**LOUISIANA STATE CHILD DEATH REVIEW**  
September 27, 2016

Attendees: See attached sign in sheets

**Meeting Notes:**

1. Bluff Road Traffic Study Update

The signage along Bluff Road was reviewed and updated after several fatalities in 2012. Another fatal crash in 2015 resulted in the following changes:

- DOTD installed chevrons and road delimiters in the curves
- DOTD is currently working to submit a project to add shoulders, road edge line rumble strips, center line rumble strips, and raised reflectorized pavement markers.

2. Child Death Investigation Protocol

It was recommended that State Child Death Review submit a request for an opinion on the recommendations from the Attorney General. Chief Lentz recommended we submit these recommendations to Post Council to be included in future required death scene investigation trainings. Sandra Adams recommended that State Child Death Review submit a Notice of Intent for the Protocol so that, if adopted, additional weight will be added to the recommendations.

3. Motor Vehicle Crash and Fatality Data Review

Lydia Plante and Norah Friar presented on motor vehicle crash and fatality data. It was recommended that the datasets be reviewed to determine if the rates on deaths that occur in an accident with a drunk driver, or if the driver has to be in the car with the deceased child. Members requested we review cases involving older children during next year's motor vehicle case review meeting.

4. Partner Updates

- Chief Lentz reported that 70 people have walked in for treatment for Operation Angel services in Region 9
- Coroners' Collaborative Meeting is slated for Feb 10-11 in Lafayette
