

Tableau Creator Study Group Guide

Why should you form a study group?

+ Study Group benefits include:

- Accountability
- Proven to learn skills faster
- Learn new perspectives
- Practice for the “real world”

Source:

- [Angels Institute - Benefits of Group Study](#)
- [SpeedyPrep - 7 Benefits of Study Groups](#)

Study Group Format Best Practices

+ Required Materials:

- [Tableau Starter Kits](#)
- [Tableau Data Literacy eLearning](#)
- [Tableau Blueprint Assessment](#)
- **BOOKMARK THESE LINKS FOR EASY ACCESS!**
- Tableau Desktop Key

+ Meeting Agenda

- Keep each meeting to 1-2 hours
- Be cognizant that this is *in addition* to participants completing each week's **Online** content on their own during the week
- Use the time to work through questions related to that week's content

+ Recommended time: 12 weeks

+ Group size of 5-10

- Stick to a small/medium sized group so that all members can contribute
- Use Teams to communicate between study sessions - send questions and screenshots

Syllabus

- Section 1: Orient Yourself
- Section 2: Visual Analytics
- Section 3: Work with Data
- Section 4: Building Vizzes
- Section 5: Dashboards
- Section 6: Calculations
- Section 7: Get Hands On
- Section 8: Go Deeper
- Section 9: Data Literacy
- Section 10: Blueprint

Section 1: Orient Yourself

- | | |
|-----|---|
| 1.1 | Getting Started |
| 1.2 | Create an account on Tableau.com |
| 1.3 | Join the Tableau Newbie Group in the community |
| 1.4 | Explore the Tableau Public Viz of the Day Gallery |
| 1.5 | Explore Tableau Use Cases with Customer Stories |
| 1.6 | Download Tableau Desktop |
| 1.7 | The Tableau Workspace |
| 1.8 | Follow the Get Started Tutorial |

Section 2: Visual Analytics

- 2.1 [Hans Rosling's TED Talk](#)
- 2.2 [Get Inspired with an Iron Viz Champion Dashboard](#)
- 2.3 [Visual Best Practices](#)
- 2.4 [Visual Analytics Best Practices](#)
- 2.5 [Which Chart or Graph is Right for You](#)
- 2.6 [Why the Time-Tested Science of Data Visualization Is So Powerful](#)

Section 3: Work with Data

- | | |
|-----|--|
| 3.1 | Open Tableau and Connect to Data |
| 3.2 | Getting Started with Data |
| 3.3 | Try a Makeover Monday |
| 3.4 | Preparing Excel Files for Analysis |
| 3.5 | Managing Metadata |
| 3.6 | Integrate your Data |
| 3.7 | How to Dive Deeper into Your Survey Data |
| 3.8 | Find a fun data set from Wikipedia |

Section 4: Building Vizzes (Week 1)

4.1	The Basics
4.2	Understanding Pill Types
4.3	Drill Down and Hierarchies
4.4	Sorting
4.5	Grouping
4.6	Interactive Filters
4.7	Ask a question at a Live Online Training
4.8	Tooltips
4.9	Combination Charts

Section 4: Building Vizzes (Week 2)

4.10	Filtering
4.11	Measure Names and Measure Values Explained
4.12	Maps in Tableau
4.13	Bullet Graphs
4.14	Create Sets for Top N and Others
4.15	Visualizing Time: Beyond the Line Chart
4.16	If You Must Use Text Tables Follow These 5 Design Tips
4.17	Aggregation, Granularity, and Ratio Calculations
4.18	Creating Filled Maps with Pie Charts
4.19	Explore the Community Workbook Library

Section 5: Dashboards

- | | |
|-----|---|
| 5.1 | Building a Dashboard |
| 5.2 | Best Practices for Effective Dashboards |
| 5.3 | Actions |
| 5.4 | Dashboard Interactivity Using Actions |
| 5.5 | Adding a Logo to a Dashboard |
| 5.6 | How to Use Custom Shapes as Filters on Your Dashboard |
| 5.7 | Dashboards that Persuade, Inform, and Engage |
| 5.8 | 6 Tips to Make Your Dashboards More Performant |

Section 6: Calculations

- | | |
|-----|---|
| 6.1 | Getting Started with Calculations |
| 6.2 | A Handy Guide to Choosing the Right Calculation for Your Question |
| 6.3 | Explore the Calculation Reference Library |
| 6.4 | Using a Parameter to Change Fields |
| 6.5 | Modifying Table Calculations |
| 6.6 | Resolving Aggregation Calculation Error |
| 6.7 | Top 15 LOD Expressions |

Section 7: Get Hands On

-
- 7.1 Attend a Tableau User Group
 - 7.2 Attend a Tableau Classroom Training
 - 7.3 Attend a Tableau Webinar
 - 7.4 Try a Build it Yourself exercise
 - 7.5 Are You as Tableau-Smart as a Tableau Consultant?
-

Section 8: Go Deeper

- | | |
|-----|--|
| 8.1 | Create Views for Market Basket Analysis |
| 8.2 | How to Visualize Sentiment and Inclination |
| 8.3 | When to Blend and When to Join |
| 8.4 | Designing Great Visualizations |
| 8.5 | 8 Great Books about Data Visualisation |
| 8.6 | 5 Lesser-Known Books on Data Visualization |
| 8.7 | Applying Graphic Design Principles to Create Killer Dashboards |
| 8.8 | LODs of Fun with Jedi Filters |

Section 9: Data Literacy

Use the free [Data Literacy for All eLearning](#) for this module (must be logged in to Tableau.com)

9.1	Intro to Data Literacy
9.2	Recognizing Well-Structured Data
9.3	Exploring Variables and Field Types
9.4	Exploring Aggregation and Granularity
9.5	Understanding Distributions
9.6	Understanding Variation for Wise Comparisons
9.7	Using Correlation & Regression to Examine Relationships
