses/Options Executed were Licensed to Small Companies?	2	1	3	4	5	0
How many of the Licenses/Options Executed were Licensed to Large Companies?	0	0	0	0	0	1
How much Research Funding was committed to your Institution (Includes multi-year commitments) that was related to License or Option Agreements Executed or that was related to License or Option Agreements Executed In a prior year for which the Research Funding committed was not previously reported, e.g., as a result of a Research agreement renewal?	\$0	\$0.00	\$30,000	none	\$39,998	\$0
How many Material Transfer Agreements (MTAs) did your Office process?	37	57	64	41	43	52
How many Research Agreements did your Office process?	9	31	51	51	48	53
What is the Total number of Licenses/Options yielding License Income of any sort?	14	11	13	15	19	16
How many Licenses/Options yielded Running Royalties?	6	5	5	5	6	6
How many Licenses/Options yielded more than \$1 million In License Income Received?	0	0	0	0	0	0
What was the Total amount of License Income Received at your Institution?	\$111,359	\$123,003	\$156,576	\$121,511	\$447,892	\$624,135
How much of the License Income Received can be attributed to Running Royalties?	\$70,425	\$76,305	\$127,217	\$107,036	\$391,081	\$403,575
How much of the License Income Received can be attributed to Cashed-In Equity?	\$0	\$0	\$0	\$0	\$0	\$0
How much of the License Income Received can be attributed to License Income of all Other types?	\$40,934	\$28,522	\$29,359	\$14,475	\$56,811	\$220,560
How much of the License Income was Paid to Other Institutions?	\$0	\$0	\$0	\$0	\$0	\$0
What was the Total amount spent on external legal fees for Patents and/or copyrights?	\$381,186	\$314,796	\$268,066	\$297,598	\$429,485	\$275,845
What was the Total amount Received In direct reimbursements from Licensees for legal fees?	\$25,672	\$18,177	\$24,936	\$43,280	\$33,642	\$47,599
How many Invention Disclosures were Received?	46	40	43	38	38	31
Of the Invention Disclosures reported In 13A, how many were closed during FY2013?	7	10	9	6		
Of the Invention Disclosures In 13A, how many were Licensed during FY2013?	1	0	1	1		
How many Total U.S. Patent Applications were filed?	38	16	20	28	30	34
How many New Patent Applications were filed?	12	8	11	15	14	15
Of these, how many were filed as US Provisional Patent Applications?	12	8	11	13	13	14
Of these, how many were filed as US Utility Patent Applications?	0	0	0	2	1	1
Of these, how many were filed as Non-US Patent Applications?	0	0	0	0	0	0
How many U.S. Patents were issued?	17	5	5	6	4	10
How many PVP certificates were filed?	0	0	0	0	0	0
How many PVP certificates were issued?	0	0	0	0	0	0

Financial Aid							
Total institutional dollars awarded need based aid for entering freshmen class	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$2,280,335	\$2,531,340	\$3,225,447
Total institutional dollars awarded non-need aid for entering freshmen class	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$14,782,771	\$6,740,939	\$8,068,681
Total institutional dollars awarded need based aid for entering freshmen class LA residents	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$2,055,651	\$2,288,600	\$2,966,684
Total institutional dollars awarded non-need based aid for entering freshmen class LA residents	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$4,177,018	\$2,480,313	\$2,872,069
Total institutional dollars awarded need based aid for entering freshmen class non-residents	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$224,684	\$242,740	\$258,763
Total institutional dollars awarded non-need based aid for entering freshmen class non-residents	XXXXXXXX	XXXXXXXX	XXXXXXXX	XXXXXXXX	\$10,605,753	\$4,260,626	\$5,196,612
State Appropriation per FTE²	\$6,461	\$7,918	\$7,746	\$6,595	\$5,507	\$5,340	\$4,934
Net Revenue Generated from auxiliary enterprises (i.e., bookstores, dining services)	\$13,146,453	\$12,509,351	\$14,426,711	\$16,519,891	\$20,474,503	\$20,696,795	\$15,881,226

¹ Total assets from LSU Foundation and Alumni Foundation audited consolidated financial statement. The only assets included in these statements that relate to the Tiger Athletic Foundation are the endowed funds the LSU Foundation manages for TAF. TAF's total assets are reported in its own financial statements. LSU Foundation total assets are included on LSU A&M, Law Center, and LSU Agricultural Center Metric reports.

² State Appropriation per FTE = the Board of Regents Formula Appropriations Per FTE.

Definitions:

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of the endowment as of June 30 of the reporting year.

FTE- Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Louisiana State University A&M

Metric VII. The following metric will identify teaching and research productivity

	Fall 2006	Fall 2007	Fall 2008	Fall 2009	Fall 2010	Fall 2011	Fall 2012

Definitions:**Enrollment in Fall Semester Lecture and Seminar Courses**

Total enrollment, number of sections offered, and average section size are reported by course level for fall semester lecture and seminar classes. Courses offered through Academic Programs Abroad and Continuing Education are excluded. Source: fall semester 14th class day course file.

Lower Division Undergraduate Courses: Courses typically associated with the first and second years of college study; courses numbered 0001 through 2999

Upper Division Undergraduate Courses: Courses typically associated with the third and fourth years of college study; courses numbered 3000 through 4999.

Graduate/Professional Courses: Courses typically associated with first professional or post-baccalaureate study; courses numbered 5000 through 9999.

Fall Teaching Activity

Full Time Equivalent (FTE) faculty: Faculty appointed at 100% effort are 1 FTE. Faculty appointed at 50% effort are 0.5 FTE.

Full Time Equivalent (FTE) graduate assistants: Typical appointment for a graduate assistant is 50% effort or 0.5 FTE.

Full Time Equivalent (FTE) faculty assigned to classes include (1) faculty who are tenured or on tenure track appointment, (2) faculty on annual appointment, and (3) graduate assistants. Only classes taught as part of the normal salary (on load) are included. Only unrestricted instruction, research, and public service funds are used in calculation of FTE. Source: fall semester faculty assignment file.

Organized class sections: Regularly scheduled classes meeting in classroom or similar facilities at stated times; lecture, laboratory, and seminar instruction; excludes independent study classes. Source: fall semester faculty assignment file.

Student credit hour (SCH): Course credit value multiplied by course enrollment.

Annual Instruction and Research Ratios

Annual student credit hours: Fall and spring student credit hours reported by level of student (undergraduate or graduate). Source: fall and spring 14th class day course files.

Annual full time equivalent (FTE) student is equivalent to the sum of undergraduate fall and spring student credit hours divided by 30 plus the sum of graduate fall and spring student credit hours divided by 24.

Direct unrestricted instructional expenditures: Instructional funds expended by academic units (those offering degrees and/or courses.) Source: Analysis of Current Unrestricted Fund Expenditures (C-2A), Supplement to the Financial Report.

Personnel costs: Salaries, wages, and related benefits reported on Analysis of Current Unrestricted Fund Expenditures (C-2A), Supplement to the Financial Report.

Total FTE faculty: All faculty ranks charged to instruction, research, and public service funds regardless of source. Includes both faculty assigned to classes and those who are not. Source: October 31 census payroll file.

Total FTE tenure/tenure track faculty: Faculty described above who are tenured or on tenure track appointments.

Research expenditures: Grand total research and development expenditures from both science and engineering (S&E) and non-S&E fields. Source: National Science Foundation (NSF) Survey of Research and Development Expenditures at Universities and Colleges.

LSU Paul M. Hebert Law Center Executive Summary

Metric VII sets forth the performance of the Law Center with respect to several measures of law school performance that are widely accepted in the American legal academy. The Law Center provides data responsive to these metrics for information purposes only.

Law schools generally track the academic qualifications of an entering class as compared with the 200 ABA approved law schools in the United States, by measuring the 25th percentile, median, and 75th percentile of LSAT scores of the entering class. For the second consecutive year and like most law schools nationally, the Law Center admitted fewer students to its 2013-14 class than the year previous, due to a national decrease in student demand. However, although the Law Center enrolled a smaller class of 178 in 2013-14, compared to the class of 200 in 2012-13, the 2013-14 class that was largely comparable to that of 2012-13. In 2012-13. The 25th percentile of LSAT scores of students that enrolled in the Law Center was 153 (the 56th percentile of all LSAT test takers), identical to 2012-13. The median LSAT test score decreased to 156 (the 67th percentile of all LSAT test takers) from 157. The 75th percentile decreased from 160 to 159 (the 77th percentile of all LSAT test takers). The diversity of the entering class, however, increased slightly from 22% to 24%, a 2% increase over the entering class of 2012-13 (Metric II).

The Law Center continues to graduate a high percentage of students within the prescribed three year period (4 years for those enrolled in joint degree programs). 92% of students graduating in 2013 met this standard, a figure attained as well by the class graduating class of 2012.

The Louisiana Bar instituted the new version of the Louisiana Bar for the July 2012 administration, a version still in place. Overall bar passage rates for the state have decreased under the new test format. Despite the changes to the bar exam, and the resulting decrease in state wide passage rate, the bar passage rate for the LSU Law Center remains significantly higher than the overall state bar passage rate, both for first time takers and for all takers (both first time and repeaters). For July 2013, 70.2% of all LSU Law test takers (first time and repeat) passed the exam, compared to a corresponding passage rate of 53.21% for all exam takers. For first time takers, Law Center graduates had a pass rate of 72.96%, as opposed to a 60.36% state wide pass rate. Thus, the Law Center's first time pass rate is 121% of the state wide rate. This represents an increase of 5% over the previous year.

The Law Center's employment rate for the graduating class of 2012 remained high, at 92%.^[1] There is no data on 2 graduates. (Because employment is measured under a nationally accepted 9 month post-graduation benchmark, the data for the graduating class of 2013 will not be available until late February of 2014.) Despite the economic decline that began in the summer and fall of 2008, and while there is a 1% decrease from the class of 2011, the employment rate remains high, significantly above the mark of 89% for the graduating class of 2009. The Law Center remains cautious about the legal employment market in light of the national economic conditions and remains concerned that legal employers, both in Louisiana and nationwide, are considering further reductions in summer clerkship positions as well as a reduction in the hiring of recent graduates.

^[1] 92% is the figure reported for Metric VII and at the Law Center website website at <http://www.law.lsu.edu/index.cfm?qeaux=aboutlsulaw.employmentsalary>. This figure is reached on the basis of all graduates for whom the Law Center has data, in this all except two graduates. This figure is reached on a different basis from the employment results

LSU Paul M. Hebert Law Center Executive Summary

reported in the National Benchmark Report. The figure reported there is 84.7%, and is calculated by U.S. News & World Report on the basis of the same data the Law Center reports to the American Bar Association and to the National Association for Legal Career Professionals, who together are responsible for collecting, validating, and reporting employment figures for all law schools. However, The 84.7% figure calculated by U.S. News & World Report is arrived at by subjecting data from the Law Center to an algorithm that the company has refused to disclose. The employment figures that U.S. News & World Report publishes for the Law Center's peers are calculated on the basis of that same algorithm.

Other Metrics (Metrics I, II, III, V, VI (Metric IV does not apply to the Law Center))

The Law Center provides data responsive to these metrics for information purposes only.

178 students matriculated as first year students in the 2013-14 academic year. This represents a decrease of 22 from the entering class for previous academic year. (Enrollment figures are as of the 14th class day.) (Metric II). As noted above, it is significant that the Law Center was able to maintain its national profile by nearly sustaining its objective LSAT measurements in a national market in which the number of first year students has decreased and in which the number of law schools competing for students has not decreased. Because of the reductions in State appropriations, the Law Center increased tuition for resident students from \$18,738 to \$19,860.75, an increase of \$1,122.75. Concomitantly, non-resident tuition increased from \$36,125 to \$38,117.50, an increase of \$1,992.50.

Recovery from the financial crisis of 2008-09 has had a positive effect on gifts to the Law Center. Unrestricted gifts increased from \$522,464 in 2011-12 to \$749,882 in 2012-13, an increase of 43.53%. Similarly, restricted gifts increased from \$1,334,730 in 2011-12 to \$2,211,716 in 2012-13, an increase of 65.71%. Accordingly, total gifts increased from \$1,857,193 to \$2,961,598, an increase of 59.47% (Metric V). The value of the Law Center endowment, which is managed by the LSU Foundation, suffered a substantial decline in the 2008-09 economic downturn, but has recovered. The Law Center endowment totaled \$14,200,223 in 2008-09 and has increased to \$24,489,321. This represents an increase of \$4,811,601, or 28.81%, from 2011-12 endowment total of \$19,011,824.

PAUL M. HEBERT LAW CENTER MISSION:

The mission of the Louisiana State University Paul M. Hebert Law Center is to prepare, through a demanding and comprehensive program of legal education, a well-qualified and diverse group of men and women to be highly competent and ethical lawyers; to be leaders in private practice, public service, and commerce; and to be capable of serving the cause of justice and advancing the common good, consistent with the rule of law.

As a law school that strives to embody excellence in legal education, the Law Center seeks to create a vibrant, stimulating, diverse, and challenging educational environment through the admission of an exceptionally well-qualified and broadly diverse student body drawn from a rich cross section of backgrounds, talents, experiences, and perspectives from the State, the nation, and other jurisdictions, including those that share our Civilian heritage. The quality of the intellectual community and the experiences of the student body are enriched by the commitment of the Law Center to support and assist in the continuing professional endeavors of our alumni; to serve members of the legal profession of the State, the nation, and the global community; to provide scholarly support for the continued improvement of the law; to promote the use of Louisiana's legal contributions as reasoned models for consideration by other jurisdictions; to develop the Law Center as a bridge between the civil law and the common law; to facilitate the exchange of ideas among legal scholars; and to embrace the responsibilities of a public law school to the varied segments and regions of the State.

The LSU Law Center is accredited by the American Bar Association and the Southeastern Association of Colleges and Schools and is classified as a SREB Specialized institution. Because of the civilian heritage of the State of Louisiana, graduates of the Law Center receive both the Juris Doctor degree and a Diploma in Comparative Law, recognizing the unique training of its student body in both the American common law and the civil law that governs the majority of jurisdictions in the global community.

% Students passing Licensure Exam	88.3%	75.4%	79.0%	86.1%	72.0%	80.2%	71.8%	70.2%

* Each year includes the July exam and February exam for all test takers. For example, column 2006-2007 contains all students who took the July 2006 bar exam and the February 2007 bar exam. Column 2012-2013 has been updated to reflect the both the July 2012 and February 2013 bar exams. The 2013-14 reflects only the July 2013 bar results, since the February 2014 bar exam has not yet been administered. Because 2012-2013 is the most recent FULL year data (July and Feb testing combined) it is used in the At A Glance section of this report as the comparison year.

State Appropriation per FTE Student³	\$11,167	\$12,759	\$12,963	\$10,750	\$10,434	\$7,145	\$6,824

¹ This ratio reflects direct alumni giving only and does not include donations which have been indirectly identified with LSU Law School alumni such as gifts directed by alumni within law firms

² Total assets from LSU Foundation's audited consolidated financial statement. The only assets included in these statements that relate to the Tiger Athletic Foundation are the endowed funds the LSU Foundation manages for TAF. TAF's total assets are reported in its own financial statements. LSU Foundation total assets are included on LSU A&M, Law Center, and LSU Agricultural Center Metric reports.

³ Based on annual FTE count as reported to the Board of Regents. Includes ARRA stimulus funds of \$1,696,281 for FY10 and \$2,455,272 for FY11

Paul M Hebert Law Center

V. The following metrics will identify the tuition and fee revenues, and, other revenue resources.

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of of the endowment as of June 30 of the reporting year.

FTE - Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Paul M. Hebert Law Center

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014

Personnel Cost as a percent of Direct Instructional Expense	85.6%	86.9%	84.5%	87.9%	85.9%	85.7%	78.9%	81.1%
Notes: Salary & benefit data was obtained from the budgeted expenditures for instructional salaries.								

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. **EXCLUDE** expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in *Academe*. If no rate is available, we will use a default value of 28%.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

As part of the GRAD Act, the Law Center updated its peer institution comparison to a broader peer group that takes into account a variety of factors to provide a more accurate measurement baseline. This broader market compares public law schools ranked 50 to 100 by the annual U.S. News rankings and, includes, but is not limited to, SREB law schools.

** Source: U.S. News and World Reports Annual Rankings, 2013 Edition, nine month graduation rates are for graduating class of 2012.

*** LSU Law Center's nine month placements rate as reported in U.S. News and World Reports, 2013 edition (for graduating class of 2012).

**** Data for individual schools not available. For all ABA-approved law schools, first year attrition is 11% (89% retention). For all public ABA-approved law schools, first year attrition is 8% (92% retention). Source: 2012 ABA Annual Report.

Pennington Biomedical Research Center Executive Summary

Metric IV - Research Expenditures

Researchers at the Pennington Biomedical Research Center continued in 2013 to perform well in receiving grants and contracts with a 9.3% increase in total gift, grant, and contract funding. As a result the total amount of faculty research was up by 3.3 % in 2013.

Pennington's business model requires a stable base level of support to return grants and contracts on an order of 1:3. It will become increasingly difficult to sustain our excellent levels of grant and contract funding without an increase in base funding. Nevertheless, we are pleased with the 2013 success in funded proposals.

Metric V - Technology Transfer

Licensing and Licensing Income decreased in 2013. Pennington has re-organized our Technology Transfer Office, and we believe the prospects for technology transfer and income to be positive for the long term future.

Legal fees for technology transfer have decreased, reflecting Pennington's new process of evaluating potential return on patents and licenses to curtail legal expenditures on technology that shows little promise for future return. The number of U.S. Patent Applications have increased significantly, and the number of Material Transfer Agreements in 2013 have more than doubled from the previous year.

Metric VI - Revenues

Foundation total Assets and total Endowment value has increase. Total annual Giving is down in 2013 by 21.7%.

State Appropriations per FTE employee increased in 2013 due to reductions in FTEs.

Our Auxiliary enterprise (PBRC Stores) is designed to break even in order to cover the costs of the operation and give our researchers best possible prices on research supplies and equipment. It has exceeded this goal for every year in the reporting period.

MISSION:

Our mission is to discover the triggers of chronic diseases through innovative research that improves human health across the lifespan---helping people to live *Well* Beyond the Expected.

Foundations total Assets (\$ Amount)	\$ 171,031,845	\$ 166,097,845	\$ 96,423,971	\$ 96,870,839	\$ 97,579,016	\$ 93,288,954	\$ 96,147,747
Click here to go to the Foundations Supplemental Table List your Institution's Foundations							
State Appropriation per FTE employee	\$28,983	\$34,608	\$34,506	\$31,526	\$34,373	\$28,680	\$31,682
Net Revenue Generated from auxiliary enterprises	N/A	(\$13,073)	\$13,073	\$73	\$353	\$8,641	\$9,068

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of of the endowment as of June 30 of the reporting year.

FTE- Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Additional Footnotes from Foundations:

Pennington Medical Foundation (PMF):

1. PMF is on a calendar year basis (not fiscal year basis). Therefore, data provided by PMF is for calendar year 2006, 2007, 2008, 2009, 2010, 2011, and 2012.
2. Total Annual Giving (Foundation Gifts) represents gifts/payments from the PMF to the Pennington Biomedical Research Center (PBRC) - not gifts received by the PMF. In addition, the figures above are not all inclusive annual support from the PMF to the PBRC. The numbers above only represent direct support payments from the PMF to the PBRC. It does not include payments made to other third party entities, which support PBRC, and in comparison is a significant source of support to PBRC. The total program services support from PMF to PBRC, as verified on PMF's annual audit reports is as follows: 2006 - \$6,785,450 2007 - \$7,974,027 2008 - \$7,224,678 2009 - \$4,804,725 2010 - \$4,436,998 2011-\$3,283,536 2012-\$3,023,018.

Pennington Biomedical Research Foundation (PBRF):

1. PBRF is on a fiscal year basis. The data provided by PBRF is for fiscal year ending June 30, 2007, 2008, 2009, 2010, 2011, 2012, and 2013.
2. Total Annual Giving (Foundation Gifts) represents gifts/payments from the PBRF to the PBRC - not gifts received by the PBRF. In addition, the figures above are not all inclusive annual support from the PBRF to the PBRC. The numbers above only represent direct support payments from the PBRF to the PBRC. It does not include payments made to other third party entities, which support PBRC, and in comparison is a significant source of support to PBRC. The total program services support from PBRF to PBRC, as verified on PBRF's annual audit reports is as follows: 2007 - \$1,390,874 2008 - \$1,387,373 2009 - \$1,740,912 2010 - \$1,765,635 2011 - \$2,114,326 2012-\$2,698,542 2013-\$2,288,673.
3. Total payout from endowment equals amount expended (private and state) by the Foundation for the endowed chair and professorship program. Note, this amount is also included in the total annual giving number since the Foundation's endowment payout is paid directly to PBRC each year.

"Total Endowment Value" above does not include investments of the Pennington Medical Foundation, since it does not technically have a donor restricted permanent endowment. If you would like to include its investments, they are as follows for the Pennington Medical Foundation: 2006 - \$98,645,860 2007 - \$93,335,450 2008 - \$34,403,153 2009 - \$34,121,588 2010 - \$33,661,631 2011-\$31,360,922 2012-\$31,868,025.

Louisiana State University Agricultural Center Executive Summary

Declining state appropriations and unfunded mandates continue to hamper our ability to maintain vital LSU AgCenter programs, which target improved health and welfare, youth development, family success, community sustainability, conservation of soil and water resources, agriculture productivity and profitability, coastal restoration, biofuel development, and more.

The AgCenter has taken a variety of measures to balance the budget. Some of these measures include:

- Reorganization of the administrative structure to provide more effective and efficient management of programs.
- Consolidation, restructuring and closing of units.
- A variety of different staffing strategies to maximize productivity.
- Redesigned business processes to achieve efficiencies.
- Retirement incentive programs in 2009 and 2010.
- Restructuring, downsizing, and elimination of programs.
- Cuts to all support categories.
- Deferral of critical equipment and maintenance needs.
- Increased emphasis on external grant funding.
- Sustained effort to increase the local support for parish Extension Service programs.

Among the AgCenter's details in the attached are:

- External awards and funding continue to increase.
- Royalty income has increased markedly in recent years, and the rate of royalty income to research expenditures ranks the LSU AgCenter close to the top nationally.
- The Louisiana 4-H youth development program is one of the largest among our peers, and the success of that program is remaining steady despite budget cuts.
- The total number of research publications and refereed publications credited to the LSU AgCenter are climbing.
- Total gifts to the foundations are down because of the economic recession.

Many factors threaten our ability to deliver the level and range of research and educational programs to which the public is accustomed. However, we intend to make every effort to maintain our most critical programs, to remain true to our core mission of improving the lives of Louisiana citizens, and to provide the most we can for every dollar invested in the LSU AgCenter.

LSU AgCenter MISSION:

The overall mission of the LSU Agricultural Center is to enhance the quality of life for people through research and educational programs, which help ensure a safe and secure food supply, the best use of natural resources, and job availability in existing and new agricultural and related enterprises. The LSU AgCenter provides educational services in every Louisiana parish and conducts research that contributes to the economic development of the state. The LSU AgCenter does not grant degrees nor benefit from tuition increases. The LSU AgCenter plays an integral role in supporting agricultural industries, protecting the environment, and improving the quality of life in Louisiana through its 4-H youth, family and community programs.

Build Leaders and Good Citizens through 4-H Youth Development

Number of 4-H members and participants	218,094	215,954	201,483	205,493	206,750	208,568	215,130
Number of 4-H volunteer leaders	7,419	7,941	7,229	7,577	7,278	7,255	7,243
Number of 4-H participants in community service activities	42,720	38,082	43,898	43,996	45,433	47,846	39,568

* Introduction of new web design.

**New data collection system implemented. Current reporting system allows a count of each individual educational program conducted whereas the previous system did not allow that count. The new system counts all activities with 2 or more participants as a group teaching method. We have also added nutrition educators to the reporting system. The frequency of reporting has been increased thus increasing accuracy.

V. The following metrics will provide Technology Transfer data.

¹ Total assets from LSU Foundation audited consolidated financial statement and Louisiana 4-H Foundation. The only assets included in these statements that relate to the Tiger Athletic Foundation are the endowed funds the LSU Foundation manages for TAF. TAF's total assets are reported in its own financial statements. LSU Foundation total assets are included on LSU A&M, Law Center, and LSU Agricultural Center Metric reports

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of the endowment as of June 30 of the reporting year.

FTE- Full time equivalent

Payout from Endowment equals interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Louisiana State University Shreveport

Executive Summary

LSU Shreveport Performance Metrics

12/1/13

Metric I - Degrees Awarded

LSU Shreveport continues to graduate over 600 students per year. The number of degrees awarded is cyclical, and although the total number has decreased from an all-time high in 2010-11, there was a 2.1% increase in overall completers over the previous year. Large gains were seen at the masters degree level , 17.5% increase over the previous year, whereas undergraduate completers remained consistent with the previous year.

Metric II - Enrollment

Overall headcount enrollment was down from last year in all categories other than Graduate Studies which saw an increase of 7%. In particular, one program in the Department of Education increased its enrollment 200% - this program was offered via distance learning for the first time this year. The number of transfer students from Louisiana Community Colleges increased over the previous year; however, transfers from other Louisiana 4-year institutions declined.

Metric III - Student Success

Large gains have been seen in the graduation rate at LSU Shreveport over the past five years. Since 2002, the 6-year federal graduation rate has increased over 10 percentage points from 20.1% to 32.6%. First to second year retention is just above 66%, whereas first to third year retention declined from the previous year.

Metric IV - Research Expenditures

Overall research expenditures and faculty working of research decreased from the previous year. Physical Sciences and Mathematical Science did show increases of \$17,000 and \$132,000, respectively, over the previous year.

Metric V - Technology Transfer

LSU Shreveport did not seek any technology transfer during the reporting period.

Metric VI - Revenues

Annual gifts and total endowment values both increased for the 2012-13 year over that of 2011-12. Total gross revenue for first-time full-time freshmen also increased over the previous year. No institutional need-based aid was given - this was consistent with prior years. Non-institutional need-based aid was increased to all groups other than the category of entering freshmen non-residents. State appropriations per fte continued to decrease and have done so over the past four years.

Metric VII - Faculty Productivity

There was an increase in the number of non-tenure/tenure track faculty for fall 2012. This resulted in a rise in non-tt faculty teaching a higher number of sections. The percent of sections taught by tenure track faculty also decreased because of the increase in the number of non-tenure track faculty.

LSUS MISSION:

The mission of Louisiana State University in Shreveport is to:

1. Provide a stimulating and supportive learning environment in which students, faculty, and staff participate freely in the creation, acquisition, and dissemination of knowledge;
2. Encourage an atmosphere of intellectual excitement;
3. Foster the academic and personal growth of students;
4. Produce graduates who possess the intellectual resources and professional and personal skills that will enable them to be effective and productive members of an ever-changing global community; and
5. Enhance the cultural, technological, social, and economic development of the region through outstanding teaching, research, and public service.

List of STEM/SMART CIP code/s: The following list of CIP codes is to serve as a guide but it is not intended to be inclusive of all possibilities. We recognize that some campuses have degree programs centered in schools or colleges that might dictate a different CIP code. The campus should make the appropriate adjustment. In addition, the CIP codes used by the campus should correlate to the Board of Regents. If there is a discrepancy and the campus applies the IPEDS CIP code, then the campus should identify this with a footnote.

Allied Health CIP Code/s

Allied Health and Medical Assisting Services

Allied Health Diagnostic, Intervention, and Treatment Professions

Variables Description

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for undergraduate credit.

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for graduate credit.

Full-Time Equivalent (FTE) – The calculation of FTE can vary by institution. However, FTE enrollment reported for this metric should reconcile to FTE data you report to the Louisiana BoR, SREB and IPEDS for your campus.

Full-Time Student Undergraduate - a student enrolled for 12 or more semester credits or 24 or more contact hours a week each term. (IPEDS)

Dual Enrollment- A student who is enrolled in high school but who is also enrolled, simultaneously, in a postsecondary institution are considered dual enrolled.

Science Technology Engineering and Mathematics (STEM): STEM enrollment is calculated based on STEM CIP codes.

Educations, Nursing, Allied Health - Use the CIP codes as defined by IPEDS for these disciplines to determine the number of students enrolled and graduates in these field of study.

Louisiana State University Shreveport

Metric III. The following metric will identify the campus trends for retention, graduation, licensure and pass rate.

Analysis of First-time, Full-time, Baccalaureate Degree-Seeking Freshmen

Cohort Type	Cohort Year	Head Count	Average ACT	% continuation to_2nd_Yr	% continuation to_3rd_Yr	Cumulative% Graduating after 4 Yrs	Cumulative % Graduating after 5 Yrs	Cumulative % Graduating after 6 Yrs	Cumulative% Graduating after 7 Yrs

Net Revenue Generated from auxiliary enterprises (i.e., bookstores, dining services)	119,385	(220,576)	(522,675)	207,976	(280,882)	(278,354)

¹ State Appropriation per FTE = the Board of Regents Formula Appropriations Per FTE.

Louisiana State University Shreveport

VI. The following metrics will identify the tuition and fee revenues, and, other revenue resources.

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of the endowment as of June 30 of the reporting year.

FTE Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations. Reporting Operating revenues = Gross revenues less Coast of goods sold for all auxiliaries (Athletics, University Center, Bookstore, Food Service). Not including Student Fees.

Louisiana State University Shreveport

Metric VII. The following metrics will identify teaching and research productivity per FTE faculty.

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. EXCLUDE expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in *Academe*. If no rate is available, we will use a default value of 28%.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

Research: This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or **separately budgeted** by an organizational unit within the institution. Report total research expenditures only. It is not necessary to disaggregate costs for this category.

Public Service: Report all funds **separately budgeted** specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples include cooperative extension and community outreach projects. Report total service expenditures only. It is not necessary to disaggregate costs for this category.

Federally Funded Research: As defined by NSF

Louisiana State University Alexandria Executive Summary

M 1: Completions

The number of degrees awarded in 2012-2013 increased slightly from 2011-2012, and the number of bachelor degrees awarded continues to increase. Over the past few years, this steady increase in bachelor degree awards confirms the fact that Central Louisiana has embraced the baccalaureate standing of LSUA, and that LSUA is transitioning to a four-year University.

M2: Enrollments

The bright spot in enrollment is a second consecutive gain in first-time, full-time students, rising to 332 this year which is the largest freshmen class since 2006. Overall, enrollment declines this year were due primarily to the loss of dual-credit, high school students. However, enrollment continues to be a challenge for LSUA. The combination of more selective admission standards, decreased financial aid support from the State of Louisiana, and continued declines in the number of graduates from Louisiana high schools has resulted in the headcount decline. LSUA is engaged in a comprehensive enrollment planning and recruitment effort as well as an assessment of the current financial aid resources in order to reverse these trends.

M3: Baccalaureate Graduation Rates

Bachelor degree graduation rates are improving significantly. For the first year, LSUA has exceeded a 20% rate, and subsequent cohorts are on track to make further gains. This is a function of increased efforts at tracking student progress, and developing paths for success at all levels. Another positive indicator is the upturn in 1st to 2nd year retention rates, climbing from 42.5% to 53.6%, although this remains about 8 percentage points lower than recent highs. The continued decline in the number of Nursing graduates should also be noted. Extensive efforts are underway to reverse that trend.

M5: Revenue

LSUA Foundation endowment increased in the past year. Most of the change in gross and net tuition revenue is due in part to an increase in both tuition and course fees. Additionally, historical figures from past years were reported as "Tuition Only" and did not include revenue generated from Fees. The decline in net revenue generated from auxiliary enterprises is due to the movement of salaries and related benefits to auxiliary services due to the reduction in state funding. The state appropriation per FTE student also continues to decline.

M6: Faculty

The annual change in enrollments, number of sections taught and the assignment of courses to fulltime and adjunct faculty are all directly attributable to the enrollment trends, the continued budget reductions, and the inability to fill positions with fulltime, tenured or tenure-track faculty. As a result, the number of course sections taught by tenured or tenure track faculty and the number of FTE faculty has declined.

LSUA MISSION:

As the only state-supported undergraduate university in Louisiana, LSUA's mission is to provide a broad spectrum of affordable undergraduate degrees in a robust academic environment that challenges students to excel and creates proactive and reciprocal relationships that meet the needs of the diverse student body and community that it serves.

List of STEM/SMART CIP code/s: The following list of CIP codes is to serve as a guide but it is not intended to be inclusive of all possibilities. We recognize that some campuses have degree programs centered in schools or colleges that might dictate a different CIP code. The campus should make the appropriate adjustment. In addition, the CIP codes used by the campus should correlate to the Board of Regents. If there is a discrepancy and the campus applies the IPEDS CIP code, then the campus should identify this with a footnote.

Variables Description

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for undergraduate credit.
Headcount Enrollment Graduate – Total number of full-time and part-time students enrolled in courses for graduate credit.
Full-Time Equivalent (FTE) – The calculation of FTE can vary by institution. 14th day SCH's Divided by 12
Full-Time Student Undergraduate - a student enrolled for 12 or more semester credits or 24 or more contact hours a week each term. (IPEDS)
Dual Enrollment- A student who is enrolled in high school but who is also enrolled, simultaneously, in a postsecondary institution are considered dual enrolled.
Science Technology Engineering and Mathematics (STEM): STEM enrollment is calculated based on STEM CIP codes.
Educations, Nursing, Allied Health - Use the CIP codes as defined by IPEDS for these disciplines to determine the number of students enrolled and graduates in these field of study.

Louisiana State University Alexandria

Metric III. The following metric will identify the campus trends for retention, graduation, licensure and pass rate.

² FTE for non-tenured/tenure-track faculty based on 15 hr teaching load. This group includes full-time instructors and Early Start HS teachers.

³ All SCHs reported in this spreadsheet are from the production database (not census) so as to accurately reflect B-term class enrollments.

⁴ Data reflects IPEDS Fall survey.

Louisiana State University Alexandria

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. EXCLUDE expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in *Academe*. If no rate is available, we will use a default value of 28%.

Louisiana State University Alexandria

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

Research: This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or **separately budgeted** by an organizational unit within the institution. Report total research expenditures only. It is not necessary to disaggregate costs for this category.

Public Service: Report all funds **separately budgeted** specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples include cooperative extension and community outreach projects. Report total service expenditures only. It is not necessary to disaggregate costs for this category.

Federally Funded Research: As defined by NSF

Total Research and Expenditures: As defined by NSF

Louisiana State University Eunice

Executive Summary

Introduction

With the onset of AY 2013-14, LSU Eunice begins its 47th year of service to the LSU System and to the greater Acadiana region of Southwest Louisiana; and, for the sixth year, the Central Louisiana (CenLA) region of Louisiana. Over the more than four and a half decades of its existence, LSU Eunice has accrued a reputation for excellence in terms of its programs, its faculty, its students, its nationally-recognized community service programs (e.g., Bengal Book Buddies); and, its nationally-recognized, NJCAA, student athletic programs. Collectively, these achievements have all taken place over this time-frame while LSU Eunice has served as the only open-access institution of the LSU System, providing multiple opportunities for the campus to collaborate as a preparative and transfer campus for several of the other campuses of the LSU System. Therefore, it is within this context and role, scope, and mission that these system metrics should be both reviewed and considered.

Narrative

In AY 2012-13 (Fall 2012), LSU Eunice enrolled 3,074 students representing over a 3% increase over the Fall 2011 enrollment for this Metric. This increase was primarily due to increased student access to financial aid (FA) in a timely manner. In fact, by August 1, 2012, using improved FA computerization techniques worked out between our Information Technology (IT) and FA units, three times as many students had their awards processed (3,073) for 2012 than were processed in the prior year by August 1, 2011 (1,023 students). Moreover, due to improved student monitoring and intervention, last fall's (2012) enrollment increase was maintained through the Fall 2012 semester and, in doing so, this improved retention enabled the campus to successfully achieve what was a passing GRAD Act retention rate from Fall 2011 to Fall 2012 of 47.21% for Year 3. (NB. A retention rate of 45.29% was determined to be minimally needed in order to achieve passage for Year 3 as measured by the alternate method). Contrastingly, however, Fall 2013 enrollment fell to 2,673, a 13% drop from 2012. And, while enrollment numbers were down, nationally, the expansion of the LCTCS Campus, South Louisiana Community College, along with an improved economy and increased gas prices have all played a role in this decline. Additionally, the elimination of LOSFA tuition support for the high school Dual Enrollment Program also played a major role in the overall, campus loss in "total head count enrollment" for Fall 2013.

Hence, while essentially all measures of enrollment (Metric II) for AY 2013-14 were down (i.e., 14th day First-time Full-time Degree Seeking Freshmen (↓ 7.7%); 14th day Transfer Student Enrollment (↓ 33.2%); undergraduate head count (↓ 13.0%); High School numbers of dual enrollment students (↓ 42.0%); and, the Total number of TOPS awardees (↓ 2.5%), the total number of students enrolled in STEM increased by 9.4%. Contrastingly, however, were the improved performances noted in respect to Metric I, "Degrees Awarded," such as: Associates (↑ 12%); Degrees Awarded to Louisiana Residents (↑ 7.7%); Degrees Awarded in STEM (↑ 22%); and, Degrees Awarded in Allied Health (↑ 20%). However, a small drop occurred in the total number of Nursing Degrees Awarded (↓ 3.1%). In respect to student success (Metric III) category, continued improvement in 1st to 2nd Year retention was realized (↑ 5.9%), along with a continued increase in the Second to Third Year Retention (↑ 20.1%).

Of particular note, in respect to the "Pathways' Program" for ≤ 15 composite ACT students, was that successes continued in respect to the percentage of Program Students in "Good Academic Standing" (↑3.9%); and, in the category of "Mean Grade Point Average of Program

Louisiana State University Eunice

Executive Summary

Students" (↑ 5.1%). The "Fall-to-Fall Retention Rate" for the Pathway Students, however, continues to be a difficult area to improve upon (↓5.1% for AY 2013-14), because of the many domestic/personal problems which these "at-risk" students frequently have to deal with while pursuing a higher education--even though the collective Pathways' Program students continue to demonstrate improved performance results, as previously communicated. Hence, these students appear, as a group, to be consistently plagued by personal and fiscal circumstances/problems which often require them to be "stop-outs," as opposed to drop-outs, in terms of their persistence patterns. In fact, since first monitored in Spring of 2008, the Pathways Program has had the largest percentage (56%) of its students (n=1500), withdraw for "personal, non-academic reasons" as opposed to those who withdrew for academic reasons (44%), demonstrating the complexity of the issues (frequently, non-academic and non-financial) which impact upon the ability of this "fragile" student population to persist.

As anticipated, all institutional areas of revenue were down for 2013-14 (Metric V), because of the past budget cuts made by the state. These areas included: the State appropriation per FTE (↓ 12.9%);and, the Total Gross and Net Revenue from First-Time Full-Time Freshman ↓ 9.5% and ↓ 9.9%, respectively, primarily due to the decrease in enrollment and SCH in 2013-14. Contrastingly, however, Foundation revenues increased due to an improved amount (↑ 7.3%) of LSUE Foundation gifts (primarily from athletics), along with an increase in Market Value of the endowments (↑ 9.2%) in 2013-14. Therefore, given our "tuition dependency", the campus is currently working upon strategies to notably improve upon its enrollment in 2014-15---especially in respect to the percentage of its full-time as opposed to its part-time students---while also working to achieve its tuition increase capability by passage of the GRAD Act in Year 4.

Finally, in respect to Metric VI (Faculty Productivity), the Total Class Sections Taught per FTE full-time faculty went up over two percentile points in 2013-14, in contrast to a lesser number of sections and, therefore, SCH's being taught by part-time faculty in 2013-14 (↓ 0.3%). This, however, is exactly the trend that SACS-COC expects campuses to achieve for their accreditation, i.e., more full-time vs part-time faculty being employed to provide the campus' academic programming.

LSUE MISSION:

Louisiana State University at Eunice, a member of the Louisiana State University System, is a comprehensive, open admissions institution of higher education. The University is dedicated to high quality, low-cost education and is committed to academic excellence and the dignity and worth of the individual. To this end, Louisiana State University at Eunice offers associate degrees, certificates and continuing education programs as well as transfer curricula. Its curricula span the liberal arts, sciences, business and technology, pre-professional and professional areas for the benefit of a diverse population. All who can benefit from its resources deserve the opportunity to pursue the goal of lifelong learning and to expand their knowledge and skills at LSUE.

- In fulfillment of this mission, Louisiana State University at Eunice strives to achieve the following:
- Encourage traditional and nontraditional populations to take advantage of educational opportunities.
- Create a learning environment which facilitates the integration of knowledge and the development of the whole person.
- Provide a general education which requires all students to master the skills and competencies necessary for lifelong learning.
- Provide programs which parallel four-year college and university courses, including special honors courses, which are directly transferable.
- Prepare students to meet employment opportunities as determined by regional needs.
- Prepare programs of developmental studies which will upgrade student skills to the levels necessary for successful college experience.
- Provide necessary support services to help students realize their maximum potential.
- Create and offer programs of Continuing/Adult Education and community service which respond to the needs of the area.

Louisiana State University Eunice

Metric I. The following metrics will identify the number of degrees conferred by level and professions most important to Louisiana.

List of STEM/SMART CIP code/s: The following list of CIP codes is to serve as a guide but it is not intended to be inclusive of all possibilities. We recognize that some campuses have degree programs centered in schools or colleges that might dictate a different CIP code. The campus should make the appropriate adjustment. In addition, the CIP codes used by the campus should correlate to the Board of Regents. If there is a discrepancy and the campus applies the IPEDS CIP code, then the campus should identify this with a footnote.

Allied Health Diagnostic, Intervention, and Treatment Professions	51.09

Variables Description

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for undergraduate credit.

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for graduate credit.

Full-Time Equivalent (FTE) – The calculation of FTE can vary by institution. However, FTE enrollment reported for this metric should reconcile to FTE data you report to the Louisiana BoR, SREB and IPEDS for your campus.

Full-Time Student Undergraduate - a student enrolled for 12 or more semester credits or 24 or more contact hours a week each term. (IPEDS)

Dual Enrollment- A student who is enrolled in high school but who is also enrolled, simultaneously, in a postsecondary institution are considered dual enrolled.

Science Technology Engineering and Mathematics (STEM): STEM enrollment is calculated based on STEM CIP codes.

Educations, Nursing, Allied Health - Use the CIP codes as defined by IPEDS for these disciplines to determine the number of students enrolled and graduates in these field of study.

Louisiana State University Eunice

Metric III. The following metric will identify the campus trends for retention, graduation,

¹ State Appropriation per FTE = the Board of Regents Formula Appropriations Per FTE.

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of of the endowment as of June 30 of the reporting year.

FTE Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Louisiana State University Eunice

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

Direct instructional expenditures per FTE student	2,809.72	2,823.16	2,387	2,516	2,802	2,718	
Personnel cost as % of Direct Instructional Expenditures	96.10	96.35	97.04	95.53	96.30	96.74	
Total FTE faculty (instruction, research, public service)			107.6	116.0	100.7	100.0	98.0
Full-time FTE faculty as % of total FTE faculty			71.0%	74.3%	76.4%	75.9%	78.5%

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. EXCLUDE expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in Academe. If no rate is available, we will use a default value of 28%.

Metric VI. The following metrics will identify teaching and research productivity per FTE faculty.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

Research: This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or **separately budgeted** by an organizational unit within the institution. Report total research expenditures only. It is not necessary to disaggregate costs for this category.

Public Service: Report all funds **separately budgeted** specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples include cooperative extension and community outreach projects. Report total service expenditures only. It is not necessary to disaggregate costs for this category.

Federally Funded Research: As defined by NSF

Louisiana State University Eunice National Benchmark Report

	Success rates in developmental courses			Success rates in the first general education course after developmental courses.			The percentage of students who completed their developmental education sequence
	English	Math	Reading	English	Math	Reading/Social Sciences	
Louisiana State University Eunice	85%	63%	79%	83%	64%	76%	30%
National Average	73%	68%	76%	64%	58%	69%	30%

Notes:

All success rates calculated using methodology from the National Center for Developmental Education. Success is defined as those who achieve an A, B, or C divided by those who remain in the course at the end of the semester. Students who withdraw or are failed due to the attendance policy are removed from the total n.

Math at 63% was calculated using an average of 68% for MATH 0001 and 58% for MATH 0002.

Success Rates in the first general education course after developmental courses in English and Math at LSUE are calculated through Spring 2011; for Reading/Social Sciences it is calculated through Spring 2013.

The percentage of students who completed their developmental education sequence National Average is 30-40%.

Gerlaugh, K., Thompson, L., Boylan, H., and Davis, H. (2007). National study of developmental education II: Baseline data for community colleges. *Research in Developmental Education* 20 (4) 1-4.

Bailey, T., Jeong, D. W., & Cho, S. W. (2008). Referral, enrollment, and completion in developmental education sequences in community colleges. Retrieved on January 20, 2009 from <http://ccrc.tc.columbia.edu/Publication.asp?UID=659>

LSUHSC-NO 2013-14 Metric Executive Summary

LSU Health Sciences Center at New Orleans welcomes the opportunity to provide information concerning our student enrollment, graduation rates, faculty teaching and research productivity, and revenue resources. The information below is grouped by Metric and identifies significant trends and swings in data.

Metric I – Degrees Awarded

- There have been considerable increases in the number of degrees awarded in Allied Health and Nursing during the period of 2006-2007 to 2012-2013. This is a positive impact from efforts to increase the healthcare workforce.
- Total degrees and certificates grew over 24% from 2006-2007 to 2012-13. The percentage of minority students receiving degrees increased over 62%.

Metric II – Enrollment Trends

- Total Undergraduate, Graduate, and First Professional Headcount enrollment show a steady increase from 2006-2007 to 2013-2014. When combined, LSUHSC-NO shows a 30.5% increase in total headcount enrollment as of the 14th class day during this period. Total FTE has increased 30.8% over the same time frame. Enrollment is at an all time high for our campus.
- There is an increase in headcount between fall 2013 and fall 2012. Headcount and FTE's will grow further with the enrollment of the second Physician Assistant class in January.
- In the past seven years, enrollment as of the 14th Class Day has increased 49.6% for the School of Nursing, and 51.8% for the School of Allied Health Professions.

Metric III – Retention, Graduation, Licensure

- Undergraduate third to fourth year retention (as defined by continuous enrollment) is high; in particular, the Dental Hygiene program has an average retention rate of 99%.
- LSUHSC-NO maintains an excellent pass rates on licensure exams. The available data from the last seven years represents one hundred and twenty-three different exams. Seventy-one (58%) of these exams had a perfect passage rate. Forty-four (36%) of the exams had passage rates between 90% and 99%, and seven (6%) of the exams had passage rates between 80% and 89%.

Metric IV – Effectiveness of Campus Research and Technology

- Total number of PhDs and Postdoctoral Fellows awarded has increased over the seven-year timeframe.
- We continue to place an emphasis on faculty obtaining sponsored research funding.

Metric VI – Revenue Resources

- The LSU Health Foundation averaged approximately \$5.5 million in annual gifts during this period. Fiscal year 2008 and 2013 produced normal results with fiscal year 2007 above normal and fiscal years 2009 through 2012 were below normal. Many of the 2007 funding opportunities were the results of national efforts in helping Katrina related recovery efforts. In addition, when a donor that has been stewarded by the Foundation staff for many years died in 2007, the foundation received the largest estate in its history.
- Revenues from tuition have grown as a result of increases in tuition rates and enrollment growth. These revenues are being used to offset declines in state general fund support.
- Our campus does not have any true freshmen.
- State Appropriations per FTE have declined over 50% due to budget reductions.

Metric VII – Teaching and Research Productivity

- Duplicate Headcount per Organized Section has increased 30%. It should be noted that the low numbers in this area are caused by a number of factors. For example, medical student clerkship sections are extremely small and are often one student per section. Thesis and dissertation work is also one student per section.
- Under “Cost Data”, actual expenditures based on generally accepted accounting principles were used for FY 07 through FY 13 for Instruction and Public Service. Data from the NSF Survey of Research and Development Expenditures was used for FY 07 through FY 12. NSF survey expenditures for FY 13 will not be available until we complete the NSF survey in February 2014.
- FY 14 amounts for Instruction and Public Service are all estimates derived from a budget schedule developed for the Board of Regents in July as part of our FY 14 operating budget presentation.
- Between FY 07 and FY 13, Instruction expenditures increased 18% and Public Service increased 21%. This reflects our recovery from the impact of Hurricane Katrina on our academic programs.
- Research and public service expenditures have increased at the same time as our tenured and tenure track faculty full time equivalent (FTE) numbers have declined. Public Service expenditures Per FTE T/TT Faculty have increased 77%; Research per FTE T/TT Faculty for Research and combined Research and Public Service expenditures per FTE T/TT Faculty will be available once the NSF Research Expenditures survey is completed.

National Benchmarks

- Data is included comparing the performance of our medical students on the USMLE examinations to medical students nationally; our medical school’s rank among medical schools nationally in NIH funding and benchmark data by discipline for faculty salaries.

HSCNO MISSION:

The mission of the Louisiana State University Health Sciences Center in New Orleans (LSUHSC-NO) is to provide education, research and public service through direct patient care and community outreach. LSUHSC-NO comprises the Schools of Allied Health Professions, Dentistry, Graduate Studies, Medicine, Nursing, and Public Health.

	Total number of students enrolled in Allied Health Professions programs	249	220	296	351	385	392	367	378
Nursing CIP Code/s				CIP Code	CIP 2010	Degree			
Nursing				51.1601	51.3801	BSN			
Nursing Administration				51.1602	51.3802	MN			
Nursing-Adult Health & Illness				51.1603	51.3803	MN			
Nurse Anesthesia				51.1604	51.3804	MN			
Primary Care Family Nurse Practitioner				51.1605	51.3805	MN			

HSC New Orleans

Metric II. The following metrics will provide the campus enrollment trends.

Neonatal Nurse Practitioner	51.1606	51.3806	MN
Nursing Science	51.1608	51.3808	DNS
Psyc./Community Health Nursing	51.1610	cancelled	MN
Public & Community Health Nursing	51.1611	51.3811	MN
51.1699 Nursing, other-Nurse Educator	51.1699	51.3817	MN
Nursing Practice	51.3818	51.3818	DNP

Allied Health CIP Code/s

Health Science	51.0000	cancelled	MHS
Audiology	51.0202		Au D
Communications Disorders	51.0204		MCD
Cardiopulmonary Science	51.0901		BS
Occupational Therapy	51.2306		MOT
Physical Therapy	51.2308		DPT
Rehabilitation Services	51.2310	cancelled	BS
Rehabilitation Counseling	51.2310		MHS

Variables Description

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for undergraduate credit.

Headcount Enrollment Undergraduate – Total number of full-time and part-time students enrolled in courses for graduate credit.

Full-Time Equivalent (FTE) – The calculation of FTE can vary by institution. However, FTE enrollment reported for this metric should reconcile to FTE data you report to the Louisiana BoR, SREB and IPEDS for your campus.

Full-Time Student Undergraduate - a student enrolled for 12 or more semester credits or 24 or more contact hours a week each term. (IPEDS)

Dual Enrollment- A student who is enrolled in high school but who is also enrolled, simultaneously, in a postsecondary institution are considered dual enrolled.

Science Technology Engineering and Mathematics (STEM): STEM enrollment is calculated based on STEM CIP codes.

Educations, Nursing, Allied Health - Use the CIP codes as defined by IPEDS for these disciplines to determine the number of students enrolled and graduates in these fields of study.

HSC New Orleans

Metric III. The following metric will identify the campus trends for retention, graduation, licensure and pass rate.

14th Day Headcount Enrollment	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014
Fall Headcount	2,170	2,254	2,434	2,647	2,705	2,777	2,788	2,929
Spring Headcount	2,185	2,319	2,523	2,713	2,794	2,789	2,841	1,029
Fall Credit Hours	42,217	43,248	47,746	49,025	48,068	53,500	53,637	51,060

IV. The following metrics will identify the effectiveness of campus research and technology transfer to benefit the state's economic development.

Research Expenditure by Major Discipline <i>Data shown in Thousands</i>	FY Ending 2012			FY Ending 2013			FY Ending 2014		
	Federal	Other	Total	Federal	Other	Total	Federal	Other	Total
Allied Health	1,203	440	1,643	228	312	540			0
Dentistry	1,223	493	1,716	1,081	226	1,307			0
Medicine	31,058	9,018	40,076	27,592	9,799	37,391			0
Nursing	54	1	55	15	2	17			0
Public Health	7,099	3,123	10,222	7,970	2,218	10,188			0
Total	40,637	13,075	53,712	36,886	12,557	49,443	0	0	0

Research Expenditures (\$ in thousands)	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014
Federal	39,059	41,507	43,865	43,397	46,142	45,581	40,637	36,886	0
Total	52,408	62,167	60,008	59,112	59,776	57,007	53,712	49,443	0

Note that Research Expenditures data should match data your campus reported to NSF. Beginning in 2008, this data should follow the following guidelines.

Track all expenditures back to the original source. For example, if funds come from the State DOTD, but originated with the federal government those expenditures should be reported as federal. There should be a CFDA number attached to these grants indicating that the original source was federal.

Report all clinical trials as research. Please note that not all clinical trials are done by Tenured or Tenured Track (T/TT) faculty (see c).

Compute under-and unreimbursed indirect costs according to the instructions.

Report NIH “k” and other research training awards as federal. Note, Do Not report all training grants, **only those that are for research training.**

HSC New Orleans

V. The following metrics will provide Technology Transfer data.

	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013

State Appropriation per FTE¹	\$70,310	\$71,533	\$59,159	\$46,932	\$51,101	\$34,865	\$36,099
Net Revenue Generated from auxiliary enterprises	\$160,068	\$418,163	\$1,230,377	(\$202,264)	(\$774,841)	(\$323,074)	\$120,999

¹ Per LSU System: State Appropriation includes the Final Approved Budgeted General Fund, Statutory Dedication, and Federal Stimulus (ARRA) of each year. Student FTE is annual FTE reported to Board of Regents. Amount includes money for the Cancer Consortium and Smoking Cessation Programs

* FY 2012-13 is as of 11/30/2012

HSC New Orleans

VI. The following metrics will identify the tuition and fee revenues, and, other revenue resources.

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of of the endowment as of June 30 of the reporting year.

FTE Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported finaicial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

HSC New Orleans

Metric VII. The following metrics will identify teaching and research productivity per FTE faculty.

* Will be reported in December 2014.

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. EXCLUDE expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in *Academe*. If no rate is available, we will use a default value of 28%.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

Research: This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or **separately budgeted** by an organizational unit within the institution. Report total research expenditures only. It is not necessary to disaggregate costs for this category.

Public Service: Report all funds **separately budgeted** specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples include cooperative extension and community outreach projects. Report total service expenditures only. It is not necessary to disaggregate costs for this category.

Federally Funded Research: As defined by NSF

Total Research and Expenditures: As defined by NSF

Louisiana State University Health Sciences Center Shreveport

Executive Summary

Introduction

Louisiana State University Health Sciences Center at Shreveport (LSUHSC-S) programmatic and degree range in the healthcare professions and biomedical sciences enable the state's most talented individuals to become outstanding practitioners, researchers, and educators. The institution's comprehensive primary, specialty, and sub-specialty clinical programs support the educational mission while improving the health and healthcare of Louisiana's population through the delivery of preventive, diagnostic, and treatment services from primary to quaternary levels. Augmenting the delivery of direct patient care is LSUHSC-S's research program, which is committed to biomedical and health-related discoveries and therapeutic innovations that contribute to the body of knowledge and practice in science and medicine.

Metric I: Completions

The number of program completers for the School of Medicine increased gradually from 2007 to 2010 as the entering class size has expanded to 118; however, substantial further increase in class size is limited by financial and physical resource constraints as well as accreditation requirements.

In keeping with national standards, the Physical Therapy program in the School of Allied Health Professions transitioned from masters to doctorate (DPT) in summer 2006. As part of this transition, the program offered a part-time, post-professional track to previous graduates, allowing them to obtain the higher-level DPT degree. As a result, the number of program completers transiently increased, peaking in 2008-09. Although the total number of DPT graduates has gradually decreased since then, the number of full-time, entry-level DPT completers has increased. Similarly, the Physician Assistant program transitioned from bachelor's to master's in summer 2010, and began offering a similar part-time track to previous graduates who desire to earn the higher degree. As these transitions are accomplished, the part-time, post-professional tracks will be phased out, and the number of completers will stabilize at each program's full-time, entry-level capacity. In addition, as a result of the degree level change from bachelor's to master's for the Physician Assistant program, the number of baccalaureate degrees awarded in 2012-13 decreased while the number of master's degrees awarded has increased.

In the School of Graduate Studies, the number of graduates fluctuates annually because the number of students accepted changes from year to year in the five PhD programs. In addition, the length of time to degree completion varies among students and ranges from four to eight years. Because of limited physical and financial resources that are compounded in the current climate of budget reductions for higher education in Louisiana, increases in the number of completers are not projected for the School of Graduate Studies, which relies on competitive stipends to attract and recruit students, until funding recovers.

Metric II: Enrollment

Fall enrollment decreased modestly in 2013 because of the diminishing number of part-time, post-professional track students in the Physical Therapy and the Physician Assistant programs. These programs recently transitioned to higher degree levels and offered a part-time, post-professional track to previous graduates, allowing them to obtain the higher-level degree, which transiently increased enrollment. As these tracks are gradually phased out, enrollment will stabilize at each program's full-time, entry-level capacity. Financial and physical resources are major obstacles, which are compounded in the current climate of budget reductions for higher education in Louisiana, to increasing future enrollment.

Louisiana State University Health Sciences Center Shreveport

Executive Summary

Metric III: Student Success

Acknowledging a special responsibility to Louisiana, the School of Medicine draws its applicants from in-state residents. Despite a smaller applicant pool, often with entry exam scores lower than the national median (school mean MCAT: 28 vs. national mean MCAT: 31), the institution's licensure pass rates are consistently competitive with national pass rates. Students are required to take and pass Step 1 of the United States Medical Licensing Examination (USMLE) prior to graduation from the School of Medicine. The proactive measures taken by the School of Medicine in an effort to increase passage rates of USMLE Step 1 include a plan for identifying and assisting "at-risk" students by directing them to enroll in an intensive study course designed to better prepare them for the Step 1 examination. Students must also take the two components of USMLE Step 2 prior to graduation. Although the School of Medicine does not require that a student pass USMLE Step 2 prior to graduation, it fully recognizes the importance that successful completion of this examination has in the future success of its students. Curricular revision aimed at increasing the quality and breadth of clinical experience provided to students has been made with the intent of further improving the quality of graduating physicians. The third and fourth year curricula have been reviewed and modified to provide students with increased patient contact and faculty interaction. In addition, the incorporation of clinical curricula from the institution's Clinical Skills Center (CSC) has provided an important way in which all medical students receive training in aspects of clinical medicine appropriate for their year and a means by which their performance of clinical skills can be evaluated. These efforts not only serve to improve the overall patient care performance of these future physicians but provide for them an enlarged foundation of clinical knowledge that directly impacts success with USMLE Step 2.

The School of Allied Health Professions has instituted various methods across all programs to increase passage rates on licensure and certification exams and improve workforce foundational skills. These include early identification of students needing remediation, individual student counseling, study groups, practice examinations, clinical practice skill development, and interactive teaching by faculty on clinical rotations.

In the School of Graduate Studies, some departments have developed academic support systems in which senior graduate students tutor first year graduate students who are "at risk" for academic probation. In addition, the Department of Pharmacology, Toxicology and Neuroscience has developed a review/refresher series of on-line tutorials and faculty generated quizzes in biochemistry targeted to students in the summer before their first year of graduate school. Students who completed this series have proven to be more successful in passing their first year biochemistry, which is essential in advancing to the second year of the program; thus, the review/refresher series is now required for incoming students to the program.

Metric IV: Campus Research

The primary areas of research and scholarly activity at LSUHSC-S are cancer, cardiovascular, and neuroscience. Ninety percent of the extramural research funding for the campus for FY 2012-2013 was awarded in these three areas. Health literacy is a unique area of scholarly activity on the campus. Research projects are supported by the National Institutes of Health, the National Science Foundation and the Department of Defense as well as foundations and the pharmaceutical industry.

Louisiana State University Health Sciences Center Shreveport

Executive Summary

In recent years, the Center of Molecular and Tumor Virology at LSUHSC-S, funded through an NIH COBRE grant, has been a key area of research, which includes both basic and clinical science investigations of molecular mechanisms involved in virally-induced pathogenesis. In addition, an NIH funded program project grant on the Role of the Microcirculation in Intestinal Inflammation has also been a major area of research at the institution. Investigators working on this project are studying inflammatory bowel diseases, such as colitis and Crohn's Disease in order to develop better treatments for these debilitating conditions.

Researchers at the LSUHSC-S Feist-Weiller Cancer Center perform investigations into molecular mechanisms of cancer initiation and metastases as well as conduct clinical trials on new cancer treatments. Other areas of basic and clinical research in the neurosciences include Parkinson's Disease, Alzheimer's Disease, other neurodegenerative diseases, Multiple Sclerosis, drug abuse and olfactory processing. Other investigators are studying diabetes, stroke, asthma, rheumatoid arthritis, kidney disease, pulmonary disease, hepatitis, sickle cell disease, preeclampsia, and cystic fibrosis. In addition, LSUHSC-S conducts numerous clinical trials in diabetes, cancer, heart disease, behavioral and cognitive disorders, and inflammatory diseases as well as other conditions.

Metric V: Technology Transfer

As part of its mission, LSUHSC-S supports the region and the state in economic growth and prosperity by utilizing research and knowledge to engage in productive partnerships with the private sector. Ongoing partnerships between LSUHSC-S and several surviving start-up companies are active.

Intellectual property developed at LSUHSC-S has been exclusively licensed to development-stage companies that are working toward the commercialization of these technologies. For example, Requisite Biomedical is developing an intravascular drug delivery device and coatings. These coatings will impact a growing market for peripheral artery disease and should provide a superior healing response compared to products currently on the market and in development. If their commercialization efforts are successful, LSUHSC-S could potentially receive ownership in the company. Dr. Nicholas Goeders, Chair of the Department of Pharmacology, Toxicology, and Neuroscience at LSUHSC-S, was awarded an NIH grant that subcontracts to Embera NeuroTherapeutics to develop new drug combination treatments for smoking cessation and other addictions. The impact of advancing this novel drug combination is that it will target specific brain functions that control stress responses that drive the cravings and relapses associated with addictive disorders. TheraVasc has been granted a license to commercialize several patents that originated at LSUHSC-S. It is a company whose goal is to repurpose drugs for unmet medical needs and, if successful, will most significantly impact the market for treatment of peripheral artery disease. Phase 2 clinical studies in humans are showing an oral formulation of the drug to have a well-established safety profile.

Finally, several established companies have licensed LSUHSC-S developed technologies. For example, Applied Biosystems, Fermentas, TriLink and New England BioLabs have licensed technology developed at LSUHSC-S for the synthesis and use of anti-reverse mRNA cap analogs ARCA. A Shreveport company, Indigeaux Pharmaceuticals, has licensed the LSUHSC-S patent for a chewing gum that slowly releases curcumin to treat upper aerodigestive diseases and head and neck problems.

Metric VI: Revenue Sources

Both State General Fund appropriations and annual giving have decreased due to the state of the economy. Payout from endowment is generated from endowment earnings, which are tied to current interest rates, resulting in variations from year to year. Foundation total assets increased in 2012-13 due to unrealized gains from long-term investments and the addition of endowed funds

Louisiana State University Health Sciences Center Shreveport

Executive Summary

per an agreement between LSUHSC-S and the LSU Health Sciences Foundation for the management and investment of these monies by the Foundation. Revenue generated from tuition and fees increased modestly as a result of tuition increases.

Metric VII: Teaching Productivity

Health science center faculty have equally important responsibilities in areas of patient care, research and scholarly contributions, and education. Because of the broad spectrum of teaching activities (e.g. didactic, clinical, laboratory, small groups, etc.) at academic medical centers and teaching hospitals, teaching productivity of faculty is not easily quantified, and often underestimated. In addition to quantifiable time spent teaching in the classroom, the duty of educators at an academic health science center is to train learners to attain skills identical to their own. Therefore, a significant amount of faculty teaching is done simultaneously with their other duties. Clinical faculty teach varied level of learners (e.g. students, residents, fellows) important aspects of clinical medicine and patient care in the hospital or clinic setting while performing their own clinical duties. Likewise, research scientists train graduate and postdoctoral students as well as some clinical trainees in the research laboratory while performing their own research activities.

Metric VIII: Hospital Statistics

In the first half of 2013, the hospitals of LSUHSC-S began a transition to public-private partnerships designed to support the health science center mission by providing new resources for patient care, education, and research.

LSUHSC-S MISSION:

The primary mission of Louisiana State University Health Sciences Center at Shreveport (LSUHSC-S) is to teach, heal, and discover in order to advance the well-being of the community. LSUHSC-S encompasses the School of Medicine in Shreveport, the School of Graduate Studies in Shreveport, the School of Allied Health Professions in Shreveport, the LSU Hospital, E. A. Conway Medical Center in Monroe, and Huey P. Long Medical Center in Pineville. In implementing its mission, LSUHSC-S is committed to:

- * Educating physicians, basic scientists, residents, fellows, and allied health professionals based on state-of-the-art curricula, methods, and facilities, preparing students for careers in health care service, teaching or research.
- * Providing state-of-the-art clinical care, including a range of tertiary special services, to an enlarging and diverse regional base of patients.
- * Achieving distinction and international recognition for basic science and clinical research programs that contribute to the body of knowledge and practice in science and medicine.
- * Supporting the region and the State in economic growth and prosperity by utilizing research and knowledge to engage in productive partnerships with the private sector.

¹ FTE based on SACS methodology.

² In 2009-10, the Physician Assistant Program transitioned from bachelor's to master's beginning with in summer 2010; therefore, no new bachelor's students will be enrolled after 2008-09.

³ In 2009, the NCA and BOR certifications merged and are now known as the Board of Certification (BOC).

g) Research Expenditures	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013
Federal	13,378	12,922	14,009	14,106	13,890	15,316	13,504	0
Total	27,519	29,070	33,458	31,294	30,817	31,021	29,365	0

Note that Research Expenditures data should match data your campus reported to NSF. Beginning in 2008, this data should follow the following guidelines.

Track all expenditures back to the original source. For example, if funds come from the State DOTD, but originated with the federal government those expenditures should be reported as federal. There should be a CFDA number attached to these grants indicating that the original source was federal.

Report all clinical trials as research. Please note that not all clinical trials are done by Tenured or Tenured Track (T/TT) faculty (see c).

Compute under-and unreimbursed indirect costs according to the instructions.

Report NIH "k" and other research training awards as federal. Note, Do Not report all training grants, **only those that are for research training.**

Louisiana State University Health Sciences Center at Shreveport

Metric V: Technology Transfer

(The following metric will provide technology transfer data.)

	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013
How many Licensing FTEs were employed In your Technology Transfer Office?	0	0	0	0	0	0
How many Other FTEs were employed In your Technology Transfer Office?	1	1	1	1	0	0

¹ Alumni gifts are deposited with the LSUHSC-S Foundation

² LSUHSC-S does not enroll first-time freshmen

³ Due to the complexity and overlap of health science center functions including instruction, patient care, and research, state appropriation specific to student FTE is difficult to determine and provide an accurate value for comparison.

* Per an agreement between LSUHSC-S and the LSUHS Foundation, endowment funds are managed by the Foundation.

Louisiana State University Health Sciences Center at Shreveport
Metric VI: Revenue Sources

Annual Giving data include all contributions actually received during the institution's fiscal year in the form of cash, securities company products, and other property from alumni, non-alumni individuals, corporations, foundations, religious organizations and other groups. Not included in the totals are public funds, earnings on investments held by the institution, and unfulfilled pledges.

Endowment Value equals the market value of of the endowment as of June 30 of the reporting year.

FTE Full time equivalent

Payout from Endowment equal interest earned on endowment.

Gross Revenue Generated from Student Enrollment FTE equals revenue gain from student tuitions and fees.

Net Revenue Generated from Student Enrollment FTE equals gross revenue from enrollment headcount minus institutional supported financial aid.

Net Revenue from Auxiliary equal gross revenue generated from auxiliary enterprises minus debt services and other financial obligations.

Definitions:

Direct Expenditures for Instructions: Total Direct Instructional Expenditures include data in certain functional areas - instruction, research, and public service. Direct expenditure data reflect costs incurred for personnel compensation, supplies, and services used in the conduct of each of these functional areas. They include acquisition costs of capital assets such as equipment and library books to the extent that funds are budgeted for the use of departments for instruction, research, and public service. Similar to the Delaware Study, exclude centrally allocated computing costs and centrally supported computer labs, and graduate student tuition remission and fee waivers.

Instruction: Instruction includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Departmental research and service **which are not separately budgeted** should be included under instruction. In other words, department research which is externally funded should be excluded from instructional expenditures, as should any departmental funds which were expended for the purpose of matching external research funds as part of a contractual or grant obligation. EXCLUDE expenditures for academic administration where the primary function is administration. For example, exclude deans, but include department chairs.)

Disaggregate total direct instructional expenditures for the institution into the following categories:

Salaries: Report all wages paid to support the instructional function in a given department or program during the fiscal year. While these will largely be faculty salaries, be sure to include clerical (e.g., department secretary), professionals (e.g., lab technicians), Graduate student stipends (but not tuition waivers), and any other personnel who support the teaching function and whose salaries and wages are paid **from the institution's instructional budget**.

Benefits: Report expenditures for benefits associated with the personnel for whom salaries and wages were reported on the previous entry. If you cannot separate benefits from salaries, but benefits are included in the salary figure you have entered, indicate "Included in Salaries" in the data field. Some institutions book benefits centrally and do not disaggregate to the department level. If you can compute the appropriate benefit amount for the department/program, please do so and enter the data. If you cannot do so, leave the benefit amount as zero and we will impute a cost factor based upon the current benefit rate for your institution, as published in *Academe*. If no rate is available, we will use a default value of 28%.

Other Than Personnel Costs: This category includes non-personnel items such as travel, supplies and expense, non-capital equipment purchases, etc., that are typically part of an instructional department or program's cost of doing business. *Excluded* from this category are items such as central computing costs, centrally allocated computing labs, graduate student tuition remission and fee waivers, etc.

Research: This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or **separately budgeted** by an organizational unit within the institution. Report total research expenditures only. It is not necessary to disaggregate costs for this category.

Public Service: Report all funds **separately budgeted** specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples include cooperative extension and community outreach projects. Report total service expenditures only. It is not necessary to disaggregate costs for this category.

Federally Funded Research: As defined by NSF

Total Research and Expenditures: As defined by NSF
