RE: PERMIT NO. OL2019-00153 (EXTENSION)  
TO PERFORM MAINTENANCE OF SEWER GAVITY LINE  
AND PERFORMANCE MANHOLE WORK WITHIN ORLEANS  
PARISH WITHIN 1500 FEET OF THE MISSISSIPPI RIVER  
LEVEE AT NEW ORLEANS, LOISIAN IN ORLEANS PARISH

Dear Ms. Nolan:

As per your November 3, 2023 email request for an extension for the above permit, the Flood Protection Authority on behalf of the Orleans Levee District grants an extension from November 19, 2023 to November 19, 2024 with no change in scope of work for the above referenced permit. This extension is granted provided that all terms and conditions of the referenced permit (dated November 19, 2019) and all provisions of the letter of no objection from the U. S. Army Corps of Engineers dated October 24, 2019 (LNO #2019-0574); Coastal Protection and Restoration Authority letter of no objection dated October 10, 2019 (LNO #18277) are strictly adhered to; which letters are attached and made a part hereof.

Sincerely,

  
Christopher G. Humphreys, P. E.  
Director of Engineering

Hey Chris and Debrorah,

We would like to seek an extension of the referenced Levee Safety Permit for the sewer rehab work near the levee in the Carrollton Basin. Although we have made some progress on this work in the last year, we still have sewer rehab work remaining in this area. I have attached updated tables and maps showing the remaining sewer rehab work required in the permitted area. Please let us know if there is any other information or documentation required to have this permit extended. We appreciate your help and consideration on this matter.

Thanks,

**Sparkle Noble** PE (LA)

## Project Details

---

### Project Name & Location

**Project name or title:** Carrollton Basin Sewer Rehabilitation

**Name of levee system (if known):** MR&T

**Latitude:** 29.933858

**Longitude:** -90.133622

**Levee Station (if known):**

**Offset:**

**Levee Location Type:** Protected Side

**Section:**

**Township:**

**Range:**

### Project Description

**Nature of Activity (Project description, include all features):** This project contains maintenance of sewer gravity line and manhole work within Orleans Parish, Louisiana. All work proposed is on existing sewer lines. All proposed work is located on the protected side of the Hurricane Protection System. The majority of the work is in the roadway or sidewalk areas. this is a closed sanitary sewer system and no drainage features are being constructed, repaired, or modified in any way.

**Project Purpose (Describe the reason or purpose of the project):** This project is needed to be completed by the Sewerage and Water Board of New Orleans to comply with a Consent Decree - Civil Action No. 93-3212 (Reference DOJ Case No. 90-5-1-1-4032). Some of the work included in this contract is authorized rehabilitation work by FEMA. The project is needed to repair defects in the existing gravity sewer collection system.

**Is any portion of this work already complete?** No

**Is this a renewal or extension of a previous permit?** No

**Application Type:** Government

**Insurance:** Yes

## Signature(s)

---

Application is hereby made for permit or permits to authorize the work described in this application. I certify and this information is complete and accurate. I further certify that I possess the authority to undertake the work described herein or am acting as the duly authorized agent of the applicant.

**Agent Submission Signature Date:** 9/18/2019

In consideration of the referenced request, the Southeast Louisiana Flood Protection Authority – East (SLFPA-E), on behalf of the Orleans Levee District, does hereby grant permission to Stantec Consulting on behalf of Sewerage & Water Board of New Orleans (“Permittee”) to perform maintenance of sewer gravity line and perform manhole work within Orleans Parish within 1500 feet of the Mississippi River levee at New Orleans, Louisiana, in Orleans Parish.

1. A copy of this Levee Safety Permit, along with a set of approved plans shall be kept on the job site for the duration of the Work and made readily available for any inspector to determine that the Work taking place has been permitted by the Southeast Louisiana Flood Protection Authority –East (SLFPA-E), and is being conducted in accordance with approved plans. Failure to do so may result in the revocation of the Levee Safety Permit (“the Permit) or construction delays. The Levee District has the option to reserve its rights to inspect area prior to construction.
2. All work is performed in strict accordance with the provisions set forth in the CPRA’s Letter of No Objection #18277 dated October 10, 2019 and the USACE Letter of No Objection #Revised 2019-0574 dated October 24, 2019 attached and made a part hereof.
3. Multiple contractors will be responsible for distinct portions of work, and a signed Hold Harmless form from each contractor is required. Stantec’s license engineer and project manager will be responsible for providing each Hold Harmless form signed by the contractor as each contract is awarded.
4. No work or related activity shall be conducted within the levee district right-of- way.
5. Should changes in the location or section of the existing levee and/or river, or in the generally prevailing conditions in the vicinity, be required in the future in the public interest, the applicant shall make changes in the project concerned or in the arrangement thereof, as may be necessary to satisfactorily meet the situation and shall bear the cost thereof.
6. This Permit does NOT obviate the Permittee and Contractor from obtaining permits required from any federal, state, and local authorities, or the U.S. Army Corps of Engineers, the State Land Office, the Louisiana Department of Transportation and Development, and/or the Louisiana Department of Natural Resources-Coastal Management Division. Permittee and Contractors are responsible for obtaining all such permits and adhering to their provisions. The SLFPA-E is not responsible for insuring that the Permittee or its Contractor complies with rules, regulations or laws imposed by other governmental entities/agencies in regard to requirements for permitted activities, and does not enforce permits or regulations required by any of those entities. The Permittee is to provide copies of all city, state and federal permits

to the SLFPA-E prior to commencing work.

7. The SLFPA-E will not interpret or provide comments on any local laws, zoning or ordinances concerning property rights, operations, or any other activities governed by any Permit that is not a SLFPA-E Permit.
8. The permission granted under this Permit is being granted to the Permittee and is not transferable to any other person, company or agency.
9. This Permit does not constitute an approval of the engineering design or any opinion as to the feasibility of the Work.
10. The Work shall be constructed in accordance with the submitted details set forth in the Levee Safety Permit Application dated September 18, 2019 by the Permittee, the drawings and specifications accompanying the application, and all other provisions contained herein. This Permit shall automatically expire if construction of the permitted facility has not started within six (6) months of the date of the Permit.
11. Any changes to the limits or scope of the proposed Work must be submitted to SLFPA-E for additional review prior to commencement of work covered by the proposed changes.
12. Construction activities shall be completed within one year of the Permitting Officer's dated signature of this Levee Safety Permit.
13. The Permittee agrees to hold harmless, indemnify, and defend the SLFPA-E and its levee districts, its staff, Commissioners and agents against any and all damages which arise from the activities of the Permittee, or the Permittee's contractors, tenants and or lessees. Additionally, the Permittee, and all contractors and subcontractors employed to complete the Work must provide a completed SLFPA-E hold harmless agreement (attached with application) signed by a legally authorized representative of each contractor and subcontractor. The hold harmless agreement must be signed, sealed and dated by a Notary Public. An original copy of the signed and authorized hold harmless agreement must be delivered to SLFPA-E at the below address. An original proof of authority to sign the hold harmless agreement (such as a copy of a corporate resolution) must also be provided. Contractors and subcontractors that do not comply with this requirement shall not be allowed access to the levee right-of-way.
14. In addition to any other provisions provided herein, Permittee specifically assumes any and all responsibility for property damage to the SLFPAE or any of its levee districts' property, and to personal injury to the any of its officers, agents, servants or employees caused by, resulting from, arising out of or connected with the use of the Premises and/or any buildings and improvements thereon or caused by the activities of Permittee and/or its invitees and/or licensees on the subject property.
15. All contractors and subcontractors employed to complete work in the Right of Way shall provide certificates of insurance as proof of compliance with the SLFPA-E Levee Safety Permit Insurance Requirements, attached and made a part hereof. Contractors that do not comply with this requirement shall not be allowed access to the levee right-of-way. The

following shall be named as certificate holders and the additional insured on general liability, automobile liability, aviation liability and marine insurance:

Southeast Louisiana Flood Protection Authority – East  
6920 Franklin Avenue  
New Orleans, LA 70122

Failure to provide the appropriate certificates of insurance may result in a revocation of the Permit and/or construction delays.

16. The SLFPA-E permit office shall be given notice in writing at least 3 days (excluding weekends and holidays) prior to commencement of any work, and at the end of activities so that appropriate inspections can be made. The Permittee, contractor, or an authorized representative may send notification via email. However, the entity providing notification is responsible for verifying receipt of notification.
17. The Permittee shall provide the SLFPA-E with photographs of the completed work, which must show the relationship of the work and its relative location to the flood control structure making this Permit necessary.
18. The proposed Work shall not restrict the Levee District's maintenance operations, or any potential flood fighting activities along the levee, nor shall it obstruct or impede drainage, or create areas of standing water on the levee, along the levee toe, or in the levee batture.
19. No equipment, vehicles or materials of any kind may be parked or stored on the levee or its slopes without prior approval from the Levee District.
20. An "after-the-fact" Permit request will be reviewed as though no work had been initiated and any work found not to be acceptable for permitting shall be removed at the Permittee's expense. The Permittee is responsible for maintaining the existing level of flood protection at all times, and shall employ and maintain at the project site suitable erosion protection measures to the satisfaction of the Levee District.
21. The contractor shall preserve and protect all levee monuments and shall install a sleeve and cap at each monument locations to allow access to the monument through the asphalt pavement.
22. Any structural facilities constructed at the flood side of the levee and/or floodwall will be anchored sufficiently so as to resist flotation, collapse or lateral movement in the event of flooding or inundation. Alternatively in lieu of the above-referenced anchorage of installations and facilities they must be capable of immediate removal from the floodway upon request of the U.S. Army Corps of Engineers or the SLFPAE.
23. All materials associated with the proposed Work must be removed from the area upon completion of the project and the area must be returned to its original state of existence or better.

24. Any damage done to the levee, floodwall or other flood control structure, revetment, or surrounding project area, resulting from the proposed Work shall be repaired or replaced by Permittee at the Permittee's expense and to the satisfaction of the Levee District.
25. The Permittee shall provide a set of As-Built Plans to the Southeast Louisiana Flood Protection Authority - East upon completion of the Work.
26. If for any reason the Permittee ceases to maintain operations, the APPLICANT/OWNER must obtain a modification of this Permit, which may require that any or all structures and materials in the area of operation be removed at the Permittee's expense.
27. The SLFPA-E may revoke this Levee Safety Permit if it determines that the provisions contained in this permit are not being met, or if the permitted activity damages the levee system infrastructure.
28. It is further hereby expressly agreed that the obligations of the Permittee under this Permit shall survive the expiration and/or termination of this Permit.
29. FOR CAMPS - Permittee understands that the SLFPA-E, the COE and/or their contractors may need access to the area to perform maintenance. Permittee also understands that because of the maintenance it may not have direct access to the site and may have to temporarily use an alternative route to access its property.

# State of Louisiana

JOHN BEL EDWARDS  
GOVERNOR

Orleans Levee District  
6920 Franklin Avenue  
New Orleans, LA 70122  
Attention: Mr. Chris Humphreys

## PERMIT REQUEST FORM OF NO OBJECTION

This Letter of No Objection is not a regulatory permit and does not authorize the implementation of any project without documented approval from all appropriate regulatory authorities.

**Permit Applicant:** Sewage and Water Board of New Orleans

**Date of Request:** 09-18-2019

**Agent:** Stantec Consulting Services, Inc.

**Applicant's Request:** Approval to perform repairs to defective sections of gravity sewer pipe and to replace defective sewer services laterals by means of excavation. Service laterals are replaced to the property line. Most of the sewer lines are in the street or sidewalk area. The closest excavation to the levee will measure 227-feet long by 4-feet wide by 8-feet deep and will be located approximately 248-feet from the levee centerline and 195-feet from the levee toe.

Request received by email on 9-19-2019  
SLFPA-East Permit No. OL2019-00153

**Project Location:** All work will take place on the protected side and floodside of the left descending Mississippi River Levee, New Orleans, Orleans Parish, Louisiana.

Project Coordinates (closest to levee): ..... 29° 55' 16.492" , -90° 08' 04.174"

The above referenced request has been examined by Coastal Protection and Restoration Authority, and no objection is proffered for this request, provided:

1. This Letter of No Objection is only for stated work within or in the vicinity of the Levee District right-of-way, and must be accomplished in accordance with the details set forth in the applicant's request and the conditions contained herein. Any changes to the limits or scope of the proposed work must be submitted for additional review. The Levee District must be contacted in writing prior to commencement and at the end of activities. The applicant is responsible for obtaining and providing copies of any permits or lease agreements necessary from the U.S. Army Corps of Engineers, the U.S. Coast Guard, the Louisiana State Land Office, the Louisiana Department of Transportation and Development, the Louisiana Department of Natural Resources - Office of Coastal Management, the Louisiana Department of Wildlife and Fisheries, the Parish Government and/or any other applicable agencies, as well as documented approval from the area landowner(s) prior to the initiation of the work. The applicant is responsible for adhering to the provisions of any existing permits. The proposed work must not restrict the Levee District's maintenance operations, or any potential flood fight activities at the levee, nor shall it obstruct or impede drainage, or create areas of standing water on the levee batture. The applicant must employ and maintain suitable erosion protection measures at the project site to the satisfaction of the Levee District. The applicant or owner must immediately notify the Levee District of any seepage or sand boils that occur during high water conditions. All materials associated with the proposed work must be removed from the area upon completion of the project and the area must be returned to its original state of existence or better. Any damage done to the levee, floodwall or other flood control structure, revetment, or surrounding project area, resulting from the proposed work must be repaired or replaced by the applicant. Should any change in the location of the existing levee, river, floodwall, drainage

canal, waterway, or generally prevailing conditions in the vicinity, or should any changes in the area be required in the future, in the public interest, the applicant shall make such changes in the project as necessary. Any required changes or repairs shall be at the applicant expense. This letter of no objection is offered with no opinion or approval of the design or engineering feasibility of the work.

Failure to abide by the conditions and requirements set forth in this Letter of No Objection may constitute non-compliance with the State of Louisiana comprehensive master coastal protection plan and may subject the levee district and/or the applicant/agent to any and all procedures and actions by CPRA or the CPRA Board pursuant to La. R.S. 49:214.5.2(A)(6) and as may be necessary to ensure compliance with such comprehensive master coastal protection plan.

2. That the proposed activities occur and are completed prior to or after high water stages or hurricane conditions such that no operations are conducted at saturated levee systems. Authorization for work periods will be determined at the discretion of the levee district.
3. That all subsurface work is performed and backfilled prior to the Mississippi River attaining or exceeding + 11.0 feet NGVD, on the Carrollton Gage at New Orleans, unless the applicant receives documented approval to the contrary from the U.S. Army Corps of Engineers-New Orleans District.
4. That no equipment, vehicles, or materials of any kind are parked or stored on the levee or on its slopes without prior approval from the levee district.
5. That no excavation is allowed within 15-feet of the protected side levee toe or 40-feet from the floodside levee toe.
6. Open trenches parallel to the levee which are three feet deep and greater are limited to 50 feet of excavation open at one time.
7. All excavations must meet OSHA Standards
8. For braced excavations within or near the levee section, the applicant shall furnish the geotechnical parameters necessary for design and the means and methods to be used to perform excavation(s). If engineering design is required, the applicant shall furnish plans and specifications for the excavation(s) certified by a professional engineer registered in the State of Louisiana. All necessary documentation shall be furnished to CPRA, USACE, and the levee district.
9. That excavated areas are backfilled as expeditiously as possible using clay material whose composition and density equals or exceeds that of areas adjacent to, and along the perimeter of the excavation boundary, or with native material.
10. That the applicant contact the Department of Transportation & Development Office and obtain any permits that may be required for any operations, work or construction occurring within or adjacent to U.S. or Louisiana Highway Right-of-Way. The applicant must adhere to any DOTD District Office requirements imposed for vehicle ramp intersection with the Louisiana Highway right-of-way, as well as for traffic control and safety needs. The appropriate Highway Right-of-Way Permit Contact can be found at the following link:

[http://wwwsp.dotd.la.gov/Inside\\_LaDOTD/Divisions/Engineering/Road\\_Design/Right-of-Way/Pages/Contacts.aspx](http://wwwsp.dotd.la.gov/Inside_LaDOTD/Divisions/Engineering/Road_Design/Right-of-Way/Pages/Contacts.aspx)

2019-10-10

Page 3

11. That the ground surface is properly swaled or contoured to drain to subsurface drainage areas and away from the flood control structure.
12. That the applicant is responsible for maintaining the existing level of flood protection at all times to the satisfaction of the levee district.
13. That the work will not damage the floodwall, floodgate, or levee and must not obstruct the operation of these structures.

Yours very truly,

for Ignacio Harrouch, Operations Division Chief  
Coastal Protection and Restoration Authority of Louisiana

**From:** Cefolia, Madeline M CIV (US) <Madeline.M.Cefolia@usace.army.mil>  
**Sent:** Thursday, October 24, 2019 9:12 AM  
**To:** CPRArequest@la.gov; rspooner@swbno.org; Nolan, Susan; Chris Humphreys; Ryan Foster; Deborah Abu Naser  
**Subject:** Letter of No Objection for Stantec Consulting on behalf of Sewerage & Water Board of New Orleans 2019-0574  
**Attachments:** E2019-0574.pdf

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Morning,

Please disregard previous Letter of No Objection and take this as our revised and final copy.

All,

We have received a copy of the attached application from Stantec Consulting on behalf of Sewerage & Water Board of New Orleans, dated 19 July, 2019, concerning permission for a permit to perform maintenance of sewer gravity line and perform manhole work within Orleans Parish within 1500 feet of the Mississippi River levee at New Orleans, Louisiana, in Orleans Parish.(P20190750)(OL2019-00153)

Please take this email as our LNO for the project.

We have no objection provided:

- a. The work is accomplished in accordance with the above referenced application and accompanying drawings.
- b. All excavation work within 400 feet of the Mississippi River levee is performed, completed, and backfilled while the stage of the Mississippi River is below +11.0 feet on the Carrollton Gage, at New Orleans, Louisiana. Information concerning current river stages may be obtained on our website at [www.mvn.usace.army.mil](http://www.mvn.usace.army.mil).
- c. All excavation work more than 400 feet from the Mississippi River levee is performed, completed, and backfilled while the stage of the Mississippi River is below +15.0 feet on the Carrollton Gage, at New Orleans, Louisiana.
- d. Excavations are backfilled with an impermeable material such as clay (not sand). Permeable materials can only be used as bedding material and must be grouted.
- e. A grout curtain is required for the 6 inch compacted sand base around the pipes every 400 feet for the entire length of the pipeline. Only excavations that are within 400 ft of the levee toe need to have a grout curtain or clay plug to prevent seepage through the bedding material. Any excavations within this zone that exceed 400 ft in length, whether excavations are performed continuous or in stages, will require the grout curtain or clay plug every 400 ft. The thickness of the curtain/plug is should be between 5 to 8 ft. At the repair points where the pipes are not replaced no curtain is needed. The grout shall meet the following criteria: The slurry shall consist of one part cement, two parts bentonite, and six parts sand mixed with enough water to produce a slurry viscous enough to thoroughly fill the voids. The resulting slurry shall have no less than 12 pounds of solids per gallon.
- f. Notice is given to the Orleans Levee District prior to the start of any work covered in this proposal.
- g. Any damage to the levee or floodwalls resulting from the applicant's activities is repaired at the applicant's expense.

h. The applicant must provide written notification to this office of the construction timeline to include the proposed start and end dates. Additionally, the applicant must notify this office prior to commencement and upon completion of the work permitted herein.

This letter of no objection is based upon engineering criteria and potential impacts to the flood risk reduction system only, and no interpretation or comments regarding local drainage or traffic issues, local laws, zoning, or ordinances concerning property rights, etc., have been made. Please be advised that the proposed project may require a Department of the Army (DA) permit under Section 10 of the Rivers and Harbors Act and/or Section 404 of the Clean Water Act. If a DA permit is required, it is the applicant's responsibility to obtain such permit from the New Orleans District Regulatory Branch prior to the commencement of any work. The USACE point of contact in the New Orleans District Regulatory Branch is Mr. Brad Guarisco at 504-862-2274 or Brad.A.Guarisco@usace.army.mil. This letter of no objection does not constitute a response to a Section 404/10 permit application, if required.

If you have any questions, please contact me. Additionally, future correspondence concerning this project should reference our Letter of No Objection number 19-0574. This will allow us to more easily locate records of previous correspondence, and thus provide a quicker response.

Thanks,

LINE AND PERFORMANCE MANHOLE WORK WITHIN  
ORLEANS PARISH WITHIN 1500 FEET OF THE  
MISSISSIPPI RIVER LEVEE AT NEW ORLEANS,  
LOUISIANA, IN ORLEANS PARISH

Dear Mr. Sanchez:

As per your November 10, 2022 email request for an extension for the above permit, the Flood Protection Authority on behalf of the Orleans Levee District grants an extension from November 19, 2022 to November 19, 2023 with no change in scope of work for the above referenced permit. This extension is granted provided that all provisions of the letter of no objection from the U. S. Army Corps of Engineers dated October 24, 2019 (LNO #2019-0574); Coastal Protection and Restoration Authority letter of no objection dated October 10, 2019 (LNO #18277) are strictly adhered to; which letters are attached and made a part hereof.

Since it has been a while since the original permit was issued, please review the LNO's from the USACE and CPRA and require the contractors to review them as well to assure compliance.

Sincerely,

Christopher G. Humphreys, P. E.  
Director of Engineering

Deborah,

As per my voicemail to your office, we will be requiring another 12-month extension on this permit. There is no changes in the scope of work at this time. We just need more time as our work is tied in to the City of New Orleans Joint Infrastructure Roadway Recovery work and the work is progressing slower than planned.

Sincerely,

Deborah,

Per our previous conversation, I am requesting a 12 month extension on SLFPA-East Permit No. OL2019-00153. The reason for this extension request is the project this permit governs is part of the City of New Orleans Roads and Recovery Program, and there were issues outside of the Sewerage and Water Board's control that delayed the project.

Please feel free to contact me if I can provide any additional information.

Thank you for your help in this matter.

Submit Date: 9/18/2019

## Applicant's Information

---

Name: Melvin R Spooner

Address: 8800 S. Claiborne Ave., New Orleans 70118

Phone Number: 504-865-0412

Email Address: rspooper@swbno.org

## Authorized Agent's Information

---

Name: susan nolan

Company: Stantec Consulting

Address: 1340 Poydras St., NEW ORLEANS 70112

Phone Number: 504-654-1734

Email Address: susan.nolan@stantec.com

## Statement of Authorization

---

I hereby authorize, susan nolan, to act in my behalf as my agent in the processing of this application and to furnish, upon request, supplemental information in support of this permit application.

Applicant Signature Date: 7/23/2019

## Project Details

---

### Project Name & Location

Project name or title: Carrollton Basin Sewer Rehabilitation

Name of levee system (if known): MR&T

Latitude: 29.933858

Longitude: -90.133622

Levee Station (if known):

Offset:

Levee Location Type: Protected Side

Section:

Township:

Range:

### Project Description

**Nature of Activity (Project description, include all features):** This project contains maintenance of sewer gravity line and manhole work within Orleans Parish, Louisiana. All work proposed is on existing sewer lines. All proposed work is located on the protected side of the Hurricane Protection System. The majority of the work is in the roadway or sidewalk areas. This is a closed sanitary sewer system and no drainage features are being constructed, repaired, or modified in any way.

**Project Purpose (Describe the reason or purpose of the project):** This project is needed to be completed by the Sewerage and Water Board of New Orleans to comply with a Consent Decree - Civil Action No. 93-3212 (Reference DOJ Case No. 90-S-1-1-4032). Some of the work included in this contract is authorized rehabilitation work by FEMA. The project is needed to repair defects in the existing gravity sewer collection system.

**Is any portion of this work already complete?** No

**Is this a renewal or extension of a previous permit?** No

**Application Type:** Government

**Insurance:** Yes

## Signature(s)

---

Application is hereby made for permit or permits to authorize the work described in this application. I certify and this information is complete and accurate. I further certify that I possess the authority to undertake the work described herein or am acting as the duly authorized agent of the applicant.

**Agent Submission Signature Date:** 9/18/2019

**Agent Approval Signature Date:** 11/18/2019

**Permitting Officer Signature Date:** 11/19/2019

New Orleans, LA 70122  
504.286.3100

In consideration of the referenced request, the Southeast Louisiana Flood Protection Authority – East (SLFPA-E), on behalf of the Orleans Levee District, does hereby grant permission to Stantec Consulting on behalf of Sewerage & Water Board of New Orleans (“Permittee”) to perform maintenance of sewer gravity line and perform manhole work within Orleans Parish within 1500 feet of the Mississippi River levee at New Orleans, Louisiana, in Orleans Parish.

1. A copy of this Levee Safety Permit, along with a set of approved plans shall be kept on the job site for the duration of the Work and made readily available for any inspector to determine that the Work taking place has been permitted by the Southeast Louisiana Flood Protection Authority –East (SLFPA-E), and is being conducted in accordance with approved plans. Failure to do so may result in the revocation of the Levee Safety Permit (“the Permit”) or construction delays. The Levee District has the option to reserve its rights to inspect area prior to construction.
2. All work is performed in strict accordance with the provisions set forth in the CPRA’s Letter of No Objection #18277 dated October 10, 2019 and the USACE Letter of No Objection #Revised 2019-0574 dated October 24, 2019 attached and made a part hereof.
3. Multiple contractors will be responsible for distinct portions of work, and a signed Hold Harmless form from each contractor is required. Stantec's license engineer and project manager will be responsible for providing each Hold Harmless form signed by the contractor as each contract is awarded.
4. No work or related activity shall be conducted within the levee district right-of- way.
5. Should changes in the location or section of the existing levee and/or river, or in the generally prevailing conditions in the vicinity, be required in the future in the public interest, the applicant shall make changes in the project concerned or in the arrangement thereof, as may be necessary to satisfactorily meet the situation and shall bear the cost thereof.
6. This Permit does NOT obviate the Permittee and Contractor from obtaining permits required from any federal, state, and local authorities, or the U.S. Army Corps of Engineers, the State Land Office, the Louisiana Department of Transportation and Development, and/or the Louisiana Department of Natural Resources-Coastal Management Division. Permittee and Contractors are responsible for obtaining all such permits and adhering to their provisions. The SLFPA-E is not responsible for insuring that the Permittee or its Contractor complies with rules, regulations or laws imposed by other governmental entities/agencies in regard to requirements for permitted activities, and does not enforce permits or regulations required by any of those entities. The Permittee is to provide copies of all city, state and federal permits

to the SLFPA-E prior to commencing work.

7. The SLFPA-E will not interpret or provide comments on any local laws, zoning or ordinances concerning property rights, operations, or any other activities governed by any Permit that is not a SLFPA-E Permit.
8. The permission granted under this Permit is being granted to the Permittee and is not transferable to any other person, company or agency.
9. This Permit does not constitute an approval of the engineering design or any opinion as to the feasibility of the Work.
10. The Work shall be constructed in accordance with the submitted details set forth in the Levee Safety Permit Application dated September 18, 2019 by the Permittee, the drawings and specifications accompanying the application, and all other provisions contained herein. This Permit shall automatically expire if construction of the permitted facility has not started within six (6) months of the date of the Permit.
11. Any changes to the limits or scope of the proposed Work must be submitted to SLFPA-E for additional review prior to commencement of work covered by the proposed changes.
12. Construction activities shall be completed within one year of the Permitting Officer's dated signature of this Levee Safety Permit.
13. The Permittee agrees to hold harmless, indemnify, and defend the SLFPA-E and its levee districts, its staff, Commissioners and agents against any and all damages which arise from the activities of the Permittee, or the Permittee's contractors, tenants and or lessees. Additionally, the Permittee, and all contractors and subcontractors employed to complete the Work must provide a completed SLFPA-E hold harmless agreement (attached with application) signed by a legally authorized representative of each contractor and subcontractor. The hold harmless agreement must be signed, sealed and dated by a Notary Public. An original copy of the signed and authorized hold harmless agreement must be delivered to SLFPA-E at the below address. An original proof of authority to sign the hold harmless agreement (such as a copy of a corporate resolution) must also be provided. Contractors and subcontractors that do not comply with this requirement shall not be allowed access to the levee right-of-way.
14. In addition to any other provisions provided herein, Permittee specifically assumes any and all responsibility for property damage to the SLFPAE or any of its levee districts' property, and to personal injury to the any of its officers, agents, servants or employees caused by, resulting from, arising out of or connected with the use of the Premises and/or any buildings and improvements thereon or caused by the activities of Permittee and/or its invitees and/or licensees on the subject property.
15. All contractors and subcontractors employed to complete work in the Right of Way shall provide certificates of insurance as proof of compliance with the SLFPA-E Levee Safety Permit Insurance Requirements, attached and made a part hereof. Contractors that do not comply with this requirement shall not be allowed access to the levee right-of-way. The

following shall be named as certificate holders and the additional insured on general liability, automobile liability, aviation liability and marine insurance:

Southeast Louisiana Flood Protection Authority – East  
6920 Franklin Avenue  
New Orleans, LA 70122

Failure to provide the appropriate certificates of insurance may result in a revocation of the Permit and/or construction delays.

16. The SLFPA-E permit office shall be given notice in writing at least 3 days (excluding weekends and holidays) prior to commencement of any work, and at the end of activities so that appropriate inspections can be made. The Permittee, contractor, or an authorized representative may send notification via email. However, the entity providing notification is responsible for verifying receipt of notification.
17. The Permittee shall provide the SLFPA-E with photographs of the completed work, which must show the relationship of the work and its relative location to the flood control structure making this Permit necessary.
18. The proposed Work shall not restrict the Levee District's maintenance operations, or any potential flood fighting activities along the levee, nor shall it obstruct or impede drainage, or create areas of standing water on the levee, along the levee toe, or in the levee batture.
19. No equipment, vehicles or materials of any kind may be parked or stored on the levee or its slopes without prior approval from the Levee District.
20. An "after-the-fact" Permit request will be reviewed as though no work had been initiated and any work found not to be acceptable for permitting shall be removed at the Permittee's expense. The Permittee is responsible for maintaining the existing level of flood protection at all times, and shall employ and maintain at the project site suitable erosion protection measures to the satisfaction of the Levee District.
21. The contractor shall preserve and protect all levee monuments and shall install a sleeve and cap at each monument locations to allow access to the monument through the asphalt pavement.
22. Any structural facilities constructed at the flood side of the levee and/or floodwall will be anchored sufficiently so as to resist flotation, collapse or lateral movement in the event of flooding or inundation. Alternatively in lieu of the above-referenced anchorage of installations and facilities they must be capable of immediate removal from the floodway upon request of the U.S. Army Corps of Engineers or the SLFPAAE.
23. All materials associated with the proposed Work must be removed from the area upon completion of the project and the area must be returned to its original state of existence or better.

24. Any damage done to the levee, floodwall or other flood control structure, revetment, or surrounding project area, resulting from the proposed Work shall be repaired or replaced by Permittee at the Permittee's expense and to the satisfaction of the Levee District.
25. The Permittee shall provide a set of As-Built Plans to the Southeast Louisiana Flood Protection Authority - East upon completion of the Work.
26. If for any reason the Permittee ceases to maintain operations, the APPLICANT/OWNER must obtain a modification of this Permit, which may require that any or all structures and materials in the area of operation be removed at the Permittee's expense.
27. The SLFPA-E may revoke this Levee Safety Permit if it determines that the provisions contained in this permit are not being met, or if the permitted activity damages the levee system infrastructure.
28. It is further hereby expressly agreed that the obligations of the Permittee under this Permit shall survive the expiration and/or termination of this Permit.
29. FOR CAMPS - Permittee understands that the SLFPA-E, the COE and/or their contractors may need access to the area to perform maintenance. Permittee also understands that because of the maintenance it may not have direct access to the site and may have to temporarily use an alternative route to access its property.

## PERMIT REQUEST FORM OF NO OBJECTION

This Letter of No Objection is not a regulatory permit and does not authorize the implementation of any project without documented approval from all appropriate regulatory authorities.

**Permit Applicant:** Sewage and Water Board of New Orleans

**Date of Request:** 09-18-2019

**Agent:** Stantec Consulting Services, Inc.

**Applicant's Request:** Approval to perform repairs to defective sections of gravity sewer pipe and to replace defective sewer services laterals by means of excavation. Service laterals are replaced to the property line. Most of the sewer lines are in the street or sidewalk area. The closest excavation to the levee will measure 227-feet long by 4-feet wide by 8-feet deep and will be located approximately 248-feet from the levee centerline and 195-feet from the levee toe.

Request received by email on 9-19-2019  
SLFPA-East Permit No. OL2019-00153

**Project Location:** All work will take place on the protected side and floodside of the left descending Mississippi River Levee, New Orleans, Orleans Parish, Louisiana.

Project Coordinates (closest to levee): ..... 29° 55' 16.492" , -90° 08' 04.174"

The above referenced request has been examined by Coastal Protection and Restoration Authority, and no objection is proffered for this request, provided:

1. This Letter of No Objection is only for stated work within or in the vicinity of the Levee District right-of-way, and must be accomplished in accordance with the details set forth in the applicant's request and the conditions contained herein. Any changes to the limits or scope of the proposed work must be submitted for additional review. The Levee District must be contacted in writing prior to commencement and at the end of activities. The applicant is responsible for obtaining and providing copies of any permits or lease agreements necessary from the U.S. Army Corps of Engineers, the U.S. Coast Guard, the Louisiana State Land Office, the Louisiana Department of Transportation and Development, the Louisiana Department of Natural Resources - Office of Coastal Management, the Louisiana Department of Wildlife and Fisheries, the Parish Government and/or any other applicable agencies, as well as documented approval from the area landowner(s) prior to the initiation of the work. The applicant is responsible for adhering to the provisions of any existing permits. The proposed work must not restrict the Levee District's maintenance operations, or any potential flood fight activities at the levee, nor shall it obstruct or impede drainage, or create areas of standing water on the levee batture. The applicant must employ and maintain suitable erosion protection measures at the project site to the satisfaction of the Levee District. The applicant or owner must immediately notify the Levee District of any seepage or sand boils that occur during high water conditions. All materials associated with the proposed work must be removed from the area upon completion of the project and the area must be returned to its original state of existence or better. Any damage done to the levee, floodwall or other flood control structure, revetment, or surrounding project area, resulting from the proposed work must be repaired or replaced by the applicant. Should any change in the location of the existing levee, river, floodwall, drainage

canal, waterway, or generally prevailing conditions in the vicinity, or should any changes in the area be required in the future, in the public interest, the applicant shall make such changes in the project as necessary. Any required changes or repairs shall be at the applicant expense. This letter of no objection is offered with no opinion or approval of the design or engineering feasibility of the work.

Failure to abide by the conditions and requirements set forth in this Letter of No Objection may constitute non-compliance with the State of Louisiana comprehensive master coastal protection plan and may subject the levee district and/or the applicant/agent to any and all procedures and actions by CPRA or the CPRA Board pursuant to La. R.S. 49:214.5.2(A)(6) and as may be necessary to ensure compliance with such comprehensive master coastal protection plan.

2. That the proposed activities occur and are completed prior to or after high water stages or hurricane conditions such that no operations are conducted at saturated levee systems. Authorization for work periods will be determined at the discretion of the levee district.
3. That all subsurface work is performed and backfilled prior to the Mississippi River attaining or exceeding + 11.0 feet NGVD, on the Carrollton Gage at New Orleans, unless the applicant receives documented approval to the contrary from the U.S. Army Corps of Engineers-New Orleans District.
4. That no equipment, vehicles, or materials of any kind are parked or stored on the levee or on its slopes without prior approval from the levee district.
5. That no excavation is allowed within 15-feet of the protected side levee toe or 40-feet from the floodside levee toe.
6. Open trenches parallel to the levee which are three feet deep and greater are limited to 50 feet of excavation open at one time.
7. All excavations must meet OSHA Standards
8. For braced excavations within or near the levee section, the applicant shall furnish the geotechnical parameters necessary for design and the means and methods to be used to perform excavation(s). If engineering design is required, the applicant shall furnish plans and specifications for the excavation(s) certified by a professional engineer registered in the State of Louisiana. All necessary documentation shall be furnished to CPRA, USACE, and the levee district.
9. That excavated areas are backfilled as expeditiously as possible using clay material whose composition and density equals or exceeds that of areas adjacent to, and along the perimeter of the excavation boundary, or with native material.
10. That the applicant contact the Department of Transportation & Development Office and obtain any permits that may be required for any operations, work or construction occurring within or adjacent to U.S. or Louisiana Highway Right-of-Way. The applicant must adhere to any DOTD District Office requirements imposed for vehicle ramp intersection with the Louisiana Highway right-of-way, as well as for traffic control and safety needs. The appropriate Highway Right-of-Way Permit Contact can be found at the following link:

[http://wwwsp.dotd.la.gov/Inside\\_LaDOTD/Divisions/Engineering/Road\\_Design/Right-of-Way/Pages/Contacts.aspx](http://wwwsp.dotd.la.gov/Inside_LaDOTD/Divisions/Engineering/Road_Design/Right-of-Way/Pages/Contacts.aspx)

2019-10-10  
Page 3

11. That the ground surface is properly swaled or contoured to drain to subsurface drainage areas and away from the flood control structure.
12. That the applicant is responsible for maintaining the existing level of flood protection at all times to the satisfaction of the levee district.
13. That the work will not damage the floodwall, floodgate, or levee and must not obstruct the operation of these structures.

Yours very truly,

for Ignacio Harrouch, Operations Division Chief  
Coastal Protection and Restoration Authority of Louisiana

**From:** Cefolia, Madeline M CIV (US) <Madeline.M.Cefolia@usace.army.mil>  
**Sent:** Thursday, October 24, 2019 9:12 AM  
**To:** CPRArequest@la.gov; rspooner@swbno.org; Nolan, Susan; Chris Humphreys; Ryan Foster; Deborah Abu Naser  
**Subject:** Letter of No Objection for Stantec Consulting on behalf of Sewerage & Water Board of New Orleans 2019-0574  
**Attachments:** E2019-0574.pdf

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Morning,

Please disregard previous Letter of No Objection and take this as our revised and final copy.

All,

We have received a copy of the attached application from Stantec Consulting on behalf of Sewerage & Water Board of New Orleans, dated 19 July, 2019, concerning permission for a permit to perform maintenance of sewer gravity line and perform manhole work within Orleans Parish within 1500 feet of the Mississippi River levee at New Orleans, Louisiana, in Orleans Parish.(P20190750)(OL2019-00153)

Please take this email as our LNO for the project.

We have no objection provided:

- a. The work is accomplished in accordance with the above referenced application and accompanying drawings.
- b. All excavation work within 400 feet of the Mississippi River levee is performed, completed, and backfilled while the stage of the Mississippi River is below +11.0 feet on the Carrollton Gage, at New Orleans, Louisiana. Information concerning current river stages may be obtained on our website at [www.mvn.usace.army.mil](http://www.mvn.usace.army.mil).
- c. All excavation work more than 400 feet from the Mississippi River levee is performed, completed, and backfilled while the stage of the Mississippi River is below +15.0 feet on the Carrollton Gage, at New Orleans, Louisiana.
- d. Excavations are backfilled with an impermeable material such as clay (not sand). Permeable materials can only be used as bedding material and must be grouted.
- e. A grout curtain is required for the 6 inch compacted sand base around the pipes every 400 feet for the entire length of the pipeline. Only excavations that are within 400 ft of the levee toe need to have a grout curtain or clay plug to prevent seepage through the bedding material. Any excavations within this zone that exceed 400 ft in length, whether excavations are performed continuous or in stages, will require the grout curtain or clay plug every 400 ft. The thickness of the curtain/plug is should be between 5 to 8 ft. At the repair points where the pipes are not replaced no curtain is needed. The grout shall meet the following criteria: The slurry shall consist of one part cement, two parts bentonite, and six parts sand mixed with enough water to produce a slurry viscous enough to thoroughly fill the voids. The resulting slurry shall have no less than 12 pounds of solids per gallon.
- f. Notice is given to the Orleans Levee District prior to the start of any work covered in this proposal.
- g. Any damage to the levee or floodwalls resulting from the applicant's activities is repaired at the applicant's expense.

h. The applicant must provide written notification to this office of the construction timeline to include the proposed start and end dates. Additionally, the applicant must notify this office prior to commencement and upon completion of the work permitted herein.

This letter of no objection is based upon engineering criteria and potential impacts to the flood risk reduction system only, and no interpretation or comments regarding local drainage or traffic issues, local laws, zoning, or ordinances concerning property rights, etc., have been made. Please be advised that the proposed project may require a Department of the Army (DA) permit under Section 10 of the Rivers and Harbors Act and/or Section 404 of the Clean Water Act. If a DA permit is required, it is the applicant's responsibility to obtain such permit from the New Orleans District Regulatory Branch prior to the commencement of any work. The USACE point of contact in the New Orleans District Regulatory Branch is Mr. Brad Guarisco at 504-862-2274 or Brad.A.Guarisco@usace.army.mil. This letter of no objection does not constitute a response to a Section 404/10 permit application, if required.

If you have any questions, please contact me. Additionally, future correspondence concerning this project should reference our Letter of No Objection number 19-0574. This will allow us to more easily locate records of previous correspondence, and thus provide a quicker response.

Thanks,

Madeline M. Cefolia
