a. Draft of HOPE 2023 End of Year Report: Dr. Hussey gave an overview of the HOPE Report. Some highlights include:

While nationally, the number and percent change of drug overdose deaths increased, when compared to the previous year, as noted, Louisiana overdose deaths actually declined in calendar year 2022. The total number of opioid pain medication prescriptions also declined in calendar year 2022, as did the number of emergency department and hospital days.

Nell Wilson of Office of Public Health (OPH) sent updated information on the data to reflect there was an increase in both the national data and the Louisiana data for opioid deaths.

Reviewed recommendations:
