

## Specifications for Mulch Products for the Capitol Park

- Double ground hardwood mulch of less than three-inch particle size.
- Non-toxic brown dyed mulch and/or natural undyed mulch.
- Finely shredded with fibrous texture to aid in areas prone to flooding during heavy rainfall.
- Adds organic matter to existing landscape areas.
- Available for pickup and/or delivery.
- Delivery loads up to eighty (80) cubic yards bulk in a single day as to the spatial accommodations of the Office of State Buildings' storage area.
- Bagged mulch in seventeen (17) pallet truck loads for up to and no more than three truckloads in one day.
- Delivery of the product will be included in all fees.
- Deliveries made Monday through Friday, Saturdays and Sundays as necessary and coordinated beforehand with both party approvals.
- Approximately from twelve hundred (1220) cubic yards upwards to fifteen hundred (1500) cubic yards mulch per seasonal application or the bagged equivalency.
- Mulch needs to be "On Demand" to have a continuous supply daily until the agreed upon amount is delivered. This will assure the rapid installation by our Contractor.
