NEW BUSINESS

Mrs. Tina Peltier brought forth before the commission several changes to Title 3 of the Horticulture Regulations. After a brief discussion, the members accepted the changes and requested to move forward with adoption.

Director's Report:

Staffing Updates: On 11/13/23, Bobbee Jones joined our Horticulture staff as an Administrative Assistant 3. She is tasked with handling the nursery stock dealer, cut flower dealer and apiary permits along with nursery grower certificates. We currently have one vacancy which is the position that handles the LDAF main phone lines and collection of fee payments for AES.

Macy Vizer, an inspector in the Baton Rouge district was promoted to Supervisor in September. Bryan Bridges, Alexandria District Manager, retired on January 22, 2024, after 32 years of service to LDAF. Daniel McFarland, the district supervisor, is currently performing the manager's duties until a replacement is found. Lyndon Leonards, Baton Rouge District Manager, accepted a promotion in February. He is now the Administrative Program Coordinator for Pesticide Registration. Macy is performing the manger duties until a replacement can be found.

LDAF will be hosting the Horticulture Inspection Society-Southern Chapter annual meeting at the end of September in Lafayette. The Southern Chapter consists of state employees from the 14 states that are members of the Southern Plant Board. Approximately 45-50 inspectors from these states will be in attendance.

P. ramorum update: The fall compliance inspection was performed at the positive P. ramorum nursery in north Louisiana on October 27, 2023. A total of 319 tissue samples and 8 water baiting samples were taken during the inspection. There were 17 ELISA positive tissue samples and 4 ELISA positive water baiting samples. All samples were reported negative for P. ramorum by Michigan State University. A fall inspection was also performed at the positive retail location located in Baton Rouge on November 7th. No samples were taken.

Beekeeping grant: The five schools participating in the Beekeeping Apprenticeship program had a difficult summer due to the heat and drought. Many of the bees did not survive. Mark is working on the final budget and there should be some funds left to purchase additional bees for the schools. The grant will end in September of 2024.

CAPS: The National CAPS Committee annual meeting was held the last week of January at the LDAF main headquarters in Baton Rouge. There were approximately 23 attendees at the two-day meeting. SPRO, SPHD, and state survey coordinator representatives from the southern, central, western, and eastern plant board regions were in attendance as well as PPQ employees. The purpose of this 2-day meeting is to bring together National CAPS Committee (NCC) members, share program information and updates, revisiting what makes a priority pest and strategies to maintain the priority pest list, and to make program decisions accordingly. The meeting ended with a tour at the Burden Garden Center on Essen Lane.

The Solanaceous, Citrus Commodity, Sudden Oak Death and Forest Pests surveys will be performed again in 2024.
