#### **ADMINISTRATIVE REVIEW:**

##### **1. Executive Director Update**

Jolie Jones provided the board with the following updates: LBESPA board member nomination process has begun; postcards announcing nominations process are being re-mailed due to a printing error; email announcing nominations process will be resent immediately to all licensees since board members reported not receiving the message, the Cash Management Report has been submitted; new auditor selected by state office with audit process to be initiated in near future; Tracy Jeanmarie is now full time with the Louisiana Board of Examiners in Dietetics and Nutrition.

##### **2. LBESPA Processing**

The Board reviewed various numbers for the period of June 1 through July 31. The summary is as follows: initial applications – 75, upgrade requests – 66, 108 applications approved, 1 application denied, 76 upgrades approved, board member requests for additional information – 5. Online renewals total 2,233 and an additional 499 were renewed in the board office. There have been 70 audits completed and one complaint was received.

##### **3. Letter to Universities Regarding Scope of Practice**

Board members agreed that a letter should be sent after the start of the fall semester to university communication disorders programs promoting the board's availability to present to students and faculty. The letter should include information regarding the revised Practice Act, audiology and speech-language pathology scopes of practice, updated information on telepractice, and the current rules promulgation process.

**4. Medically Involved Practitioner**

Jolie Jones discussed with board members concerns as to whether the Rules and Regulations sufficiently protect the consumer by addressing Speech-Language Pathologists and/or Audiologists who may have communication, swallowing or hearing disorders. Board members feel that the Rules adequately encompass this issue including Rule 701 E.1. k. Individuals whose professional services are adversely affected by substance abuse or other health-related conditions shall seek professional assistance and, where appropriate, withdraw from the affected areas of practice.

**5. Discussion Regarding Social Media and Consumer Outreach**

A proposal submitted by Jaci Russo was reviewed by board members. The board is interested in discussing an alternative scope of services at a lower rate with Ms. Russo.

Rates for various static and electronic billboard locations quoted by Lamar Advertising were also reviewed.

**6. Supervising Family Members**

This issue will be addressed on the next rules work day.

**7. Opting Out of Hearing Aid Dispensing**

An affidavit will be included on the Continuing Education Report Form during future renewal processes allowing audiologists to verify that they have not engaged in hearing aid dispensing during the renewal period and, therefore, continuing education hours in the area of dispensing will not be required to be submitted by Audiologists who choose to opt out of hearing aid dispensing. The board will consider drafting a regulation to clarify this during the next work day.

**8. Reporting of Clinical Practicum Hours by Universities**

Universities must provide an appropriate summary of the clock hours obtained through their university program and must not attempt to verify clock hours obtained at other universities as the Board must have primary source verification in order to process applications and upgrades. The Board determined that this should be reiterated to the clinic director at universities not abiding by this requirement.

**9. Continuing Education Submitted during the Renewal Period but after CE Reporting Period**

Any hours completed after June 30 may only be utilized for renewal for the previous July 1 – June 30 period if an extension has been granted by the Board. This includes hours from the July 2017 ASHA Connect Conference in New Orleans; and if an extension for continuing education hours has been approved, under no circumstance may hours from one event (i.e., 2017 ASHA Connect) be utilized for more than one renewal period. In the absence of an

approved extension, these continuing education hours may only be utilized for June 2018 renewal.

#### **10. Review of LBESPA Office Policy Manual**

Board members will submit topics for revision, deletion and addition to the Board Chair prior to the next Rules workday.

#### **11. Rules Workday**

A list of proposed rules as well as prioritized topics was provided to the board. A work day is scheduled for August 26.

#### **12. Diagnosis of Autism Spectrum Disorder by a Speech-Language Pathologist**

Theresa Rodgers was asked to answer the question as to whether the board allowed diagnosis of autism by a speech-language pathologist. The Board does not prohibit the diagnosis of Autism Spectrum Disorder (ASD) by a licensed speech-language pathologist. It is essential to state that this can only occur if the speech-language pathologist has the proper education, training, experience, and competency.

Chapter 7 of the Code of Ethics in the Board's *Rules and Regulations*, Rule 701.E. 2. Principle of Ethics II., as well as Principle of Ethics II. a. and e. specifically apply.

LBESPA does not govern nor dictate practices established by the Louisiana Department of Education. However, it is worth noting that *Bulletin 1508-Pupil Appraisal Handbook* mandates that speech-language assessments be conducted by licensed speech-language pathologists. For children with the exceptionality of "Autism", the speech-language assessment must be "conducted by a speech/language pathologist trained and experienced in the evaluation of children with developmental disabilities" (p. 12). Additionally, *Bulletin 1508* (as well as the Individuals with Disabilities Education Act) requires a multidisciplinary team evaluation. Therefore, if a speech-language pathologist functioned as the sole evaluator for an autism diagnosis, while the evaluation may be suitable in a private practice setting for example, it would not be compliant with Louisiana *Bulletin 1508*.

LBESPA is a state agency with powers established by the Louisiana Legislature and is independent of the American Speech-Language-Hearing Association (ASHA). Nonetheless, useful information relative to the speech-language pathologist's diagnosis of ASD can be found on ASHA's Practice Portal.

## **CORRESPONDENCE:**

### **1. Letter dated March 31, 2017 from ASHA Regarding Provider Compliance and Productivity**

ASHA Continuing Education notified the board that a compliance review would occur in 2018 and LBESPA may need to evaluate cost-effectiveness of continuing to be an ASHA-approved CEU provider if it does not offer any events. A LBESPA member has been asked to present at an upcoming association meeting and ASHA CEU sponsorship may be considered for this training.

### **Louisiana Speech-Language-Hearing Association (LSHA)**

#### **2. Correspondence from LSHA re: accounting of continuing education sponsorship funds used and request to apply remainder to a LSHA Working Lunch**

Consistent with LBESPA policy, the Board is requesting detailed accounting of the speaker expenses for 2017.

**Motion** was made by Tammy Crawford, seconded by Deanna Hardy and unanimously carried, to deny LSHA's request to sponsor luncheon speakers in the northern and southern regions of the state since this workshop format is not consistent with LBESPA policy for continuing education sponsorship.

**Motion** was made by Daphne Washington, seconded by Tammy Crawford and unanimously carried, to adjourn the meeting at 4:35 p.m.
